

CREATE EVERY OPPORTUNITY

THE CEO PROGRAM FOR COLLEGE ATHLETES

BRINGING ENTREPRENEURSHIP AND
FINANCIAL LITERACY EDUCATION TO
COLLEGE ATHLETES

Message From The Founder

Why didn't they teach me this in school?

That's something I said a lot as a founder - working on my first venture, learning how to operate a business on my own. I realized how much easier it would have been if I received more business education before I left high school.

That's what we set out to change at Create Every Opportunity!

Zachary Sarf - Founder at Create Every Opportunity

Create Every Opportunity

Everyone should have access to financial literacy and entrepreneurship education. A core principle in The CEO Program is how to identify problems and create solutions. At Create Every Opportunity, that is exactly what we did - we identified a problem and created the best solution. Our resources not only teach the students, but also educate the school, college or center how to properly teach entrepreneurship, life skills and financial literacy.

Create Every Opportunity offers a web-based curriculum for high schools, college athletes and treatment centers to teach the fundamental principles of financial literacy, job readiness and entrepreneurship (The CEO Program). CEO has worked with acclaimed professors and business leaders to develop 300+ interactive learning modules on topics such as: bank accounts, money management, budgeting, credit/debit cards, resume building, interviewing, taxes, interest, saving, investing, credit scores and business planning.

The CEO Program for College Athletes

The CEO Program for College Athletes provides a financial literacy and entrepreneurship learning experience via CEO Connect. The CEO Program teaches student athletes the financial literacy, entrepreneurial and life skills necessary to profit from their NIL. Our modules were created to provide skills like learning taxes and signing a contract to endorse products to college athletes - it has become more important than ever to provide tools to help student-athletes maintain compliance and learn money management skills. The CEO Program provides athletes with workshops and modules to help athletes discover how to manage time and money. The

NCAA's NIL policy does not set specific standards for how schools should educate athletes — and how to manage earnings as a result. In fact, it has provided more detail about booster involvement than suggested financial literacy. There have been countless stories of college athletes signing things without actually understanding what they are signing.

What People Say About Create Every Opportunity

Yahoo Finance

"Founder and Managing Director of the company, Zachary Sarf established [CEO] because he wanted to push what he called "common sense knowledge." It has become such a coveted form of wisdom that he had to establish his own company to push it back into the world".

The LA Wire

"But the brilliance of this educational organization lies beyond money-making pursuits. As the problem of financial illiteracy continues to increase in numbers, Ashley helped establish Create Every Opportunity in order to address this alarming gap. Hence, this after school program was not only created to become a breeding ground for business moguls, but it was also built to prepare young individuals in the future by equipping them with the basics of financial literacy and management"
