APPRECIATING NATURE, HUMANITY & EARTH

CONNECTING APPRECIATIVE INQUIRY & DOUGHNUT ECONOMICS
This group is for people interested in learning and exploring the practice of Appreciative Inquiry for Doughnut Economics.

We are a colearning space to explore how Appreciative Inquiry can be used to support nature, humanity and planet Earth.

As very few people will benefit from colonizing Mars, we seek to create a Protopian Earth, doing what we can locally, nationally and globally to create a sustainable, flourishing planet Earth, appreciative of nature.

We meet the second Sunday of the month, 12 PM E.S.T.

All are welcome to join us.

Appreciative Inquiry

- Constructionist Principle
- Simultaneity Principle
- Positive Principle
- Poetic Principle
- Anticipatory Principle

Positive Core

Discoveries

Destiny

Design

Dream
5-D cycle of Appreciative Inquiry

1. Define the topic
2. Discover “the best of what is”
3. Dream “what might be”
4. Design “what will be”
5. Destiny – sustain the developments
2020 Positive Pivot: A Global Virtual AI Jam
April 21-23, 2022
1. BUSINESS: Our present business model is leading to unsustainability.
2. POLITICS: Radicalized, polarized politics is leading to Earth being ungovernable.
3. SOCIAL MEDIA SILOS: Artificial intelligence on social media is being used to silo groups, making them more hostile.
4. VIOLENCE: Drugs and guns are flooding communities causing addiction, corruption, violence and migration.
5. WEAPONS SYSTEMS: The military, industrial, espionage, surveillance complex seeks to expand hypersonic nuclear, laser, microwave, Artificially Intelligent Autonomous Killing Machines, and facial recognition for social control, using massive resources needed for sustainability.
6. FUTURE HARM: All this is leading to destruction of nature, harm to humanity and a dystopian Earth.
Maturation of A Global Civilization

**Childhood**
- Birth of a Civilization
  - Pre-Industrialization
  - Nature in Balance
  - Earth Wisdom
- Living in Balance with Nature

**Adolescence**
- Growth of a Civilization
  - Using the Planet’s Carbon Resources to Fuel Industrialization
  - Climate Change
  - Denial of Climate Change
  - Climate Destruction
  - Autonomous Killing Machines
  - Destroy Democracy & Civilization
- Economics of Growth, Die-off, Extinction

**Maturity**
- Conscious & Mature
  - Developing
  - Greater Character, Compassion, Wisdom and Ethics
- Developing a Sustainable Civilization
- Sustainable Economics
Expanding Empathy, Compassion, Concern, Care & Regenerativity
APPRECIATING NATURE, HUMANITY & EARTH
1. **CONSCIOUS BUSINESS:** We need sustainable businesses for future generations to thrive based on Doughnut Economics and Circular Economy.

2. **POSITIVE POLITICS:** We can use Applicative Inquiry and Facilitated Citizen Assemblies to help make Earth governable.

3. **POSITIVE SOCIAL MEDIA:** We can use artificial intelligence to facilitate colearning, connecting, collaboration and cocreating to consciously coevolve.

4. **TRUE COMMUNITY:** We can develop True Community based on Caring, Helping, Involving, Evolving and Enjoying each other.

5. **GLOBAL DEMILITARIZATION:** We can systematically reduce military budgets by 10% each year, using those funds to help meet the needs of humanity and nature.

6. **PROTOPIA:** All this can add up to a Protopian Future where we use Appreciative Inquiry to help create as sustainable, thriving planet Earth for people and the rest of nature.
Spiral Dynamics states that human nature is not fixed.

Humans are able, when forced by circumstances, to adapt to their environment by constructing new, more complex, conceptual models of the world that allow them to handle the new problems.

Each new model includes and transcends all previous models.

These conceptual models are organized around of core values or collective intelligences, applicable to both individuals and entire cultures.

• We need to understand how to create peace and collaboration for a better world, for humanity and nature.
• We need to evolve new conscious economic and political systems to create a sustainable, flourishing world for all and nature.
• We support Doughnut Economics as a conscious, evolutionary model.
Doughnut Economics is based on:

- **EARTH CONCERN** remediation of Climate change, Ocean acidification, Chemical pollution, Nitrogen & phosphorus loading, Freshwater withdrawals, Land conversion, Biodiversity loss, Air pollution, and Ozone layer depletion.
Conflict Resolution

Caring, respectful connection to clarify each other’s real needs

Creative conversation for strategies to meet both sides’ needs

Win-win solutions

Everyone’s needs met

For environmentalists, educators, Doughnut Economic enthusiasts, and all who love and care for nature.

For people interested in exploring the practice of Appreciative Inquiry for Doughnut Economics.

For people who want to evolve new economic and political systems to create a flourishing world.

For women and men who want to enjoy peace, love and happiness as they work and help the world.
CONTACT
I work to help people, communities and the world. I research, write about and present programs to help humanity and systems evolve. My programs are for students, parents, adults or seniors in personal development, relationships and communications, and social and global development for a sustainable, flourishing planet Earth.
Appreciating Nature, Humanity & Earth

Connecting Appreciative Inquiry & Doughnut Economics
