

A State University Professor and His Reaction on His First Treatment

This case happened in Indiana, Pa. I called "Next" as usual and what I saw coming upstairs was a man six feet two or more. I took him into a room and asked the trouble. He said, I am the professor in the college here. The doctors say I have a nervous breakdown, but I don't feel that way. It's this way. I work all day and rest until bed time, but as soon as I get warm in bed I get a stinging itch all over my body and I cannot get to sleep sometimes until about five in the morning, and I feel it telling on my nerves. Can you do anything for me, Stephenson? I said - "Why not? Just stand there. So, I put my hands above his head, brought them slowly down over his body- three times down the front. Then, had him turn around, gave the same three times down his back, then took each arm in turn and went three times down each arm. It took about one minute to do this. Then I said to him- come back next week. I just felt his mind say - the hell I will. I was a fool to come to you in the first place. I smiled within myself as I thought - yes, wisdom can always tell an educated person, or prove to him silently that his mind is limited. However, next week came, and so did the professor. With a smile, he said - "Stephenson, I don't know what you did last week, but I have slept every night since without any signs of itch." So, I gave him another treatment, then the third one, and in thanking me for what I had done for him, he said - "Stephenson, I would give everything I have to know as much as you." - then I said, "It could not be possible, because wisdom and education do not fit together. Education is too far down the line to teach wisdom. Only the natural man can have wisdom. He took his notebook out and asked me to repeat that sentence again. He wrote it down and said, "Is this original?" I said, "I have nothing but originality. You see I did not have an education." "I would like to have a talk with you sometime, Stephenson; but you are a busy man, I see - so I will not keep you any longer. I hit him again. "Well, you see, I said, no one can take the time of a man of wisdom. He must give his time." "You back me up every time I speak," he said with a laugh. As he left, he turned around and said, "You win."

Joseph B. Stephenson ...

The Lady who the Dr. says
had cancer of the Breast -

In this case a woman came to me crying and said that
the Dr. told her she had developed cancer in Both
Breasts and they would have to come off. Let me
see them I said. No Lady you don't have cancer Lay down
on the Bed, My good Dear. So I gave her a treatment -
told her to come back in few days for treatment -
The hard lumps in her Breasts were all gone. Now I said
if you don't want this to occur again. Tell your Husband
to Lay off your Breasts, But go back to your Dr. and have
an examination. She did then called me on the phone
well Mr. S. I went to the Dr. for a check up. he got the
biggest surprise when he could not find anything in
my Breasts. Then he asked me. What did you do oh I said
all I did was to go to Mr. S. for four treatments. What
did he put on them, nothing well then what did he do
he gently massaged them for about five minutes as
treatment. Then it was all cancer. That's what Mr. S.
said as soon as he looked at them. Well I don't
feel good about you going to Stephenson but I am
pleased you do not have to lose your Breasts as
I or any other Mr. D. would not know any thing else
to do, but Dr. I will never have sore Breasts again
Mr. Stephenson told me the cause

Where I saved a child for a 12 week

last London

A mother brought her girl of 2 years she carried her up the stairs. I noticed she had no shoe on one foot and an elevated heel on the other foot. she told me Dr. - had her in a cast for 10 weeks and that he wanted to put her in a cast for 12 weeks more or he says she will never be able to walk. I said lay your child on the bed. she did and the child began to cry. I told her if she would be a big girl she would not have to go to the Hospital any more that kept her quiet. I ran my thumb up the side of the spine and it seemed everything broke loose so I gave her a little more treatment. then I lifted her off the bed put her on her feet and told her to walk to her Mam Ma. she never hesitated but started to walk right away. then the mother said Mr. S. I have no money the Hospital expenses has taken all we had. dont you have enough to buy the girl a pair of shoes. we have nothing until next pay day so I said here 5 Dollars. go down town and buy her a pair and here another five Dollars. I take this to the Dr. tomorrow and take the girl along. he wont know her. next day she did take her to the Dr. paid him the five Dollars. then he said Remember. Next Tuesday you must bring that child of yours to the Hospital or she will be a cripple all her life. Do you think so Dr. well I dont. look at her is that the child. yes. she walks all right Dont you think Dr. Darn that man Stephen. yes Dr. he put her on her feet in 15 minutes what did he say was wrong with her. he said nothing. just - drove something to her back then put her on her feet. and said walk thats all. Dr. well we are pleased to have a man like that. I wonder

The Minister who apologized for what he said
he stole my Book the Human Rose tree

This Minister used to bring his wife and wife's sister who was slightly deranged
& use to give them treatments every two weeks free. So this day he came up stairs
with them and said Mr. S. I have an apology to make to you & your one of your
Books without paying for it the last time I was here. here it is. but I would
like to have one but I don't have the money to pay for it. My congregation are
all poor. and that keeps me very poor. Oh I said if you think it worth reading
I will make you a present of one. I thought you Mr. Stephenson I want to tell
you that I preached a sermon on your Modern Progress last Sunday
and you should have seen the people shaking my hand and said that
was the best sermon I had ever preached. I said preach more from
it and you will see you will get more people come to hear you
People are tired of hearing the same old story year after year give them
something new and they will listen. I know they will. the next time he
came he had another story to tell. he spoke on the Men of Wisdom
and read some of the conversation I said as long as you keep away from
reincarnation you will make good. but if you go into that what I don't
know what will happen. I will take your advice but I am convinced
that your philosophy of life is far beyond the teaching we have here
for I know I said but you are up in your hold on to your Church
but understand one life means nothing in time and when you pass on
this time fear not you are neither going to Hell or Heaven but you will
be back here and then you can fall in line with the knowledge of the
future. you have nothing to lose. But carry this thought with you at all
times. No man could do enough Bad in one life time to warrant eternal
punishment. No man can do enough good in one life to be joining
everlastingly in some place called Heaven. Don't take my word for it
Think it over for your self.
