Michael Harner's Shamanic Divination in Practice

Presented by Jo Ann Broder – Shamanic Practitioner and FSS Faculty
ShamanicThunder.com

The skilled practice of shamanic divination, the process of consulting the spirits for knowledge, is an essential aspect of shamanic healing and of bringing the wisdom of the helping spirits to bear on personal, local, and global issues. This workshop offers students opportunities to practice methods for contacting their compassionate spirit helpers, particularly through the shamanic journey, and to enhance their abilities to form on-topic questions and interpret the messages received. Participants will also experience classic shamanic ways to build and nurture strong relationships with their own spirits.

This experiential online training taught by FSS faculty members is offered via Zoom video conferencing, which is free to individual users. Participants will see and hear each other and interact in pairs and small groups, as well as in the full circle. (All students must participate with audio and video and access the meeting through their own individual device.) Instructions for Zoom and workshop access will be provided by the instructor after registration. The course consists of 7 hours of training in two 3.5-hour sessions.

The Shamanic Journey: Pathway to Knowledge & Power is the prerequisite workshop for other online workshops offered by the FSS. The in-person Basic Workshop, The Way of the Shaman also meets the prerequisite for FSS online advanced workshops. Please note: The Shamanic Journey online workshop does not meet the prerequisite for the FSS in-person advanced weekend workshops. The Basic Workshop: The Way of the Shaman will still be required for the in-person workshops.

PREREQUISITE: The Shamanic Journey: Pathway to Knowledge & Power (online) or the in-person Basic Workshop, The Way of the Shaman.

7 FSS Continuing Education (CE) Credits available. Completion of the entire workshop (7 hours) is required for credit.

FOR THE MEETING. Please have handy a notebook/pen for notes, a rattle, a drum (optional), and an eye covering (bandana or Mindfold) to block ambient light. Also have available a palm-sized rock (NOT a crystal), preferably one you found in nature. (Remember where you found the rock, so you may return it to its home after the training.) Before the workshop, consider a comfortable chair or place to sit or lie down for journeys. Please check the battery power on your computer/device; you will need it to last 3.5 hours. Many Zoom users find that headphones or ear buds provide an enhanced listening experience. [Download participant instructions](#) for use of Zoom, including audio/video settings.
