## From the Editor

Happy New Year of chess! We finished off 2023 with the DCC Fall Classic and Colorado Springs City Championship which are both featured here. 2024 starts off with the DCC Tribute to MLK followed by our State Scholastic Championships. The amount of chess in Colorado and around the world continues to amaze me. Chess touches everyone in different ways and what a great catalyst to bring people together. One of our stories in this issue "Incarceration Unveiled", shows the life changing effects that chess can have on people. What does chess mean to you? How has it affected you? What attracts you to the royal game? Please write to me if you'd like to share your chess story here...

## CSCA President Earle Wikle's Message

---

I hope everyone had a pleasant and joyful time over the holidays.

Looking back over the year, I am definitely pleased that Colorado has been able to host many successful chess events this past year. I have to thank all the organizers, tournament directors, volunteers, and most of all the chess players that showed up for the events. The Denver Open had a record 191 players show up, and the Colorado Open with 166 players had one of the biggest turn outs in the past several decades. I'm happy to see many young players rise up to establish themselves to higher ratings.

And just like that we are starting another year. I look forward to continue and host all the fantastic chess tournaments in Colorado. First up is the DCC Tribute to MLK, I hope you can take time to come play in this classic event Jan. 13 & 14. After this we host the Colorado State Scholastic Championship at the Arapahoe County Fairgrounds Feb. 3 & 4. This year I will setup 12 DGT boards for display of games at many events.

Look for more and more tournaments as I get them scheduled throughout the year. I really hope all of you have the time to come play in Colorado chess tournaments. I enjoy watching the great competition and growth of chess in Colorado. Thank you all and let's make 2024 another successful year for chess in Colorado.

Very Respectfully,

## Annual Colorado State Chess Association (CSCA) Meeting

---

Wednesday December 6, 2023

### Members Present:

President Earle Wikle

Vice President: Jesse Cohen

Treasurer Andrew Starr

Secretary: Nicholas Brookins

GM: DuWayne Langseth (Not present)

Todd: Present

Shirley Herman: Present

## ACTIONS

Jesse: would like to proffer a motion to have a fee for the food trucks. Three trucks are enough, one inside and two outside.

Motion: No more than three trucks. Charge \$250 a day if they use the kitchen inside, and \$100 if an outside vendor.

Vote is unanimous, all members raising their hands to confirm. So motion passes.

## FINANCIALS

Andy reports that our tax postcard has been filed.

We paid a down payment of \$1,700 last week, and they have not responded back yet. We need Tom's input on score sheets, and other notables.

## NEW BUSINESS

**Scholastic championship** February 3-4, 2024. Earle is hoping to get volunteers and get everything set up.

Jesse: Able to get a food truck, and they were using the kitchen. Jesse has not been in contact with the food truck vendor. Jesse will see if he has contact information for the trucks. The fairgrounds did an inspection on the spot to try and get us additional vendors for food. Three last year seemed like enough. Quite a few people ate inside.

-Jesse: charge a premium to use the kitchen, and what would that premium be.

-Maybe the CSCA turns the area around the kitchen into a concession stand.

-Jesse: Concession stand: bottled water, soda, simple snacks selling for the CSCA.

Paradise Tavern's: possibly using them again. Jesse suggests Earle have a meeting with them since he knows the contract. Possibly approve the financials and discuss. Have to check the contract to ensure we don't try to circumvent the vending machines, so they don't lose money.

Todd: Dean will be the technical advisor to run the software. We will require a TD for every section. Saturday we will need an extra two people for the kindergarten section. Someone responsible for checking the kids in. Seat the kids right away and going down the list.

Andy and Dean were walking around last year as an extra person for additional staff for restroom breaks, extra eyes.

Earle: How much was the "jubilosity venue", it was for free originally, and then they started charging. They were only going up with the rate of inflation. Unlike the hotels, who charge exponentially higher each year. The total cost is the bottom line, the cheaper the better. Hotels will charge an additional 24%.

Last Scholastic tournament: About 250 kids and twice that for parents. Set up for 300 people. Kindergarten section holds about 40 kids.

Jesse: Food trucks: Charge \$500 a day per truck to help offset the cost. Possibly charge \$10 additional fee to offset our cost.

Earle: Question for Jesse, \$500 may be a little excessive. Earle was thinking \$200 per day charge for food trucks. We had a \$1000 deposit, and then the venue charged \$1800-\$1900 afterwards. Andy you initially paid the bill and Tom reimbursed approximately \$2500. We are trying to ensure that we have the tables and chairs charged for initially and not have them charge us after the event is completed.

Earle: is trying to find different venues. The Sheraton looks appealing.

At the end of the Colorado Open, Earle asked if the Embassy Suites was available next year. Embassy Suites stated they already gave the venue away to a football event. We may have to move the Colorado Open until after Labor Day because for the weekend of Labor Day many venues are being reserved. Earle booked the Sheraton just in case.

The hotel in the Springs will hold the Class Championship. Looking at Greeley and possibly the Fairgrounds for the Senior Open. All Girls championship can be done at the library.

Jesse: possibly investigating churches, Elks lodge. Colleges are a concern because they want free entry for their students taking away from our profit margins.

Jesse: Colorado Scholastic Chess league did kick off. There is a demand to go back to over the board games and not online for all the schools. We have 18 teams over 8 schools. Two divisions, one team is the primary, and a secondary team. Will manifest in \$900 minus the trophy cost.

Earle: Didn't want to take away the scholastic championship. Have another discussion as far as separating the scholastic championship and a separate tournament that is not the state championship. Thinking in the future to decide rules such as rating restrictions.

Jesse: Fundraiser for raising money. Jesse is wondering if we can spread flyers to boost participation. Possibly inquire if Rebecca Graham would be interested in assisting with fundraising because she has experience in this arena. Would like a flyer altered to represent the new 2024 year.

## OLD BUSINESS

Website Project: discussion on moving forward with purchasing software and solidifying the team related to them being high school students.

With no further business to discuss, the December board meeting was closed.

Signed

Nicholas Brookins, Colorado State Chess Association Secretary

## Upcoming 2024 Colorado Scholastic Chess Championship

---

Dearest Fellow Chess Parents, Students, Participants & Facilitators,

Across Colorado, a quiet revolution is brewing. Young minds are ablaze with the strategic fire of chess, and their numbers are swelling like a rising tide. We, the guardians of this intellectual awakening, have a momentous responsibility: to channel this energy into a wave that crashes upon the 2024 Colorado Scholastic Chess Championship, doubling our impact and crowning twice the champions!

Last year, 225 bright minds locked horns in a thrilling display of logic and sportsmanship. We witnessed tears of joy, sighs of defeat, and most importantly, the unyielding spirit of young minds pushing the boundaries of their potential. But can you imagine the thunderous applause, the doubled cheers, the immense pride of seeing 450 young champions take their rightful place on the podium?

This, my friends, is the dream we must turn into reality. We are not merely chess facilitators; we are architects of destiny. We mold the minds that will one day shape our world, and chess is the chisel carving their brilliance. Together, let us build a stage grand enough to showcase their talent, a tournament so inspiring it echoes through the halls of Colorado's chess legacy.

Think of the faces, etched with determination and exhilaration. Think of the parents, beaming with pride at their children's intellectual prowess. Think of the ripple effect, the countless communities ignited by the spark of chess, by the sheer force of our collective action.

This is not just a tournament; it's a movement. It's a testament to the transformative power of chess, a beacon of hope for the future of our state's young minds. And you, my esteemed colleagues, are the generals in this noble campaign. With every registration, every shared poster, every passionate conversation, we build the army of champions. Let us join hands, strategize, and mobilize our communities. Let us unleash the power of chess, doubling our impact and making the 2024 Championship a day etched in Colorado's chess history.

The clock is ticking, friends. The battle plan is laid out:

**Spread the word:** Share the registration links (<http://www.coloradochess.com/newtourn.shtml?id=1393#tournamentContent>, <https://caissachess.net/online-registration/index/3670>) on your platforms, in your schools, and across your communities.

**Inspire your students:** Let them know their brilliance deserves a grand stage. Fuel their competitive spirit and guide them towards this pinnacle event.

**Lead by example:** Register your students early, volunteer your time, and be the driving force behind this movement.

Remember, even the grandest chess games start with a single move. Let us take that first step, together, and watch the magic unfold.

With unwavering optimism and boundless faith,

**CSCA Vice President Jesse R. Cohen**

P.S. Don't forget to check out the full details of the championship (<http://www.coloradochess.com/newtourn.shtml?id=1393#tournamentContent>) and let's make this the most talked-about chess event in Colorado history!

## Denver Chess Club 2023 Fall Classic

By JC Macneil (reprinted with permission)

There is no question that the popularity of chess continues to rise. Looking over the registration list for the 2023 DCC Fall Classic, I didn't recognize even half the names. Back in the day, Brian Wall and I could name any player in the room. Mainly because there were nowhere near as many players and it was pretty much the same players at each tournament. I'm glad to say those days are long gone. Part of the reason for the rise of popularity is chess parents have become aware that chess is good for helping their kids learn how to think.

*What other game can get kids to sit still for hours*

So it's good to see more and more school age players taking up the game. I think the reason is the sense of accomplishment that comes with winning by what you, and you alone, did throughout the course of the game, and knowing that luck had little or nothing to do with it. When playing a game sometimes you'll see a tricky winning combination and your eyes light up. Or in a bad position, you find a way to save the game. Meaning sometimes a draw is even better than winning. When you save a lost game, you snatch defeat from the jaws of an opponent's victory :-). All this is just saying there is a thrill factor to playing tournament chess, that non-players just don't get.

Speaking of scholastic players, this is from scholastic chess organizer Jesse Cohen who runs the Summit School of Chess. "I'm getting ready to formally announce that the 2023-2024 Colorado Chess League (for elementary and middle school) will be starting in November... A way to form a school team and compete against other school teams." Mr. Cohen has been promoting and organizing school team tournaments for years and years. Contact Jesse for more information.

*Owen Curtis (b) vs Alex Bohn (w)  
Last round game for the championship*

So then, all that said, on to who won a share of the huge DCC Fall Classic 4500 dollar prize fund. In the Championship section, it cannot be called anything but a big surprise that Owen Curtis - USCF rated "only" 1819 finished ahead of NM Brian Wall, NM

Richard Shtivelband, and strong Expert Rhett Langseth. With 4 wins and a Round 4 bye, Owen took clear 1st place and won 600 Dollars. Well done, Mr. Curtis!!

Mr. Wall, Mr. Shtivelband, and Mr. Langseth all ended up with 4 points and they share the combined 2nd, 3rd, and U2200 prize. With each player winning 266 dollars and 67 cents. Why Rhett is sharing the U2200 prize was beyond me. It seemed that should have been extra for him alone since Brian and Richard are rated over 2200. Earle Wikle, DCC President and chief TD, explained that it was due to USCF rule 32B. Reading through the density of that was also beyond me :-)

Of note is Alex Bohn's (rated 1846) first four games were all huge upsets. He started out with a win against NM Shtivelband, held a draw against former CSCA President, Brad Lundstrom, won against near Expert Luis Jimenez, then beat strong Expert Rhett Langseth. Only losing in the last round to the DCC Fall classic Champion, Owen Curtis. Mr. Bohn won the 200 dollar U2000 prize. Proving that you can't look at a player's rating and assume a result. As we should all know by now :-)

*DCC Treasurer Luis Jimenez vs. Daniel Herman*

In the U1800 section, Willard Davis and Eli Cohrs each finished with 4 points. They share the combined 1st and 2nd place prize of 700 dollars. Mr. Cohrs had 3.5 points going into the last round, and with a win against Darshan Satishkumar would have taken clear 1st place. But Darshan was having none of that and the game ended in a draw. Allowing Mr. Davis to tie with a last round upset win over Johnathan Amdahl. Kristopher Zelkin and Mr. Satishkumar both finished with 3.5 points and they share the 3rd place prize of 200 dollars.

*Eli Cohrs (b) vs. Darshan Satishkumar (w)*

In the U1600 section, both Kyle Luo and Mark Lauer ended up with 4.5 points. Tying for 1st and 2nd place. Mr. Lauer benefitted from a 1st round forfeit win, and when they were paired against each other in round 3, Mark held the higher rated Kyle to a draw. Both players won 287.50 dollars for their excellent play.

Krish Mathimaran won the 125 dollar 3rd place prize with 3.5 points. Matthew Miller and Conner Tran didn't win any money with 2.5 points, but they will be gaining USCF rating points, as their scores were all from upsetting higher rated opponents. Who cares about the money? It's the rating points that matter :-)

**Seth Fortinsky (b) vs. James Colbertt (w)**

Seth Fortinsky took 1st place in the U1400 section with 4.5 points and won 350 dollars. The combined 2nd and 3rd place prize was won by Micah Pena and Ricky Marchant. They both won 175 dollars with 4 points. The youngster James Colbertt had the best upset in this section when he won against the 248 higher rated, An Andy Hoang in round 3. I should mention that Shirley Herman only scored 1 point, but it was from drawing against two much higher rated players.

**Lan Troung (w) vs. Brendon Wells (b)**

In the U1200 section, Lan Troung won the 1st place prize of 300 dollars with 4.5 points. It may have been a 5-0 score if he had not taken a 1st round bye. The combined 2nd and 3rd place prize was won by Jason Wu, Harley Richardson, and Brendan Wells. They all finished with 4 points and each player won 100 dollars.

Micheal-van Dinh had a nice last round 384 rating point difference win over Alison Walker. There were only two other upsets in this section, and both were less than a 100 point rating difference. My opinion is if it's not more than a 100 point difference, it's a big win but not really an upset. I am hoping at next year's DCC weekend tournaments, we will have Upset prizes as we do for our Tuesday and Thursday night tournaments.

I'd like to finish this report by saying I appreciate DCC President, Earle Wikle, having a five sections tournament. Thus spreading the wealth and allowing any player - regardless of their rating - some chance of winning prize money. Also thanks to Mr. Wikle for setting up the DGT boards. Quoting Mr. Wikle: "The top eight boards (1-4 Championship, 5-6 U1800, 7-8 U1600) were displayed on the Library's big projector screen so that all can watch the games without getting up and walking over to the top boards. One person commented, "Nice touch". It most cer-

tainly gave a feeling of seeing those old pictures where the top boards were displayed on a big board on the wall for the public to watch from a distance."

Mr. Wikle had this to say about the Aurora Library: "I would like to thank the Aurora public library for allowing us to use the library and stay after to get setup, play, and tear down. The whole library staff is amazing, and most notably Tessy Walker, Virginia De La Paz, Andrea North, Nisha Chatnani, Justine Camacho, all helped out with making the tournament a success." Mr. Wikle has informed me that, unfortunately the library will closing on Sundays in the near future. Mr. Wikle asked me to include a library contact and for us to ask them to reconsider their decision. Assistant TD, Peter Barlay is on the job. He and Earle Wikle do good work.

Many thanks to assistant TD Peter Barlay for once again making sure Earle got things right :-). Of course, the DCC is most grateful for the players who play in DCC tournaments. Casual chess is all well and good, but tournament chess for prize money and rating points is the real thing. Thank you all very much.

The DCC also very much appreciates chess parents who wait patiently while their kids play a game that can last hours. Thank you. Somehow I accidentally deleted a photo of the #1 chess parent, Nicole Hagg. Proud parent of Phineas Hagg. Also, I can't tell you how much I appreciate John Brezina taking pictures at DCC tournaments.

**Another DCC tournament has filled up the room with chess players**

## DCC Fall Classic by Earle Wikle

This year the 2023 DCC Fall Classic was held at the Aurora Public Library Central branch off E. Alameda Ave. 101 players showed up to fight it out in 5 sections, Championship +1600; U1800; U1600; U1400, and U1200; with a total prize fund of \$4500. The tournament had a number of upsets in all sections, and many were on the top boards in each section shown on 12 electronic DGT boards. The top eight boards (1-4 Championship, 5-6 U1800, 7-8 U1600) were displayed on the Library's big projector screen so that all can watch the games without getting up and walking over to the top boards. One person commented, "Nice touch". It most certainly gave a feeling of seeing those old pictures where the top boards were displayed on a big board on the wall for the public to watch from a distance.

I don't know if it was because the players were playing on DGT boards, or the beautiful Fall weather, or perhaps the eclipse, but in round 1 of the championship section, the top two boards with masters were upset. Only to have the masters come back and finish the tournament 4-1 and tie for second through fourth. Rhett Langseth looked as though he was going to repeat his first place finish in the Denver Open, but was upset by Alex Bohn, who also beat LM Richard Shtivelband in round 1. Due to all the upsets, in the last round two class A players were on board one playing for first place. The young chess coach from the Fort Collins area, Owen Curtis, defeated the upset king, Alex Bohn, in the final game. Owen took home first place and \$600. LM Wall, LM Shtivelband, and CM Rhett Langseth, pooled the money from 2<sup>nd</sup>, 3<sup>rd</sup>, and under 2200, to split \$800 three ways for \$266.67

In the U1800, Willard Davis and Eli Cohrs tied for first and second, each taking home \$350. With Eli scoring two wins and two draws against the top five finishers, and gaining 112 rating points. Kristopher Zelkin and Darshan Satishkumar finished with a tie for third and fourth, each winning \$100.

In the U1600, Mark Lauer and Kyle Luo tied for first and second, winning \$287.50, and Krish Mathimaran placed third, winning \$125.

The U1400, Seth Fortinsky with 4.5 took home clear first winning \$350. While Micah Pena and Ricky Marchant tied for second and third, winning \$175.

In the U1200, Lan Truong with 4.5 won first \$300, and Brendan Wells, Harley Richardson, and Jason Wu, finished with 4 points to equally divide up \$300 to take home \$100 each.

Finally, I would like to thank the Aurora public library for allowing us to use the library and stay after to get setup, play, and tear down. The whole library staff is amazing, and most notably Tessy Walker, Virginia De La Paz, Andrea North, Nisha Chatnani, Justine Camacho, all helped out with making the tournament a success.

## 2023 US Chess Championships

By John Brezina

The 2023 US Chess Championships took place October 5-18 in St. Louis hosted by the St. Louis Chess Club for the 15th year in a row. Over those years it has been elevated to the premier US event with first class facilities and prize payouts thanks to Rex & Jeanne Sinquefeld. Twelve of the best players returned to the US Championship field on the men's side and the top twelve women competed in the US Women's Championship. Making this tournament extra special is that the opening and closing ceremonies are open to the public, making a great opportunity to meet your favorite players. I was fortunate to attend both and enjoyed meeting so many wonderful people.

**Grandmasters Melik Khachiyan and Irina Krush**

I arrived in St. Louis before the opening ceremony with some time to stop by the chess club. You never know who you'll run into around the club and I was fortunate to see Grandmasters Irina Krush and Melik Khachiyan as they were getting ready for the ceremony. Off then to downtown and CityPark stadium where the event was held. This is the home of the St. Louis City SC professional soccer team which began this year. A stadium that has over 22,000 seats and provided a beautiful background to the opening festivities. The players arrived early for a meeting with arbiters to go over rules and formalities. After that everyone had time to relax, enjoy some food and drinks, visit, and even play some friendly games of chess.

**Sunil Weeramantry makes the inductions official**

Every opening ceremony the US Chess Trust starts with inductions into the US Chess Hall of Fame facilitated by the honorable Sunil Weeramantry. The three inductees this year were Lisa Lane, William Shinkman, and Yury Shulman who was present to give a speech. Afterwards the players were introduced and called up for the drawing of lots. Then pairings were announced and players seemed understandably anxious to leave and prepare for round one the next day. A wonderful event came to a close on a beautiful night in St. Louis.

Now onto chess. While the club expansion is still under construction, the World Chess Hall of Fame hosted the players. The third floor was converted into a beautiful playing hall with top notch conditions and amenities. I was grateful to be able to photograph round one and be amongst the strongest players in the US. I then followed the remainder online with the superb commentary team of Yasser Seirawan, Katerina Nemcova, and Cristian Chirila. One can always count on former US women's champion Nazi Paikidze to arrive first as she did once again. Then slowly players continued to arrive and fill up the playing hall. Fabiano Caruana and Jennifer Yu were the defending champions and would have their work cut out for them. Both fields yielded some amazingly young players. Fourteen year old Abhimanyu Mishra in his first championship and Alice Lee who turned fourteen during the match.

Round one started off slowly as players settled into the long tournament. Most games ended in draws except for one in each field. Recent Chess9LX winner Sam Sevian battled Ray Robson and somehow managed to turn the tables despite both kings being exposed with queens still on the board and sealed the first victory. The other win was by former US Women's chess champion Nazi Paikidze. Her game against Ashritha Eswaran was a prime example of "It ain't over till it's over!". They reached an endgame where Paikidze promoted and had an extra queen on the board. Eswaran tried one final trick in the position to hold the draw, playing on move 40...Qd3. This left only one winning move for white and Nazi found it, 41.Kh4!! A great example of precise play being necessary even with such a material advantage. Any other move would have allowed a draw amazingly.

Young Mishra started out strong and after three rounds took the lead in his first US championship while in the Women's field both Carissa Yip and Begim Tokhirjonova won their games to continue their lead and never looked back. They were then paired in round four and after a long struggle, they managed a draw. Defending champion Fabiano Caruana won in round four to take the lead from Mishra who lost to Hans Niemann. Round five was a bloodbath with ten decisive games. Fabiano won his third in a row to remain in the lead.

**Hans Niemann**

**Sam Sevian**

In round eight, Hans Niemann, who was half a point behind the leader, blundered and lost to slip in the standings. Carissa and Begim continued their incredible winning streaks and extended their lead for first and ran away from the field. A big match up in round nine was between tournament leader Caruana against Niemann, a point behind. But the veteran showed his mettle and defeated the young Niemann, extending his lead. Begim took sole lead after her win while Carissa was finally held to a draw.

With just two rounds to go, anything was still possible. Caruana faced the young prodigy Mishra where a win would seal the title. Despite putting up tough resistance, the US junior champion succumbed to the pressure and Fabiano Caruana repeated his US championship title with a round to spare. But the lead in the women's was flipped with Begim losing to former champion Irina Krush while Carissa won against another former champion Anna Zatonskih. With first place secured in the US championship, the fight for second continued. Wesley So and Leinier Dominguez drew their games to both end with 6.5 points. And the young Abhimanyu Mishra finished the tournament strong with a win over the formidable Levon Aronian, putting him tied with the other two giants for second with 6.5 points as well.

**Levon Aronian faces tournament winner Fabiano Caruana**

The women's final round saw an incredible finish. With only Begim and Carissa able to clinch first, all eyes were on their games. Carissa Yip faced Ruiyang Fan and looked as though she was in a good position. But Yip somehow blundered in a rook endgame and left the hall in disbelief as she thought Begim was winning in her game against Jennifer Yu. But the defending

champion Jennifer Yu somehow managed to come out on top in their game, leaving Carissa Yip as the 2023 US women's champion. Her second title and she is only nineteen years old! Carissa would not learn of this until later at her hotel room as she would later tell in an interview.

**2023 US Women's Champion Carissa Yip at the board**

Another great tournament comes to an end but not a close. That would come the next day at the closing ceremony which was held at the opulent and grand Chase Park Plaza hotel. I returned to St. Louis and was joined by my beautiful wife to enjoy her first closing party. We enjoyed meeting the players and staff from the club and hall of fame that put together this incredible event. Rex & Jeanne Sinequefield kicked off the ceremony on stage with short speeches and presenting the winners. First Carissa Yip was brought up and gave a heartfelt speech and thanked her parents and so many others. Then Fabiano Caruana took the stage and also gave a very heartfelt and touching speech. He thanked many, especially Rex & Jeanne who have transformed US chess into such a prestigious pursuit, and you could sense his genuine gratitude. Afterwards dinner and drinks were had by all. Then music, chess and fellowship ruled the night...

## 2023 St. Louis Rapid & Blitz

By John Brezina

*The playing site was in the World Chess Hall of Fame*

November 18, 2023. I returned to St. Louis for the last day of blitz action as part of the Grand Chess Tour's Rapid & Blitz tournament. The first three days were rapid games while the final two days were eighteen rounds of blitz. A feast for fans watching online as the action was nonstop. Five boards with ten of the best players in the world blitzing made it difficult to choose which to watch. Once again the World Chess Hall of Fame's third floor played host to the event while renovations continue across the street at the chess club. The playing hall and conditions are wonderful but lack the space for spectators. All the action could be watched online though with the fantastic commentary team of Yasser Seirawan, Tania Sachdev, and Peter Svidler in their new broadcast studio. The hall was also prepared for the Sinquefeld Cup which followed the blitz tournament. Renovations are to resume on the chess club's expansion soon and should be quite a spectacle for chess fans from around the world once completed.

*David Llada at work on his first visit to St. Louis*

A week before Thanksgiving, the Central West End already began to show signs of Christmas. Decorations started to appear including the chess club and hall of fame. I made my way up to the third floor before the action began. The arbiters were making final preparations along with Lennart Ootes who has been a long time photographer and DGT board expert. More special this year was that another world renowned photographer was in St. Louis for the first time, David Llada. He is most well known for his book "The Thinkers" which contains many of his world class photos of chess players. This book inspired my own photo book of chess players, "Faces Across the Board". It was an honor to photograph this tournament alongside these two gentlemen.

The players began to slowly show up as the 1:00pm start time approached. After day one of the blitz, Maxime Vachier-Lagrave led with a score of 7 out of 9 points without a single loss. Ian Nepomniachtchi and Wesley So were a point behind and the defending 2022 champion Alireza Firouzja sat behind at 5.5 points. In round one, MVL was paired up against Webster University chess team coach and 2013 world blitz champion Le Quang Liem. MVL was in great form on day one of the blitz but managed to lose with the white pieces for the start of day two. He was not the only one to lose round one with the white pieces, as all five games were decisive and won on the black side. Ian Nepomniachtchi and Fabiano Caruana also won their games and would go on to keep jockeying for first all day.

*Anish Giri and Alireza Firouzja faceoff*

The second round paired up MVL with Ian Nepomniachtchi who trailed just a point behind the leader. On move 30 Nepo started a King rout with a tactical shot that forced MVL to lose his queen several moves later. A tough start for the tournament leader. The defending 2022 champion Alireza Firouzja won his first two games of the day and remained a contender.

Alireza and MVL were paired up in round three where MVL finally bounced back with a win after an unexpected clock failure with just seconds left. The stunned players looked on until arbiters could determine the situation. But Alireza graciously resigned before a decision could be made since he was in a losing position. This would be MVL's last win of the tournament.

Alireza stabilized in round four with a draw against Wesley So. Fabiano Caruana lost to Le Quang Liem but the leaders drew their games which kept the horse race going. A stunned Ray Robson lost his game to Jeffrey Xiong and sat slumped at the board afterwards contemplating what had gone wrong. While Xiong won this game he would end the overall tournament in last place in a very tough field.

*Arbiter Chris Bird keeps an eye on the field*

The big match in round five was between Fabiano and Nepo where half a point separated them. Fabi put the pressure on in the endgame and Ian with very little time on the clock was mated on the board with a simple pawn push. Players then began to gather around the game of tournament leader MVL and Ray Robson. A crazy queen and rook endgame ensued but somehow fizzled into a draw. See both endings in the videos below...

*The giants about to battle in round five*

In round six, Fabiano Caruana was paired up with Alireza Firouzja who trailed behind by a point. An important breakthrough game as we headed into the final games. Both players went all out and with both kings exposed and heavy pieces still on the board, anything was possible. But Fabiano was able to regroup his two knights along with his queen and forced a resignation. This win finally put Fabiano tied for first place after MVL drew his game with Xiong.

*Some serious kibitzers for the MVL & Xiong game*

Round seven was intense as five players were still mathematically in the running for first. And knowing this there was an absolute bloodbath on the boards as all games ended decisively. First was Caruana to win his game over Anish Giri and keep his lead by a full point. Ian Nepomniachtchi also won his game against the young Xiong to stay just a point behind. Liem Quang dashed Alireza's chances with a victory while Wesley So delivered MVL a blow with a victory as well.

The penultimate round pitted tournament leader Fabiano Caruana against the formidable Ray Robson. Ian Nepomniachtchi and MVL trailed just a point behind Fabiano and their games provided some fireworks. Firouzja pressed his passed pawn to an unstoppable promotion and forced Ian's resignation. Sam Sevian pushed hard against MVL but all material was traded down to the lone two kings on the board. Robson and Caruana reached an endgame where Ray was up a bishop and rook against Fabi's lone rook. Fabiano, having to fight to hold the draw with mere seconds on the clock, somehow flagged and put first place up for grabs once again with one round to go.

Going into the final round, the top board to take home first prize was fought between Maxime Vachier-Lagrave and Fabiano Caruana. Points scored in the rapid portion and blitz are combined for an overall winner after a grueling 27 games. Fabi led by half a point and needed just a draw to secure first place while MVL needed a victory to finish first. Either result would still keep Ian Nepomniachtchi out of the running since he was a full point behind Caruana. Nepo and Anish Giri ended their game in a quiet draw while a struggling Jeffrey Xiong pulled out a last round victory over the very strong Alireza Firouzja.

All eyes then turned to the finale where MVL headed into a winning endgame ahead two pawns after a long back and forth struggle. But with each player having just seconds on the clock, MVL trapped his rook by briefly letting go and then realizing his mistake. He was then forced to trade his rook for Fabiano's bishop and the game quickly ended in a draw after the final pieces were exchanged. Chess is tough and blitz chess is brutal!

Fabiano Caruana becomes the St. Louis Rapid & Blitz champion and continued his success with another victory in the 2023 Sinquefeld Cup. With these back to back wins he also won the overall Grand Chess Tour capping off a very impressive year. He also qualified for a seat in next year's candidates tournament. Fabiano also finds time to record a podcast with Cristian Chirila called "C-Squared Podcast", well worth checking out. I have included the many photos and short video clips I was able to capture during this incredible last day of blitz action. Thank you to the St. Louis chess club staff for the opportunity to attend this incredible tournament. Please enjoy...

## Colorado Springs Chess News

### Sunday Night Chess

By Paul Anderson  
Colorado Springs Chess Club President

The Colorado Springs Chess Club is an affiliate of Chess.com and meets every Sunday night for online chess. We typically have a 30-minute, Blitz Arena at 6:15pm followed by a Rapid Swiss at 7:00pm (4SS, G/10+10).

[https://www.chess.com/club/colorado-springs-chess-club?ref\\_id=7846680](https://www.chess.com/club/colorado-springs-chess-club?ref_id=7846680)

The online club started on April 10, 2013 after the Right Move Public Chess Club opened a competing club one block away from our downtown location, and I saw they had an online presence. As an officer of the Colorado Springs Chess Club, I could not let our club fall behind in the technological arms race. From 2013 to 2019, the online club grew to 11 members. Then pandemic!

Since the pandemic shut down our physical location, we actually started using the online club. Our first online event was on April 12th, 2020: CSCC Resurrection Online. 17 players showed up to reconnect with chess on a different platform.

I had planned to keep the online club going only until the physical site reopened, which happened on August 2nd, 2022. However, the online club took off more than I expected. We have run 189 events with 253 unique players, and, this year, the membership passed 500. The Right Move Public Chess Club ran 0 events with 0 unique players and had a membership of 41 during the same time. I think the Cold War is officially over.

### Tuesday Night Chess

By Paul Anderson  
Colorado Springs Chess Club President

The Colorado Springs Chess Club is an affiliate of USCF and meets every Tuesday night for OTB chess. We typically have a month-long, Swiss tournament (G/90+30) at 6:00pm. See the calendar for details:

<https://sites.google.com/view/colorado-springs-chess-club>

The Over-The-Board club started in 1947. We didn't have an official City Championship until 1965, which was won by Francis Mason. Since that time 38 different players have won the City Crown. The most recent winner was Rhett Langseth, who won the 57th Colorado Springs City Chess Championship in October, just after getting engaged.

Paul Anderson with Rhett Langseth

In addition, Rhett has filled out his application for Best Chess Player In The Springs by winning the 28th City Speed Chess Championship in December. He is the first player to win both titles in one calendar year since LM Josh Bloomer did it in 2017.

## Sunday Night Chess

By Paul Anderson  
Colorado Springs Chess Club President

Since running the online club keeps me coming back to the Chess.com website often, my chess addiction has only gotten worse. Here are some statistics they sent me for my 2023 year-in-review:

You played 3,175 games (1,642 Won - 51.8%, 268 Drawn - 8.3%, 1,265 Lost - 39.9%)  
Your all-time longest streak was 331 days (that's longer than 99% of other players)  
You played games against people from 138 different countries (that's 58% of all countries)  
You won 1,642 games online (top 1% of live chess players)  
Your best win was against LenaMarie2004 (2357)  
You played 227 games against your friends  
Your chess best friend was HASamuel (49 games together)  
The most watched chess video of the year was *Magnus Carlsen Arrives With Only 30 Seconds To Play* (2,908,077 views)

## Tuesday Night Chess

By Paul Anderson  
Colorado Springs Chess Club President

Since I am a stat-guy, I like the Chess.com year-in-review, even if it makes me realize I am playing way too much online chess. So, I pulled some of the statistics from the Tuesday night club to make our 2023 year-in-review:

We played 379 games (350 Won - 46.2%, 58 Drawn - 7.6%, 350 Lost - 46.2%)  
Our all-time longest streak was 1 day (we only meet once a week)  
We played games against people from 1 different countries (we are in the middle of the US, what do you expect?)  
We won 350 games Over-The-Board (our best event was the *Speed Challenger* with 50 wins)  
Our best win was against Chris Motley (2014)  
We played 355 games against our friends (I had to subtract Whinemiller games)  
Our chess best friend was Clint Eads (58 games)  
The most watched chess stream of the year was *#ChessConnectsUs Championship Open Section* (64 views - <https://www.youtube.com/watch?v=pLOn9wLUTmg>)

## Incarceration Unveiled: Chess Breaks Barriers in Belmont Correctional Institution Tournament

By Phillip Krumm

November 18, 2023. In rural Ohio there is a groundbreaking event that transcends the conventional chess arena, in the Bishops of Belmont Chess Tournament, a tournament hosted within the confines of the Belmont Correctional Institution (BeCI) in St. Clairsville, Ohio. This tournament, now in its third year, saw over 20 incarcerated adults compete against players from the outside world in a US Chess Federation (USCF) rated semi-standard 5-round Swiss G30, d5 tournament. I say semi-standard as the tournament follows the traditional Swiss pairing system with the exception that all non-incarcerated players exclusively play against incarcerated adults. Noteworthy is that this marks only the third time such a tournament has taken place against incarcerated adults in the United States, with all instances occurring at BeCI.

The mastermind behind this transformative chess event is corrections officer and Bishops of Belmont club founder, Dave Cannon, who passionately affirms, "For every chessboard we have, that's two men who are staying out of trouble." His dedication to the incarcerated adults under his watch is palpable, reflecting a genuine concern reminiscent of a parent's care. The fervor extended beyond Cannon, reaching Warden David Gray and additional corrections officers who adjusted their schedules to assist with this unique tournament held within their prison's walls.

I had the opportunity to speak with John Nelson between rounds. I initially met John when he was an incarcerated adult during the 2022 tournament. This year Nelson returned to play the event as a free man this time around, driving all the way from North Carolina to show his support. His experience underscores the profound impact that Dave Cannon and this tournament had on him. Nelson is now a musician and working on a book titled "32 Pickup" about playing chess in prison. The title of the book derives from an experience he had as an Incarcerated adult while playing against fellow incarcerated adult and now his best friend Dale. Dale was frustrated with John and the game and upended the board at him, the two now laugh and reminisce about this incident.

John emphasized the tournament's significance to the incarcerated adults of BeCI, saying "for a brief moment, you forget where you are". The escape from the harsh realities of life in prison is not something to be taken lightly. I asked about his feeling entering the facility as a free man, he said "It's a lot...making that turn in and seeing the facility...." the emotion apparent in his voice. Words can't describe the power in the pauses as I spoke with John. This experience for many incarcerated adults helps in their rehabilitation and helps combat an institutionalized mentality for when the incarcerated adults are released.

The prison khakis and blues disappear, and it becomes more like two old friends enjoying a game in the park. What remains is the essence of chess – a universal language that disregards barriers of race, intelligence, wealth, back-

ground and even incarceration status. A striking feature observed is the resilience of the incarcerated adults, as they rarely, if ever, resign from a game. I spoke with Lawrence, an incarcerated adult whom I also met in the 2022 tournament and reconnected with this year. He just laughed and said, "yeah that's prison chess", highlighting the tenacity that permeates every move on the board.

Despite the challenges of incarceration, the incarcerated adults showcased an unwavering commitment to the game, with many expressing a desire to return for future tournaments even after their release. This unique blend of camaraderie and competition shows that the Belmont Breakout is a transformative force, demonstrating how chess serves as a powerful equalizer, fostering connections that extend beyond the physical and societal confines and norms.

There is no monetary prize, the real prize is the change you help to bring about in someone's life, as well as the change that takes place in your own. The rating points you gain or lose are secondary to the connections or even friendships that you make.

This tournament has become a personal favorite, a testament to the remarkable ability of chess to unite individuals from diverse backgrounds. Special appreciation goes to the Tournament Director: Grant Neilley, Warden: David Gray, and multiple Corrections Officers whose support made this event possible, with particular acknowledgment to Dave Cannon. I look forward to playing again next year. If you'd like to participate as well, the most convenient airports are PIT (1hr drive) CMH (2hr drive) and CLE (~2hr drive).

## Clear, Pragmatic, Powerful

Jeffrey Baffo, Oct. 2023

The game that follows has been widely published and the subject of some high-profile videos. IMHO, it merits that repeated exposure. Here's my take on it based on GM Timman's wonderful notes.

**Fischer, Robert James - Addison, William [B01]**  
Palma de Mallorca Interzonal Palma de Mallorca (3), 11.11.1970

**1.e4 d5 2.exd5 Qxd5 3.Nc3 Qd8 4.d4 Nf6 5.Bc4 Bf5** [5...Bg4 6.Nge2 Nc6 7.h3 is the Portuguese variation, which gives Black good chances to grab the initiative if White is unprepared. 7...Bxe2 8.Nxe2] **6.Qf3 Qc8** [6...e6 7.Qxb7 Nbd7 8.Bb3 The legendary GM, Jan Timman, in his wonderful book (The Unstoppable American, pg 82) says that this pawn sacrifice "came into consideration" the engines certainly don't agree and either Timman's line or the text here would leave Black with very little to show for his investment. (8.Nf3 Bd6 9.Bb3 0-0 10.0-0 Bg4 11.Nd2) 8...Bd6 9.Nf3 0-0 10.0-0 c5 11.Be3]

**7.Bg5 Bxc2** [Black will have a bad, disorganized position with difficult development in any case. At least this way he has a pawn for his trouble.] **8.Rc1 Bg6 9.Nge2 Nbd7 10.0-0 e6 11.Bxf6** [Clear and direct. But Timman says 11.Nf4, with threats against g6 and e6, is better.] [11.Nf4 The engines concur, this is better than Fischer's choice, but for a human, even Chess Grandmasters, the complications are mind boggling! Trying to see all this OTB, with a ticking clock, at high stakes no less, gives us a better idea why RJF choose the text. 11...Be7 12.g4 c5 13.d5 Ne5 14.Bb5+ Nfd7 15.Qg3! Bxg5 16.dxe6 fxe6 17.Nxe6+- And White does not mind being a piece down for the foreseeable future. He has a molten lava hot initiative.] **11...gxf6** [11...Nxf6 12.d5 Bd6 (12...e5 13.Nb5 Bc5 14.d6 0-0 "And White has achieved nothing..." Timman. But the line showed by the engine indicates White wins material at least. 15.Nxc7 Bxd6 16.Nxa8 Qxa8) 13.dxe6] **12.d5 e5 13.Bb5** [13.Ng3 Slaps on a choke hold, probably even better than Fischer's choice.] **13...Be7** [13...f5! Visually, this appears very loosening and especially so with Black's King still unhomed. But as Timman indicates it is time for these types of moves. Black is certainly no worse off than in the game continuation. 14.Ng3 a6 15.Nxf5 ax-b5 16.Nxb5 Nc5 17.Qe3 f6 18.d6 "Black's defensive task is very difficult..." Timman]

**14.Ng3 a6 15.Bd3 Qd8 16.h4 h5 17.Bf5 Nb6 18.Nce4 Nxd5 19.Rfd1!** Diagram at left; [What a picture! If any chess student, coach, or author is in need of a good diagram to go with the definition of "compensation" this is it. Mathematically, Black is up two pawns, spiritually, he's headed to Hell in a sidecar.]

**19...c6 20.Nc3 Qb6 21.Rxd5** ["Don't call it a sacrifice..."] **21...cxd5 22.Nxd5 Qxb2 23.Rb1 Qxa2** [As was said in a similar position; "The condemned man eats a hearty meal..."] **24.Rxb7 1-0**

# Faith

*Jeffrey Baffo, Nov. 2023*

Please examine the position below without computer help. If you want to call in a friend, sure, by all means do so, just as long as you keep your session “silicon-free”. Since we are going to the trouble of presenting this to you in our State chess publication, you know at the minimum it’s going to be mildly amusing. This might be even more than that, but ONLY if you put forth your maximum effort and don’t give up. It is WHITE TO PLAY (1) and... But even before I tell you what’s up and you attempt to solve it, put yourself in a trance. You heard me right! Imagine with all your heart that you are seeing this in YOUR tournament game. How would you proceed? If it were me, and I were being honest, I would seriously think about tipping over my King. Even if I did decide to play on, to drag things out for however many moves, my heart wouldn’t be in it. I’d be playing maybe out of spite, but most certainly without hope.

But what if the person playing White had unshakable faith? The kind of faith that Fischer had? People talk about Fischer's "Will to win" being strong enough to verge into legendary territory, a will to win so powerful it was like a palpable force field his opponents could feel. And many of those opponents withered under that force. In my definition, "will to win" are just different words for having faith.

In some cases, Faith means letting go and trusting Him to solve the problem. In other cases, having Faith means WE get down to WORK! You are the instrument of faith, the faith that will show the way out, solve the problem, level that mountain.

The diagram at left is from a nearly 100 year old study, Zak Hodyakin, 1930. Published in Shakhmaty, 1930. I let my computer think for over an hour and it still gave the verdict “Black is clearly winning”. Well, I’m here to tell you White draws! Incredible as that seems, given the unstoppable and imminent arrival of a new Black Queen, it is still true. But what if it were just you? Sitting at your board, looking at this? Would you have enough faith to make that draw happen?

Let's just lay out the main line, and we can go back and answer questions along the way. Here it is;

**1.g7+ Nxf7 2.Nf7+ Kg8 3.Bc5 f1=Q 4.Nh6+ Kh8 5.Bd6 Qc4+ 6.Kb1 Qd5 7.Be5 Qxe5 8.Nf7+ Kg8 9.Nxe5** The computer sees it clearly and strong human players would also agree, this Knight endgame is easily drawn.

But how did we get here??!! The questions start coming immediately. Why can't Black play differently? Well, for instance if Black plays 1...Kg8, he **doesn't** get a new Queen! 2.Ng4 stops the pawn based on 2...f1=Q when Black actually loses! 3.Nf6+ Kf7 4.g8=Q MATE! The intricate tactical pattern that saves Black depends on two factors; A Queen can not deliver mate on an open board without help. The second factor is that Black's Bishop and Knight cooperate magnificently, always able to defend each other with a Knight fork on e5 whilst simultaneously keep Black's King and Knight either pinned or bottled up. In short; DRAW!!

I won't give all the variations, as it would be criminal of me to deny you the solid gold nuggets of chess improvement you'd get if you do them yourself. If you can't do it, flip on the old microcircuit monster for help. You will be amazed! Could you have done it yourself, at the board? Only if you had faith.

## Petrosian Punishes Poor Positional Play

Jeffrey Baffo, Nov. 2023

From Wikipedia; **Tigran Vartanovich Petrosian**; 17 June 1929 – 13 August 1984) was a Soviet-Armenian chess grandmaster and World Chess Champion from 1963 to 1969. Candidate for the World Chess Championship on eight times. (1953, 1956, 1959, 1962, 1971, 1974, 1977 and 1980). He won the World Championship in 1963 (against Mikhail Botvinnik), successfully defended it in 1966 (against Boris Spassky), and lost it to Boris Spassky in 1969. Thus he was the defending World Champion or a World Championship Candidate in ten consecutive three-year cycles. He won the super strong Soviet Championship four times (1959, 1961, 1969, and 1975).

This book is fantastic (1). The game that follows has annotations based on the comments therein.

### Petrosian, Tigran V - Fischer, Robert James [E40]

Candidates Tournament Bled/Zagreb/Belgrade (9), 21.09.1959

**1.d4 Nf6 2.c4 e6 3.Nc3 Bb4 4.e3 d5 5.a3 Bd6?** [Fischer's (toxic) love for "the bees" shows itself. Here ...Be7 was the better way to show that affection. The hard truth is that exchanging the Bishop is what's really called for.] [25...Be72; 5...Bxc3+ 6.bxc3 c52 "...is best."]

**6.Nf3!?** [Expanding on the Queen side is White's best, thus an immediate c5 is called for, which in turn, the young American could have prevented with ...b6, rather, the authors point out, he instead indulges in routine development.] [26.c5]

**6...0-0** [26...b6]

**7.c5 Be7 8.b4 Ne4 9.Bb2 Nd7 10.Bd3 f5** [An aggressive looking move but positionally weak. Perhaps the teenage Grandmaster had become emotionally invested in his proud steed on it's advanced outpost and felt duty bound to support it. Better was the humble exchange ...N:c3. Petrosian promptly denies this chance and simultaneously bolsters the important square f4.]

**11.Ne2 Bf6 12.0-0 Qe7 13.Ne5 Nxe5?!** [Losing more time.]

[213...Bxe5 14.dxe5 c6 "...to salvage some play from the strategic mess." Ouch.]

**14.dxe5 Bg5 15.Bd4** [White's piece coordination is near perfect and his position as a whole unassailable. Black's pieces are stepping all over each other.]

**15...Bh6 16.f3 Ng5 17.c6!** [Petrosian plays a higher form of a "combination". This shot is both tactically (skewer with Bc5) and positionally (opening lines for his Bishop while compromising Black's pawn structure) strong.]

**17...b6 18.b5 a6 19.a4 axb5?** [19...a5 Would be more stubborn, but White would still be close to winning.]

**20.axb5 Rxa1 21.Qxa1 Nf7 22.Qc3 Qh4 23.Ra1 Ng5 24.Qe1** [Positional torture raised to an art form. Exchanging Queens is endgame suicide, keeping the Queens on is a tactical nightmare.]

**24...Qh5 25.Ra7** [Black could resign here with a clear conscientious.]

**25...Qg6 26.Kh1 Qh5 27.f4 Ne4 28.Rxc7 g5 29.Bxb6 Kh8 30.Bxe4 fxe4 31.Bc5 Rg8** [And Black resigns, no doubt seeing 32.Be7. This game featured a future World Champion in his prime vs. a still-developing raw talent, yet, as the authors point out, even at 15 years old future World Champion himself, Fischer had seldom been so resoundingly outplayed.] **1-0**

## “She’s Ticklish!”

Jeffrey Baffo, Dec. 2023

In chess, the Queen is the undisputed most powerful piece. In fact, sometimes her Ladyship will burst onto the scene, rush into a nest of enemy pieces and devastate the opponent. But far more often she is very ladylike, she keeps her distance and uses her awesome long-range mobility to “stand off and sink” any enemy unit that crosses her path. In fact, she is so mobile that even if she does come out onto a crowded board, attacking her (like all the beginner books tell you should do...) just makes things worse, you wind up giving her a free tempo to take up a different, but still powerful, post. What then, is to be done? Well, she’s a Queen, it’s bad form (not to mention punishable by guillotine) to attack her. So don’t! Tickle her.

The feather touches. The Black Queen blushes at the thought of this man-at-arms standing so casually close to her.

6...Qd6? [No threat, but the threat of a threat. It's enough to cause our sensitive Matriarch to make a significant faux pas.] [Better would have been 6...e6 7.Be3! Qa5+ 8.Bd2 Qd8 and White has the advantage, but no clear win in sight] 8...Qc5?? Is fatal; 9.Bb4]

But this happens only after White set the terms; a difficult endgame for Black.] 19.Nxf6+ Bxf6 20.Qxd5 Rxd5 21.Rxd5 Bxd5 22.Rd1 [White's Rook and Bishops are too strong. **Baffo, Jeffrey (2190) - Rigby, Dale (2255) [A45]**

Correspondence Chess (Through the mail!!) 29.06.1994 [Baffo, Jeff]

**1.Nc3 c5 2.d4?** [My beloved Novosibirsk variation. Sadly, after many good games with this variation, I am forced to retire it from serious play. The cold, hard truth; it is unsound. Black can force a moderate advantage for his side that is absolutely no fun to play against.]

**2...Nf6?!** [2...cxd4! 3.Qxd4 Nc6= By no means sterile equality. For the Novosibirsk player, all the interesting and pleasant ideas are on Black's end. White has to be extremely accurate just to stay alive. Perhaps 4.Qd3 with a reversed Scandinavian defense would be worth exploring but as for now (Dec 2023) the Novo is closed indefinitely.]

**3.dxc5!** [Now Black is slightly but clearly worse. He has to use precious time *and* expose his Queen to gain his extra center pawn. For his part, White has easy development and clear attacking ideas.]

**3...Qa5 4.Nf3 g6 5.Bf4 Qxc5 6.e4 Bg7 7.Nd2** [Leveraging the precarious position of Black's Queen, White gains this useful redeployment with no loss of time.]

If such a thing is possible, the White Knight is simultaneously respectful and menacing towards the Black Queen.

**7...d6** [7...d5? 8.Nb3 wins a pawn.] **8.Nb3 Qb6 9.Be2 0-0 10.0-0 Nc6 11.Be3 Qd8 12.f4** [The bill is coming due. Black's profligate use of tempi (Her Majesty has made no fewer than 4 of the 11 moves so far.) has allowed White to dominate the center and control the important d file and d5 square.]

**12...b6 13.Bf3 Bb7** [In my hand written notes to this game, I call it my "Immortal Consolidation Game". O.K. grandiose and verbose...guilty as charged. My thinking throughout this game was to keep the pressure on, stay flexible, and NOT LUNGE, as is my habit OTB. I was going to try to consolidate until I couldn't do it anymore, only attacking when I could *clearly* see it would be favorable to me, not speculative.]

**14.Qe2 Rc8 15.Rad1 Rc7 16.e5!** [This seemed like exactly what I wanted; aggressive but without burning bridges. At a minimum I was forcing Black back with space gaining, line opening moves while simultaneously risking almost nothing.]

**16...Ne8 17.Nb5 Rd7** [There was no retreat here. ...Rc8 was simply losing.]

[17...Rc8 18.Bxc6 Rxc6 19.Nxa7 Rc7 20.Bxb6+--]

**18.c3** [Attack? No! Consolidate to victory!]

**18...Qa8 19.e6!** [Made possible by the undefended Rook (which burned through 3 tempos to get in that exposed position, btw) and not too hard to calculate.]

**19...fxe6 20.Bxb6** [It's amusing to me that this obvious pseudo piece sacrifice it given the coveted "!!" by the Chess.com engine, whereas the patient consolidating moves that meticulously laid it's foundation got nothing.]

**20...Nf6 21.Qxe6+ Kh8 22.Be3** [So, when all is said and done, White has won just a single pawn. What is more worrisome to Black is that White has done so while surrendering none of his positional pressure. If anything, the first player's bind has gotten even more suffocating.]

**22...Nd8 23.Qh3 Nf7 24.Bxb7 Rxb7 25.N5d4** [You can almost hear a Roman gladiator crowd chanting "Consolidate! Consolidate! Consolidate!" while throwing flower petals...]

**25...Rfb8 26.f5 g5 27.Ne6 a5 28.Nxg7 Kxg7 29.Bc1** [There should be an Informant style symbol here indicating a powerful consolidation move. Maybe a capitol letter C with some squiggly lines around it?]

**29...Kh8 30.Nd4 Rg8 31.Ne6 Qa6 32.Rfe1 a4 33.Rd4 Qa5 34.Qd3 Rb5 35.Qc2 Re5 36.Rxe5 Qxe5 37.Qf2 Ne4 38.Qe3 d5 39.g4 a3 40.b3 Rc8 41.c4 Nf6 42.h3 h6 43.c5 1-0**

Black to Move — Mate in 7!

### Tactics Time answers:

1. 1. ..Bxf3 gxf3 2. Qxd4 nets a nice center pawn
2. 1. ..Nxd5! with a double attack on the bishop on g5. 2. Bxe7 Nxe7 bringing the knight back to safety. This is a good trick to remember.
3. 1. ..exd3+ double checks are always fun 2. Ke1 Qa1+ 3. Qd1 Qxd1# Josh Smith showed this game to some of students to teach them how to play against odd ball openings like the killer grob (1 g4!), which I played in this game.
4. 1. Nxe6+ winning the queen
5. 1. ..Rg1+ 2. Bf1 Bh3 with 3. ..Rxf1# to follow
6. This was the first game that I ever played at the Denver Chess Club. I was rated in the 1200s at the time. I thought that I was winning when all of a sudden my opponent said "checkmate". I was totally stunned! I completely missed the mate 1. ..Ba3#
7. 1 ..e3 with mates all over.  
2.Rxh2 Qxh2 3.Ke1 Qh1# ; 2.Kg2 Rg8+ 3.Kf1 Qf2#  
2.a5 Qf2# ; 2.Qd2 Qh3#
8. Sorry Pete! 1. ..Nf3+ 2.Rxf3 Qh2+ 3.Kf1 Qh1# or 2.Kh1 Qh2# or Rh2#
9. 1...Bg1+ 2.Kh1 Nf2+ 3.Qxf2 Bxf2+ 4.Kh2 Rxe1 5.g3 Bg1+ 6.Kg2 Rf2+ 7.Kh1 Bh2#  
Luckily I have a computer here :-)

If you have a position from a game played in Colorado with an interesting tactic please send it to me! It can be anything from a mate in one to a deep combination that only you and Shirov could have possibly figured out!

# THE CHESS DETECTIVE: PICKING UP ENDGAME CLUES

By NM Todd Bardwick

Tournament chess games often turn into an endurance contest as the endgame approaches. After hours of hard work, you have to stay focused and continue to be diligent picking up clues in the position; if you make a mistake here, you often won't have time to recover.

It is important to be objective and not get overconfident when evaluating the position: be honest about your position's strengths and weaknesses and always be on guard and look for surprise moves from your opponent.

Here is a position from the 2004 U.S. Game 60 Championships.

Mikhail Ponomarev (2206)

Paul Grimm (1691)  
Black to move

Black is way ahead in material and looks to be easily winning. Black's king is blocking the path of White's passed a-pawn. Note that the White king is trapped on the a-file and cannot move. The e5 pawn also cannot move. This means the only White piece available to move is the rook. What if the rook were captured?

By not picking up the clues that White's rook is the only piece he can move, Black played **40...g5?**

Being so far behind in material, White is looking for any trick he can find. He comes up with the amazing **41.Rb2!** Black must capture White's rook with **41...Rxb2** stalemate or lose his rook and the game.

Here is an interesting endgame position from the 2002 Colorado Open.

Paul Nikitovich (2213)

James McCarty (2301)

Position after 48...Kg3? (from f4)

Material is even and Black has two dangerous passed pawns in the center of the board. White has an outside passed pawn on a6; but it is blockaded. Notice that there are opposite colored bishops. Endgames with opposite-colored bishops tend to be drawish because the player who is behind owns the squares on the color of his bishop and can often prevent the opponent's passed pawns from advancing to that colored square.

The king position is especially interesting: White's king in the corner and he must be aware of potential back rank mates and, although Black's king is on the attack, notice that he is trapped on g3. This is the important clue. When you notice that a king can't move, often a check results in mate.

Putting this important clue to work, White plays **49.Bd3!** The pawn can't capture the bishop with 49...exd3 because of 50.Rf3 mate. If Black tries to defend the pawn with 49...Re7?, White can just play 50.Bxe4 and the threat of Rf3 mate cannot be stopped.

The game continued, **49...Rc3 50.Bxe4 Re3 51.Rf3+ Draw agreed.**

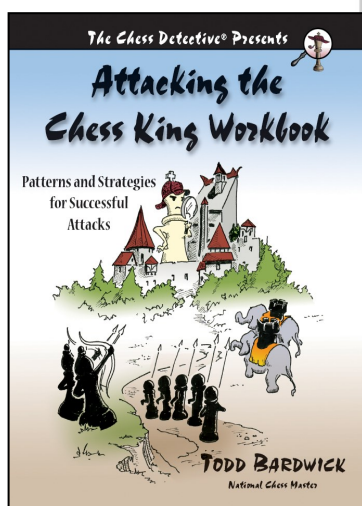

The position after 51...Rxf3 52.gxf3 Kxh3 53.f4 Kg4 54.f5 is an obvious draw.

If Black had noticed the potential mate threat on f3, he could have played 48...Ke5 and would be able to advance his center pawns to victory.

Picking up clues around the king can be the most important clues of all!
