The Shamanic Journey: Pathway to Knowledge & Power™

Presented by Jo Ann Broder – Shamanic Practitioner and FSS Faculty
ShamanicThunder.com

The shamanic journey is a remarkable visionary method for entering into another reality with discipline and purpose. Using classic drumming techniques to alter consciousness, participants will be introduced to the shamanic journey to awaken one's soul and dormant spiritual power. Travel outside of time and space into another reality and make contact with compassionate helping spirits, such as teachers and power animals, for personal wisdom and to gain knowledge to help create a better world.

This experiential online training taught by FSS faculty members is offered via Zoom video conferencing. Participants will see and hear each other and interact in pairs and small groups, as well as in the full circle. (All students must participate with audio and video and access the meeting through their own individual device.) Instructions for Zoom (free to individual users) and workshop access will be provided by the instructor after registration. The course consists of 7 hours of training in two 3.5-hour sessions.

The Shamanic Journey: Pathway to Knowledge & Power is the prerequisite workshop for other online workshops offered by the FSS. The in-person Basic Workshop, The Way of the Shaman also meets the prerequisite for FSS online advanced workshops. Please note: The Shamanic Journey online workshop does not meet the prerequisite for the FSS in-person advanced weekend workshops. The Basic Workshop: The Way of the Shaman will still be required for the in-person workshops.

FOR THE MEETING. Please have handy a notebook/pen to take notes, a rattle, a drum (optional), and an eye covering (bandana or Mindfold) to block ambient light. Before the workshop, consider a comfortable chair or place to sit or lie down for journeys. You might consider the use of headphones or ear buds for an easier listening experience. Please check the battery power on your computer/device; you will need it to last 3.5 hours. [Download participant instructions](#) for use of Zoom, including audio/video settings.

Completion of the entire workshop (7 hours) is required for credit.

7 FSS Continuing Education (CE) Credits available
