

Michael Harner's
Shamanism and the Spirits of Nature

Presented by Jo Ann Broder – Shamanic Practitioner and FSS Faculty
ShamanicThunder.com

From ancient times, shamans have worked with the spirits of nature for healing, survival, and knowledge. By learning from the plants and animals, from the rocks and mountains, from the winds and waters, and from the sun, moon, and stars, shamans helped their peoples live in harmony with the universe. In a world now out of balance, the way of the shaman can teach how again to respect nature, our Planet, and its inhabitants at a deep spiritual level. As our ancestors everywhere once knew, our survival depends on the survival of the other species. By working together intensively through shamanic journeys and other spiritual experiences, we will dedicate ourselves to working in both nonordinary and ordinary reality to restore and maintain a living Planet.

Prerequisite: the FSS [Basic Workshop, The Way of the Shaman®](#), with an authorized FSS Faculty Member.
