Real time bidding & proxy bidding available.

Welcome to the fourteenth annual Namken Red Angus Production Sale! It's an exciting time to be in the cattle business. After the sacrifices this work requires, it feels good to see those efforts rewarded. Whether you're marketing a calf crop you bred and raised or finally selling that old cow that needs a new home, strong markets seem to put a little extra spring in everyone's step, even when the weather isn't cooperating.

Our program starts with one priority: a strong, maternal cow, followed by growth. We run our own commercial cows, test our bulls on them, and finish every animal that doesn't make the replacement pen. How many seedstock producers can say that? We are truly excited about this year's offering as this set of bulls has been especially fun to watch develop. They've been raised the same way we do it every year, developed to be athletes, not fat bulls that melt down by midsummer. Each year we're humbled by the number of comments we hear like, "Your bulls hold up better than any others we've purchased." That means a great deal to us. Your investment in our program matters, because if you're not satisfied, neither are we.

We want to thank our loyal customers who have supported us for 26 years. Without you, we wouldn't be able to do what we love most: raising kids and cattle.

We invite you to join us for the sale on Sunday, February 22, 2026. If you can't attend in person, the sale will be broadcast on DVAuction. If you have any questions, please give us a call, or better yet, stop by anytime for a tour.

We hope to see you on the 22nd!

Sincerely,

Jared & Lacey Namken

Paisley, Cooper & Presley

DIRECTIONS From Watertown, SD: South on US Hwy 81 until the Hwy 81 and SD Hwy 21 Junction, keep going 1 mile south (to 189th St), then 1¼ miles east. From Arlington, SD: North on US Hwy 81 until the junction of SD Hwy 28, keep going 3 miles north (until 189th St), then 1¼ miles east.

Supplement sheet with sale order, ultrasound data and scrotal measurements available sale day.

SEMEN TEST Every bull will pass a semen test before it leaves. Bulls will be tested AFTER the sale.

SEMEN INTEREST Namken Red Angus will retain a 1/3 in herd semen interest in every bull in the sale. Buyer is buying 2/3 semen interest, full possession and salvage value.

DELIVERY Delivery on bulls will start around April 1, after they have passed a semen test. Bulls will be delivered the first 400 miles for free. Heifers are buyers responsibility to be picked up.

VOLUME DISCOUNT We will give a 10% discount on the 10th bull purchased from Namken Red Angus over any period of time. This allows even the smallest buyers to receive volume discounts! For your convenience, Namken Red Angus will keep track of your number of purchases.

TERMS The terms of the sale are cash and the right of property shall not pass until after the settlement is made. All settlements must be made immediately following conclusion of the sale as no cattle will be released until settlement has been made.

CONDITIONS All cattle sell according to the suggested Terms and Conditions of the Red Angus Association of America.

PURCHASER'S RISK Each animal becomes purchaser's risk as soon as the auctioneer says sold.

ANNOUNCEMENTS Any announcements or changes stated from the auction block will take precedence over any printed material. We are human and do make mistakes however, we will correct them to the best of our ability.

LIABILITY Neither owners, sale managers, auctioneer, clerks nor anyone connected with this sale in any way assumes responsibility, legal or otherwise, for damages of any kind.

While we originally purchased Revolution to cover commercial cows his first calf crop excelled and we knew we needed to sample him on purebred cows. This son of the Shaggy Meadows Herd sire ARO Mr 906, is loaded with extreme cow power. As you study his pedigree on the topside you will find Red SSS Ambush, Red SSS Endorse, both ground pounding performance plus maternal and efficiency sires. On his bottom side SAV Final Answer carrying low birth along with growth with excellent udder quality. Owned with Shaggy Meadows Red Angus

We added Executive 42J to the Herd Sire lineup from the 2022 W Sunrise Annual Bull Sale. Chosen for his masculine characteristics, good performance, maternal pedigree, traditional Angus head, an excellent hoof shape and great disposition. This bull exhibits great libido in the breeding pasture while being easy fleshing. Yes, he is a black red carrier. Something we aren't afraid to use with the genetic progress this bull offers. His dam, Red Brown Creek Molly 99C, has a proven track record. She has produced multiple progeny in high demand. His sire, PM Executive Decision 5'17 is currently making waves in the Angus world siring gorgeous females with impeccable udders. PM Executive Decision is turning out to be a breed changer. Magellan was added to the herd sire battery from the 2022 SSS Red Angus Bull sale. Chosen for his performance and extended skeletal outline with a refreshing pedigree. His Dam, Jessie 588F, weaned him off at a 112 WW ratio. His sire, Red Allison Mooney 62G, is leaving his mark in the industry with his gorgeous daughters. We are excited to see the Magellan 316 daughters in production.

When we were searching for a herd sire with length of side, moderate birthweight and not sacrifice growth, foot structure and eye appeal we found 219. This bull checked all the boxes and has certainly been living up to our expectations. Hence why he was the high seller in the 2023 Fritz Bull Sale. His progeny are very consistent in type and kind. Proven as a calving ease bull we are certainly like what we see in his progeny. Owned with Fritz Red Angus

Hugo is a bull we sold to Lauer Farms in our 2021 Bull Sale and used through AI. A pedigree stacked with female makers such as Red Flying K Hard Drive 83E, Red ML Max 862U, Namken Resource 33D and Rob Roy. Hugo posted a 110 WW Ratio and a 115 YW Ratio and a 1562 YW. The Hugo daughters are making productive females and the sons are exhibiting moderate birthweights and great growth. Hugo is a bull that has been a herd changer by improving feet, scrotal, udders and teats. Hugo's dam, 227F, comes from the highly maternal Sierra cow family. 227F is proving her maternal ability with a 107 MPPA and has made her way into the donor program. Hugo is deceased with limited semen.

A dark cherry red low birthweight bull that posted WW and YW ratios of 104 and 110. His dam, 43F, is a low birthweight cow stemming from the Sierra family. The Sierras are productive cows and 43F holds a 104 MPPA with a gorgeous udder. Low birth with growth and a great cow family. What more could you want?

The age-old adage comes to mind that "Good bulls come from good cows and cow families." Bold Ruler's dam is moderate framed broody female with a gorgeous udder with a 107 MPPA. In Bold Ruler's four generation pedigree, the average MPPA is 106. I have faith that Bold Ruler's daughters will be productive brood cows. Bold Ruler started out with a moderate birthweight, weaning off as the second heaviest calf with a 118 ww ratio, posting the fifth heaviest YW with a 116 ratio with exceptional ADG and WDA numbers. His EPD's tell us he has growth in the top 1% of the entire breed. Being sired by the deceased Hugo, just reiterates the performance and cow families throughout his pedigree. Bold Ruler will be used within herd to continue Hugo's influence. Don't miss this opportunity to purchase this powerful outcross sire.

While walking the pen, 38N quite often catches people's eye. With his capacious rib cage, length and performance, this bull will sire feeder calves that will smash the scales at pay day. His performance ranks 3rd for WW, 2nd for YW, and 2nd for ADG. His broody dam has a MPPA of 105 and a granddam that had great longevity. Maternal brothers have sold to KS and NE. If you sell cattle by the pound, don't miss this bull!

The highest performing bull in the entire offering with a 4.75 ADG and posting a YW of 1449. He also ranks 5th for WW in the natural mating offering which gives his dam a 107 MPPA. The Julia cow family is known for its performance. 47N is the largest framed Hugo son in the offering and may be the most attractive fronted Hugo. A bull that will sire a set of feeder calves that will have the order buyers begging for more. Hugo 47N will produce calves that will grow and females that will milk.

74N blends power and softness in a structurally appealing package. This wide based bold ribbed Magellan son posted a 109 WW ratio and a 108 YW ratio while coming in 4th for ADG. If someone wanted to put together about five Magellan sired half brothers and make a consistent calf crop, this would be one to add to the bull battery.

Here is a larger framed Magellan, SSS Cooper mating that has the highest WW of the entire offering. He posted a 114 WW and YW ratio and ended up 3rd in the entire offering for yearling weight. His dam, 225D, is no stranger to raising calves that grow as she has a 108 MPPA. 86N will produce steers that with that added payweight and growth.
