

SOUTHWEST HARBOR WATER & SEWER DISTRICT

Town Hall

Tuesday March 24th 2026

4:00 PM

Lee Worcester, Ralph Dunbar, Karen Redderson, Ken Minier, Allan Willey
Aaron Zurek

Item 1 Convene meeting

Meeting convened by Lee Worcester at 4:07 pm with a full quorum.

Item 2 Change order #22 Grinder for the wastewater treatment plant

Discussion by the district manager to the trustees about the cost and why the grinder is warranted. The options included the change order as presented, using the old grinder, or do nothing and not have a grinder. The trustees asked the district manager what the possible outcomes could be in weight the different options. Karen asked the district manager to find out from the engineers where the district stood in the number of change orders and the amount of dollars the changer order added up to. She also asked how they compared to other projects. Aaron told the board he would talk to the engineers and find out the information requested and would share the findings. It was agreed upon that protecting the equipment downstream would be in the best interest of the district. Ralph thought that this was an oversight by the engineers but was warranted change order for the future. Lee made a motion to accept the change order as presented. Ken 2nd the motion and the vote was unanimous.

Item 3 Adjourn meeting

Ralph made the motion to adjourn the meeting at 4:22pm, Ken 2nd the motion, unanimous.
