SYMBOLISM

Symbols have been an integral part of human communication since ancient times, serving as a universal language that transcends linguistic barriers and cultural differences. Beyond their aesthetic appeal, symbols possess a profound ability to convey complex ideas, emotions, and spiritual concepts. From ancient civilizations to modern societies, these enigmatic symbols have woven intricate tapestries of meaning, often hidden beneath the surface and decipherable only to those initiated into their secrets. This enigmatic realm of signs and symbols forms the captivating subject of our exploration: the Secret Language of Symbolism.

Egyptian man had headdress that symbolise the sacred femanin. We say that Femanin is sacred because it represents the portal into the physical matter. The women is magnetic in nature and the male is electric in nature. The female is attraction and male are action.

In this fascinating journey, we will unravel the layers of meaning behind symbols, decoding their hidden messages and exploring the depths of human understanding they represent. From religious iconography to mystical emblems, from national flags to corporate logos, symbols have the power to shape our perceptions, influence our

decisions, and connect us to the collective unconscious of humanity. By delving into the world of symbolism, we gain insights into the beliefs, aspirations, and cultural heritage of diverse civilizations spanning the ages.

Throughout history, symbolism has been a potent tool employed by secret societies, artists, thinkers, and spiritual leaders to convey esoteric knowledge and philosophical truths. This cryptic language has

been passed down through generations, creating a rich tapestry of symbols that continue to intrigue and inspire us today. Whether exploring the symbolic meanings behind ancient hieroglyphs, alchemical symbols, or contemporary icons, the Secret Language of Symbolism invites us to embark on a journey of discovery, where hidden meanings come to light, and the profound connections between different cultures and eras become apparent.

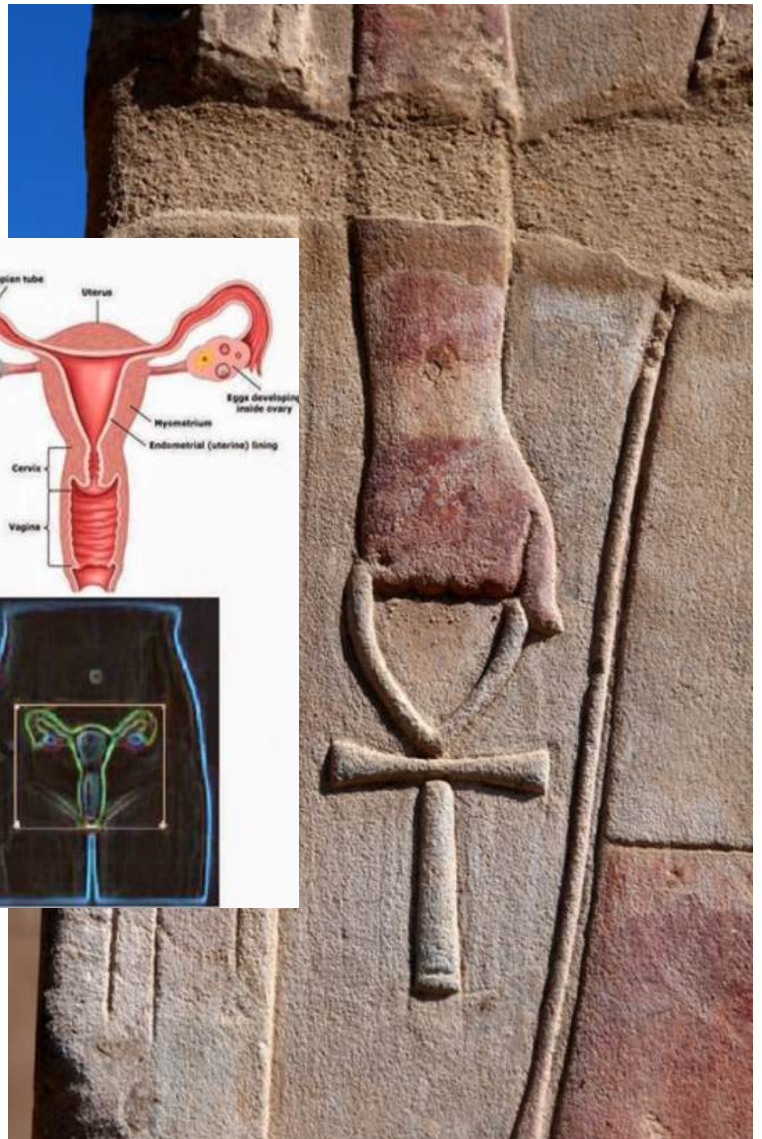

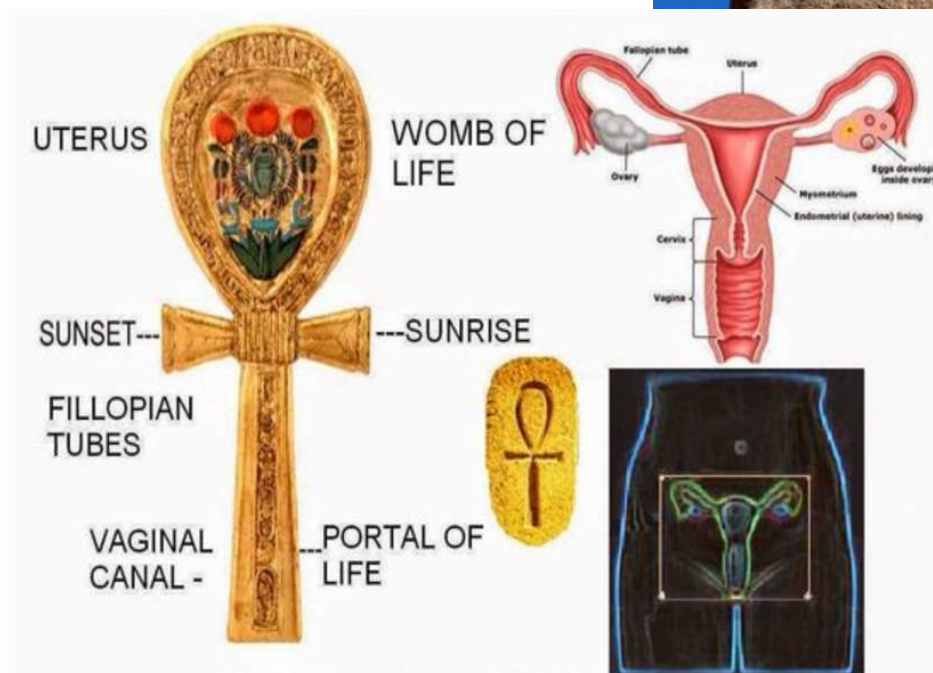

Join us as we venture into the depths of this clandestine world, peeling back the layers of mystery that shroud symbols and their significance. Together, we will decipher the messages encoded within these timeless emblems, gaining a deeper understanding of the human psyche, spirituality, and the interconnectedness of all things. Let the exploration begin, revealing the profound wisdom concealed within the Secret Language of Symbolism.

Investigating Symbols

As we make our way through the maze of hidden information, we come across a crucial individual whose skill is interpreting the complex language of symbols. His vast experience in symbolic analysis has enabled him to uncover the hidden meanings and messages woven throughout our society. Come along as we explore the world of symbolism and how it shapes our collective subconscious.

A Life of Symbolic Exploration

This focuses mainly on the mysterious realm of symbols and their ability to reveal deeper meanings and hidden realities. A significant amount of our tour guide's life has been devoted to examining and interpreting these symbols. This woman, a scholar in the purest sense, set out on her quest with an unquenchable interest in the symbols we see daily. They have uncovered the secret meaning behind these seemingly commonplace emblems using their extensive research experience and meticulous attention to detail. For simplicity's sake; the symbolism found on the back of dollar bills and the various symbols present on currency. These symbols, along with those on coats of arms, trees,

corporate logos, and national flags, hold significant meaning for those well-versed in symbolism.

The women are the literal star gate as she holds the portal within her. The portal has the ability to incarnate souls into the physical world. The ancient people worshiped the mother for that reason and this is why the man would have headdresses to symbolize long feminine hair in the statues. Woman is holding the man not the man holding the women. this is because the women are more sacred than the man which is in reverse in today's world.

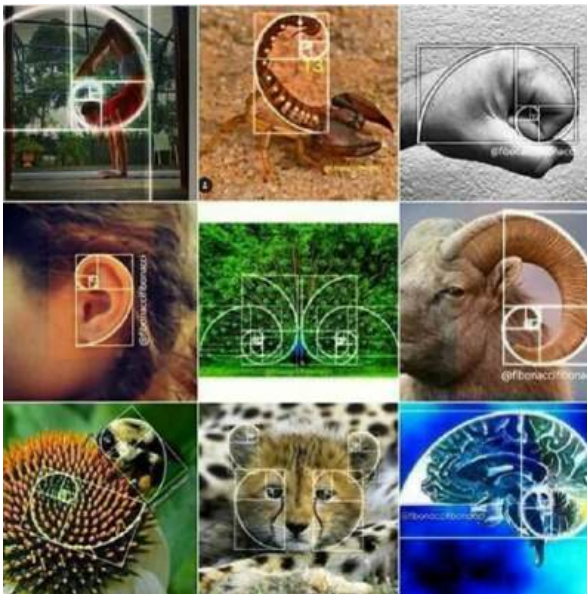

Females are naturally very intuitional. this is because they are directly connected to the spiritual realm.

However, for the average person on the street, these symbols may go unnoticed because they don't relate to everyday interests like sports or celebrity figures. Even in places like courtrooms and government buildings, these symbols are often present, but their significance may not be immediately apparent. For example, when you look at the Hall of Congress, you can observe such symbols.

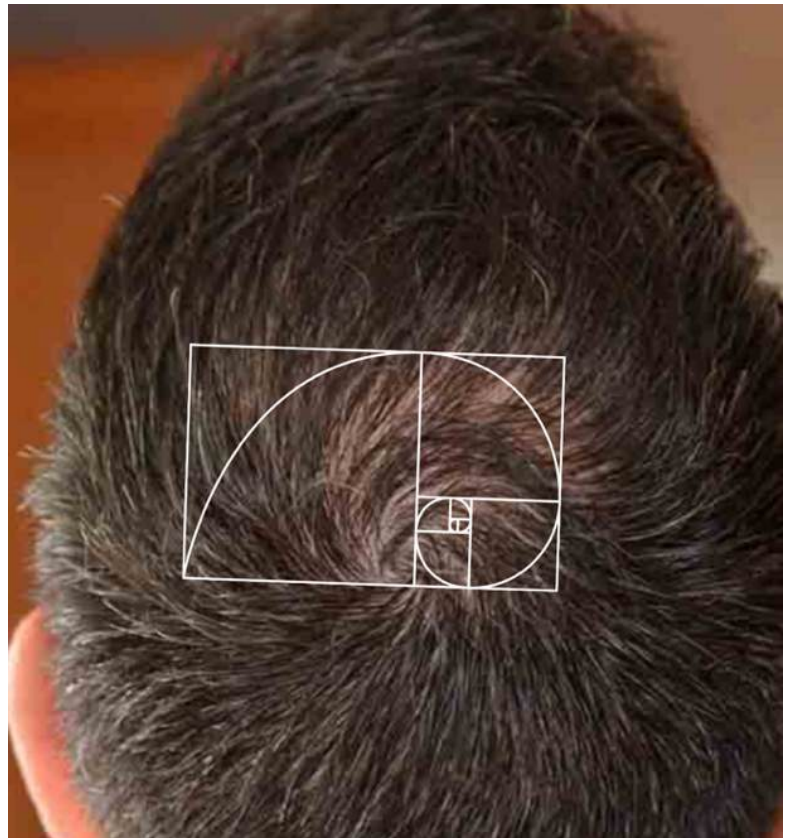

Unveiling Hidden Messages

Symbols can communicate on many different levels. Despite their seemingly innocent or even decorative look, many symbols have deeper meanings behind them.

It is the only symbol that connects the micro to the macro. It represents everything that is created.

When symbols are used by those who get their meaning, they can be tools for communicating hidden meanings. This person's work has illuminated how goals, views, and affiliations have been communicated through symbols throughout history. Their work exposes the secret meanings behind these symbols, bringing to light things that may otherwise remain concealed. It is frequently viewed as an act of decryption.

In the bible Satan fell down from heaven to the earth. He was an angel who fell from heaven. His wings and arms were cut off which turned him into a serpent. That symbolizes being spirits and turning into matter by losing wings, so now we are serpents and have to climb back up to heaven to grow back our wings. This symbol of the two serpents is the khundalini energy and the two serpents grow wings when they reach the top.

That's the reason why there was so many dragons' symbolism in the ancient days, because it represented falling from heaven to earth and trying to grow wings again.

Shaping the Collective Subconscious

One of the most intriguing aspects of symbolic research is its impact on the collective subconscious. Symbols can influence thoughts, behaviours, and perceptions without individuals even realizing it. As they permeate our culture, media, and institutions, symbols shape our understanding of the world. Exploring how this influential figure's work has drawn attention to how ancient or contemporary symbols mould our collective beliefs and values. By shedding light on this phenomenon, they prompt us to re-evaluate our perspectives and contemplate the hidden messages embedded in our society.

SECRET SOCIETIES

In an age where mystery frequently piques our interest, the worlds of mind control, symbolism, and secret societies have always had a unique attraction. This mysterious and fascinating area was recently discussed in a talk that went deep into these sensitive topics. We'll take an intellectual voyage through the unknown frontiers of conspiracy theories and the murky depths of human history to comprehend this conversation better.

At its core, the discussion aims to clarify the murky aspects of secret societies, interpret the mysterious symbolism that permeates every aspect of our existence, and investigate the sinister concept of mind control. Despite being intricate and frequently contentious, these issues are intimately linked by the veil of secrecy that has shrouded them.

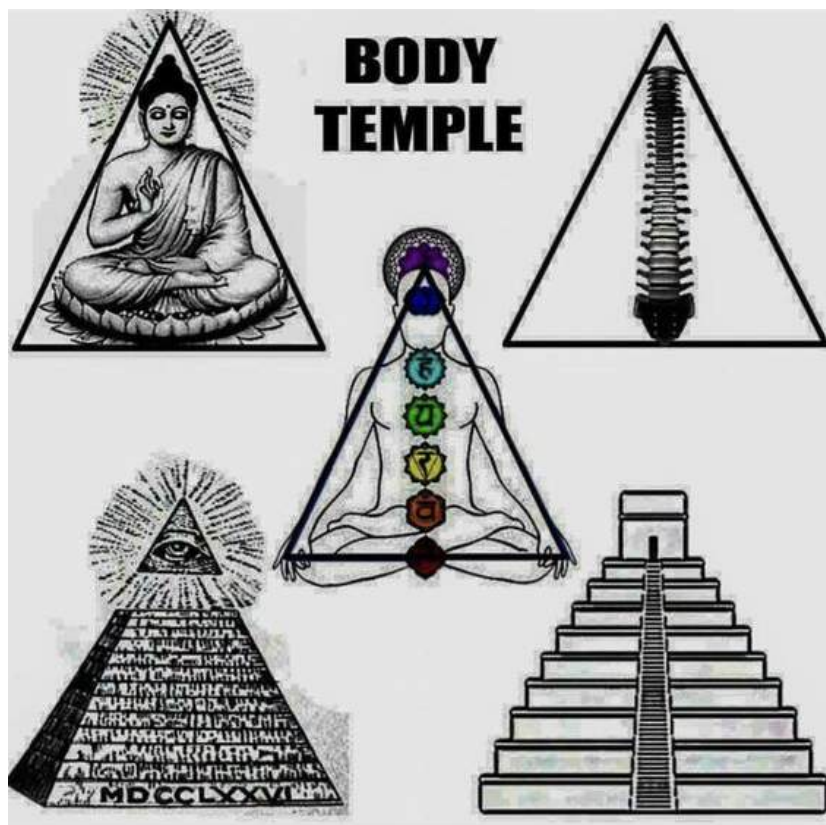

The main focus of the conversation is the mystery and intrigue surrounding secret societies. These secret societies, cloaked in an unbreakable silence, have existed throughout recorded history. Their existence casts doubt on our perceptions of cultural influences, power dynamics, and the unseen forces that mould our reality. Examining their inner motivations and processes offers a chance to discover a world beyond our limited perspective.

The study of symbolism, which permeates our everyday lives like a quiet but potent language, is equally fascinating. The ubiquitous impact of symbols and their association with covert organizations bears witness to the nuanced yet profound ways concepts are communicated. Whether a symbol is prominently shown in architecture or is subtly engraved on an emblem, it can carry a world of meaning and intention beneath its surface.

And last, the topic of mind control is maybe the most unsettling and mysterious of all. As the claims and ideas entwining human psychology, sexuality, and manipulation are revealed, the discussion serves as a sobering reminder of the enormous influence our thoughts may have on our decisions and behaviours. This issue has consequences that

go well beyond the parameters of our conversation and touch on morality, ethics, and autonomy.

We'll pore over the veil of mystery surrounding secret societies, decipher the significance of symbols subtly influencing our reality, and face the unnerving idea of mind control.

Corinthians 6:19-20

“Or do you not know that your body is a temple of the Holy Spirit within you, whom you have from God? You are not your own, for you were bought with a price. So, glorify God in your body.”

Glorify God is raising the Christ oil up to the spine and looking after the body.

The people on the power externalized all the sacred things in order to keep you entertained and distracted from finding out what you are capable. You are truly created in the image of God.

Church and religions are teaching the masses what they want them to know, the exoteric teachings. That's done purposely to keep the pyramid scheme up and running. Meanwhile, the people in power were taught the esoteric, the internal teachings about the body, conciseness and the metaphysical aspects of reality. The Bible is written in a specific way. It can resonate with your level of understanding. You can perceive the Bible historically and metaphorically. Metaphorically is the way to go.

Secret societies are mysterious, enigmatic organizations that lurk in the shadows of history, behind closed doors at private parties, and beneath layers of secrecy. They continue to intrigue and perplex us.

A Cloak of Secrecy

The mysterious keepers of secret knowledge, enigmatic customs, and covert objectives are known as secret societies. They work in secrecy and are frequently hidden from view. Fundamentally, what sets them apart is that they are selective and exclusive, keeping their secrets well hidden from others. One of the distinguishing features of these communities is their fundamental secrecy, which makes them both seductive and mysterious.

Power, Influence, and Secrecy

Our investigation has a constant undertone regarding the relationship between secret societies, influence, and power. As we go further into these societies' cores, it becomes clear that their secrecy serves as a calculated tactic to gain power and influence rather than just as an exercise in exclusivity. These secretive groups influence the development of nations, politics, and cultures. Our world is driven by this interplay between influence and concealment, which is a potent force.

A Tapestry of History

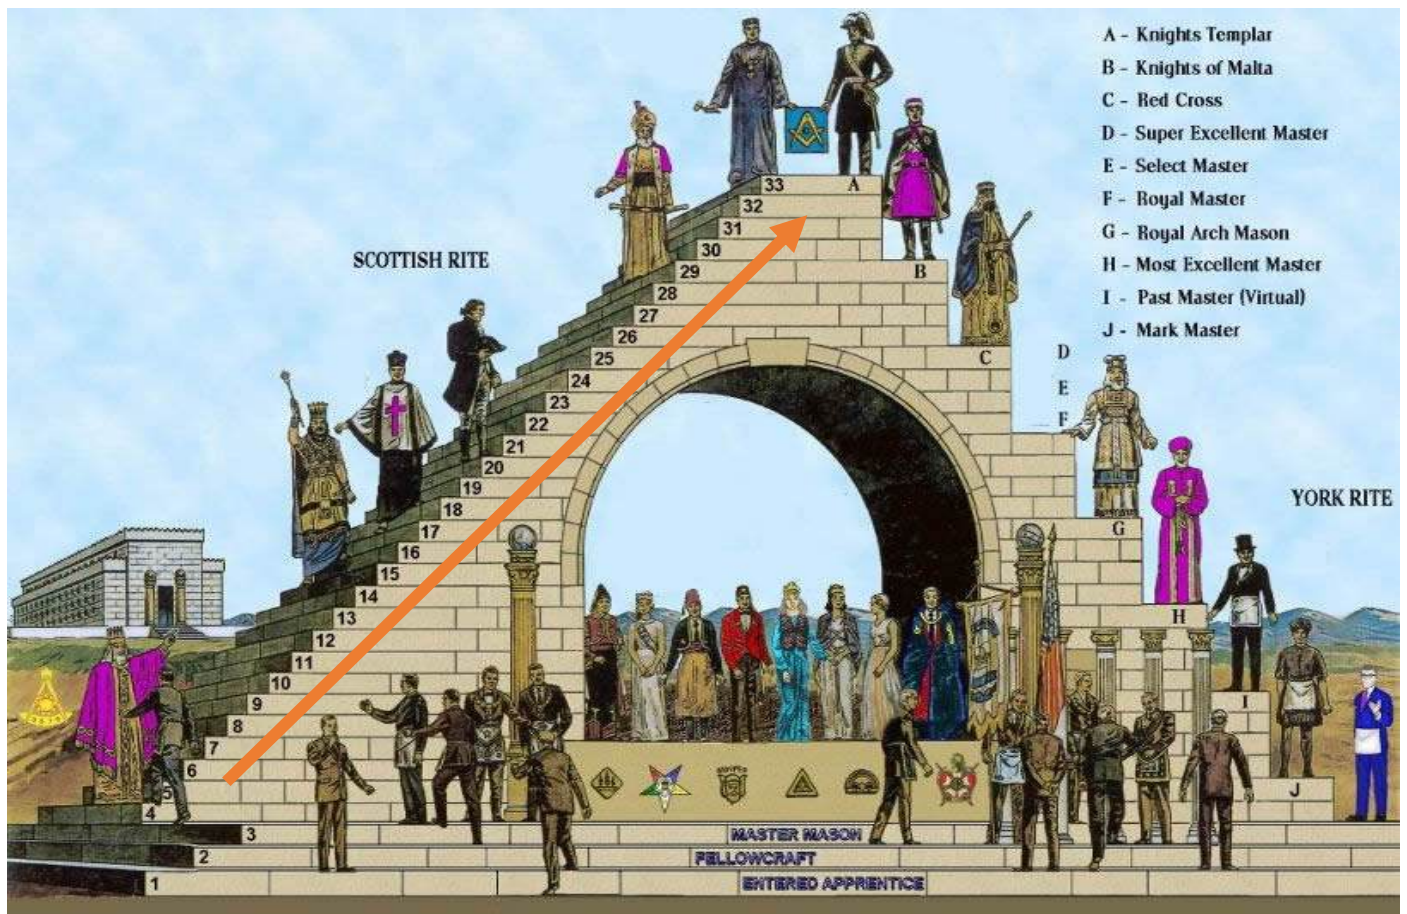

FIG. 11: PASS GRIP OF A FELLOW CRAFT

Secret societies are a thread across the fabric of human history. Their mysterious presence has persisted from antiquity to the present. They have shaped revolutions, sparked conspiracies, and even spawned legends, leaving their permanent imprint on history. The historical existence of these societies serves as a reminder that they are

more than just historical artefacts; they are active modern societies with goals that are frequently lost to the passage of time.

CHAPTER NINETEEN

ROSIKRUCIAN AND MASONIC ORIGINS

FREEMASONRY is a fraternity within a fraternity—an outer organization concealing an inner brotherhood of the elect. Before it is possible to intelligently discuss the origin of the craft it is necessary to establish the existence of these two separate yet interdependent orders, the one visible and the other invisible. The visible society is a splendid camaraderie of “free and accepted” men enjoined to devote themselves to ethical, educational, fraternal, patriotic, and humanitarian concerns. The invisible society is a secret and most august fraternity whose members are dedicated to the service of a mysterious *arcantum arcanorum*. Those brethren who have essayed to write the history of their craft have not included in their disquisitions the story of that truly secret inner society which

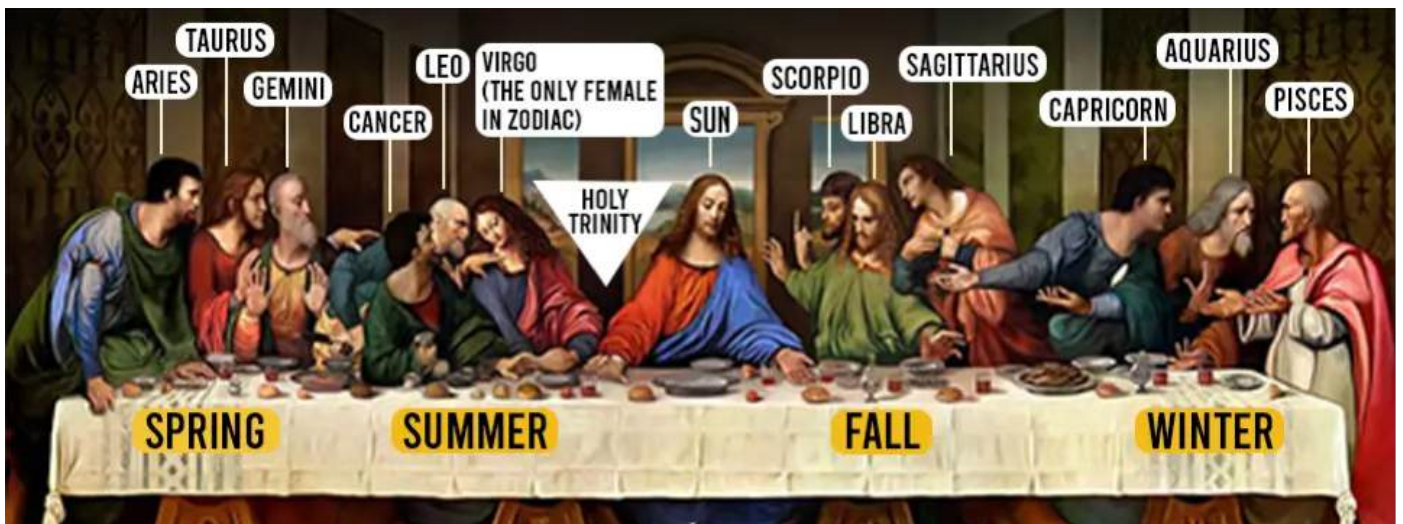

On the back of our spine there are 33 vertebrae. The Christ oil moves past the 33 vertebrae and it activates the pineal gland and enlightens the brain. That's also one reason why they use 33 degrees.

Manly P. Hall says that freemasonry is a secret organization of inner brotherhood. Once you reach the 33rd degree you can be elected into other secret societies like skull and bones etc...

THE BIBLE IS ASTROTHELOGY

The Book of Job in the Old Testament is the oldest written book in the Bible. In the Old Testament many times God said “Go back to the old ways”, what means go back to do what ancients did, that was Astro-theology. In the Book of Job “the old ways” referred as MAZZAROTH. “Mazzaroth” is ancient word means Zodiac. So, in the oldest book in the Bible God is mentioning the Zodiac.

When Jesus in the New Testament told us to pray the Lord’s prayer that says “Our Father, who art in heaven, hallowed by thy name, let the kingdom come, thy will be done, on earth as it is in heaven...” On what kind of the kingdom? The Animal Kingdom is what the Jesus talking about. And where do we find animals? We find them in the Zoo. The study of the animals is Zoology from which we get the name Zodiac. Zodiac is the study of the zoo animals, it’s a circle of the animals so therefore the kingdom of the God is Zodiac.

If you ask child where is the God, the child will point finger to the sky and say he is in heaven. So, God is in heaven?

If we break down the Lord's Prayer "thy will be done, on earth as it is in heaven..." If you are looking up in the sky "heaven" you are looking up in the 12 signs of the Zodiac. Twelve signs of the Zodiac are translated to be "Will of the God". Looking at the 12 signs

of the Zodiac with the right understanding the God's Will be done! That's why all the Kings, rulers, princes and all of heads of state had always consulted the Astrologers. They didn't want to be a believer, they wanted to know the real truth.

4 gospels represent 4 seasons of the year. Almost all ancient images had a sun. The ancients saw the sun very different than we see today.

We have all been programmed to believe its 93,000,000 miles away, gives us skin cancer and it can make you blind. This makes

us believe that the sun is not made for us when in reality it is for us so we can thrive, grow and survive on the earth. The ancient people knew that. They knew that the sun was made by god, therefore they would praise the sun because it brings the light and warmth. It makes us energized and happy.

The old and the new testaments in the Bible are nothing more than Astrology. This is why Jesus refers as a God's son, and we think it as a real son, as a boy, child but it's "S U N" the light of the world. The S U N in relation to the earth has 12 signs of the Zodiac up there in heaven, where the God is. So that's where the Sun is, in the sky in heaven and it belongs to the God. God's Sun in our saviour. Without Sun there is no life on the earth. That's why God said we have to go back to the old ways if we want to understand the real Truth.

sun (n.) 
 Old English *sunne* "sun," from Proto-Germanic **sunnan* (cognates: Old Norse, Old Saxon, Old High German *sunna*, Middle Dutch *sonne*, Dutch *zon*, German *Sonne*, Gothic *sunno* "the sun"), from PIE **s(u)wen-* (cognates: Avestan *xueng* "sun," Old Irish *fur-sunnud* "lighting up"), alternative form of root **saewel-* "to shine; sun" (see *SoI*).

In the old ancient language, the word ASTAR, was a Star. So, idea in early Middle Ages was that if you don't understand the zodiac in relation to your life and 12 signs which is the Kingdom of God, then you don't understand that the Kingdom will come on the earth, and that the God's will be done on the earth. If you don't understand Zodiac,

you don't understand the ASTAR, and if you don't understand the ASTAR your life will be DISASTAR from which we get the concept of disaster. The antient people knew that, because they were not occupied by the media, television, fake news, entertainments.

If we want to understand 12 signs of the zodiac that represents God's Kingdom, and how those 12 signs impact the world today we have to go back to the old way.

The Jesus refers to a God's Son "S U N", our saviour that rises every morning. Jesus has 12 followers that we call Apostol's the 12 signs of Zodiac.

The 12 months of the year which gives us 12 hours a day. God's Son had an evil brother, the evil twin, the darkness who we call the Devil.

Religion is just a business. That's why the Christianity have Churches that are divided into dominations, it's a corporation and their main goal is to entertain the masses. That's why nobody know anything who goes to church. They go to church and they don't even know from where the word "church" comes from. They believe in a Jesus Christ and they don't know what word Christ means. The whole idea of Jesus one day will be completely gone and they will bring the new religion, the new age, age of Aquarius. In the Bible Jesus said "when ye are entered into the city, there shall a man meet you, bearing a pitcher of the water; follow him into the house where he entered in." Symbol of the Aquarius is a man with a water pitcher. If you look up in the dictionary, encyclopaedia, reference works in the bible, all of them will say the same thing; Man, never carried the water! Back then in the ancient world, it was a woman's job. So, when the Jesus mention a man with a water pitcher, he was thinking about Aquarius. It's all encoded hidden story, the whole Bible including Jesus is a metaphor.

Luke 22:8

Jesus sent Peter and John, saying, "Go and prepare for us to eat the Passover."

Luke 22:10

He answered, "When you enter the city, a man carrying a jug of water will meet you. Follow him to the house he enters,

"They will look with their eyes but they do not see. They listen with their ears but they do not hear."

People go to the church and they have no idea what all those symbols mean.

There are 30 different books in the Bible but we don't have them. All three the major religions of the world Christianity, Judaism and Islam says that their father is Abraham. Those religions refer as "People of the book" because they rely on the book that are mistranslated.

It's just amazing how much we don't know in this world. They brainwashed us that all we need to know is how to get the college degree, which is the work permit, so you can get

the job. Word “Job” comes from the “Book of Job” and the whole story of Job was nothing more than a trouble, tragedy and human loss.

Life is an extraordinary story and if we want to understand it, we need to understand Astrology. We have no idea where are we going and where did we come from.

Adolf Hitler said “If you want to control the future, you need to control the present” If you can’t control the present you need to investigate the past. That’s why materials like this book will never be found in schools and public libraries. Because the people who run this planet are many things but they are not stupid. They don’t want you to find the real truth, how the world really works. Before you start believing in something better wake up and start looking at the history of the human race, what the words, terms and symbols means.

The whole world lies in the power of wicked ones! We are all slaves because we have no knowledge, and knowledge is the power.

THE GREATEST STORY OF ALL TIME

Religion and God is always equated with number 3. That's why you have Christianity, Judaism and Islam, three major religions. they're called the people of the book. Why there is three? Because you have Brahma, Vishnu, Shiva. The King Solomon and any of those other biblical characters never existed and that's why the Bible is called the Greatest Story Ever Told.

The soul (brahma) has multiple faces symbolising the soul taking on different bodies, its multi-dimensional.

Jesus Christ

Jesus means body

Christ means Christ consciousness

Freemasons do not say Jesus Christ, they say Christ Jesus. Because consciousness comes first. Christ over the body.

Let's get into religion and theology, which is the one subject that I'm fascinated with. On the right-hand side of the dollar bill you will see the eagle. The eagle was the most important symbol in all societies and it always means the same thing as far back as we can go to Sumerians, Babylonians, Phoenician, Canaanites, Greeks. It means the Sun. It has been the oldest symbol that's ever been used by any civilisation on the face of the earth, period.

What's interesting about the eagle is you'll notice it only has two wings left wing and right wing. That's why you can only have two political parties under the system in America. Both wings are operated by the same brain, so there's a third party here, the brain. What is telling you that our political system is run by money. You can find your banks on both sides of a river; they call river banks. And what does a river bank do? It directs the flow of the currency. It's the cash flow, the liquid asset. Therefore, that's what a bank does, it directs the flow of the current.

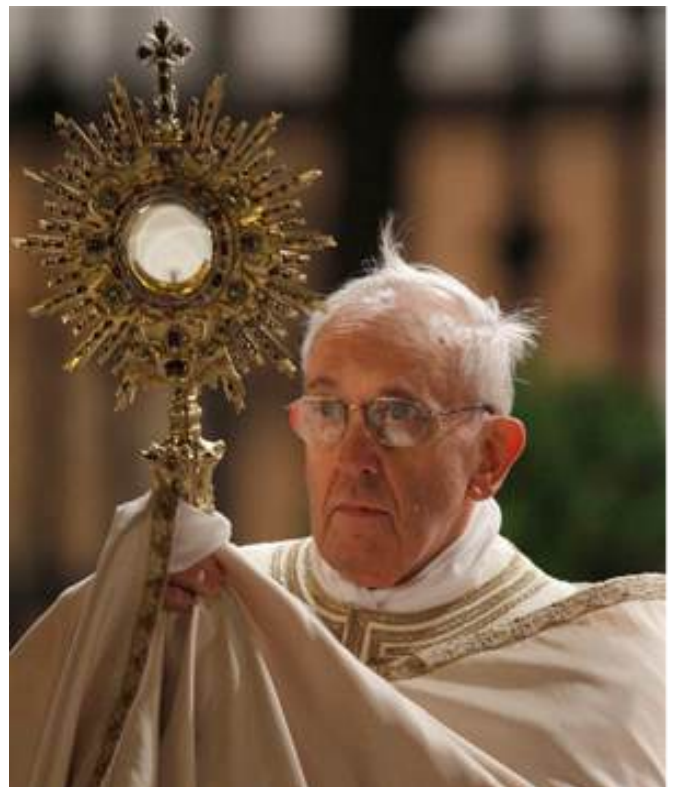

On the left-hand side of the back of the dollar Bill you will see a pyramid. An Egyptian pyramid, and at the top of the pyramid is an eye and Latin words "annuit coeptis" Beneath the pyramid you will see the banner that says "novus ordo seclorum" What the symbol is saying is that this pyramid represents a new world order. The eye represents the Messiah, the Jewish Messiah. In the Hebrew religion, the Jewish religion the Messiah is a triangle surrounded by light on top of a pyramid.

But also, in the New Testament Jesus is represented as the triangle on top of a pyramid. It's because in Christian theology Jesus is referred to as the chief cornerstone, so Christian will tell you that Jesus is the cornerstone of the church, but no. Jesus is not the cornerstone of the church, you are wrong, totally wrong. A corner stone is a corner of a building, it's the first stone that's perfectly laid. Jesus is not the cornerstone. The word chief cornerstone in Hebrew means a triangle perched on top of a pyramid, so what Jesus actually represents is a triangle sitting on top of a pyramid.

Jesus is referred to as God's Son the light of the world, the sun is the light of the world. Jesus is our risen saviour. Sun rises every morning so it's not the God's Son it's a SUN. If you ask any 6-year-old child where is the Jesus. The little Christian kid will tell you he's in heaven pointing his finger up in the sky.

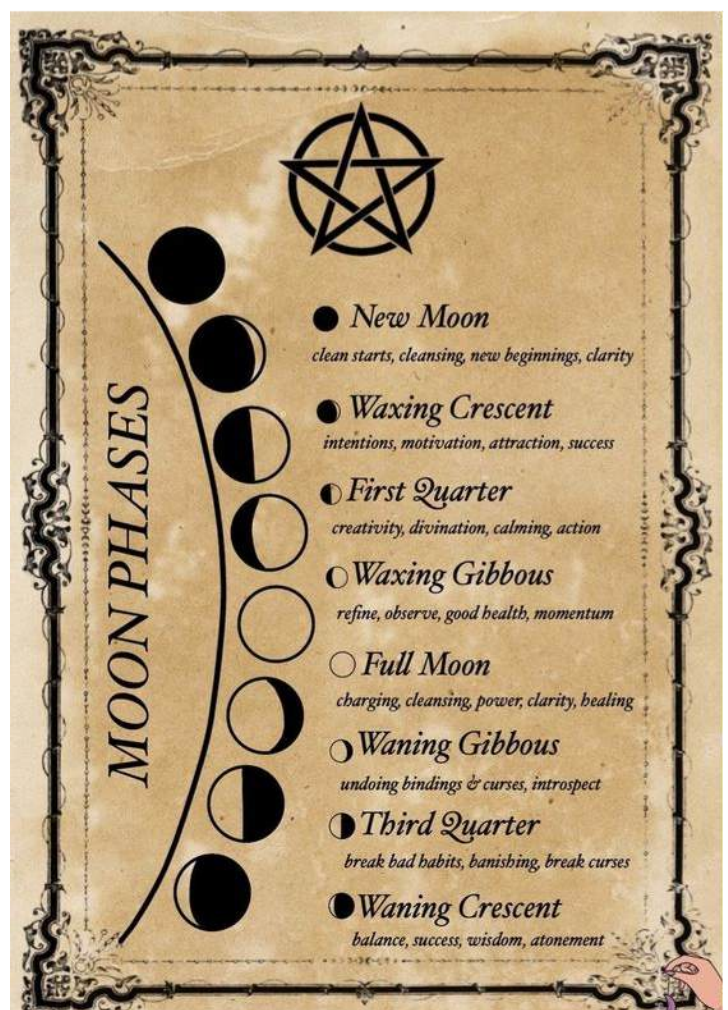

The whole New Testament, story of the Jesus is all about is based on the metaphor, symbolic story. Story about the war between light and darkness.

The King David never existed, Muhammad never existed, Abraham, Isaac and Jacob never existed. It's a religion, everybody got a religion. These people are just stories in the Bible, that's what the Bible's called, the greatest story ever told.

When you understand how this stuff works you begin to see that the story goes back to India and Egypt. There is no Brahma and Shiva, those are just metaphor names for gods. Whole Islamic religion was all about worship of the planet Saturn. Later it was involving the planet, Venus. That's why all Islamic countries on the flag have green colour. Green colour is associated with Venus. That's why when you see Islamic Mosque you will see the morning star and a crescent. Even astronomers will tell you that you will never see Venus as a full circle, it was always as a crescent. Also, the crescent has been used for the moon worship but that's was a little bit later. All I'm saying is that Judaism, Christianity and Islam are

ancient pagan religions and there's a small number of people in the world that know anything about this.

The story of Moses most likely never existed. Moses was Moon worship.

In Egypt on the other side of the sea is a large set of mountains, Mountain Sinai. Every night people would see the moon rise up from behind the mountains and was sleeping during the day. An old accent Arabic word Al was mountain and SIN was the God of the mountain. The God who lives in the mountains. They called him a Moon God.

On the first day of summer the SUN is as high in the Northern Hemisphere, in that moment God's son is really hot. God's Son the light of the world is our saviour. Three months later or 90 days later he is halfway down. He was really hot at one time, now he's not that hot, we call that Fall, because he is losing power. He is falling all the way down until it hits December 21st, now he is dead. That's the first day of winter. What's interesting is that on the December 22nd the 23rd and the 24th all three days the sun does not go any further. It just sits on that same degree. Egyptians said that the sun doesn't move for three days so therefore God's son was dead in his tomb for three days then on December 25th the sun moves 1 degree northward, which means it wasn't doing anything for three days, it was dead but now it's been born again.

We live in a world today that is full of a cult symbols, words, terms and numbers. The 99% of people in the face of the earth have no idea what's going on.

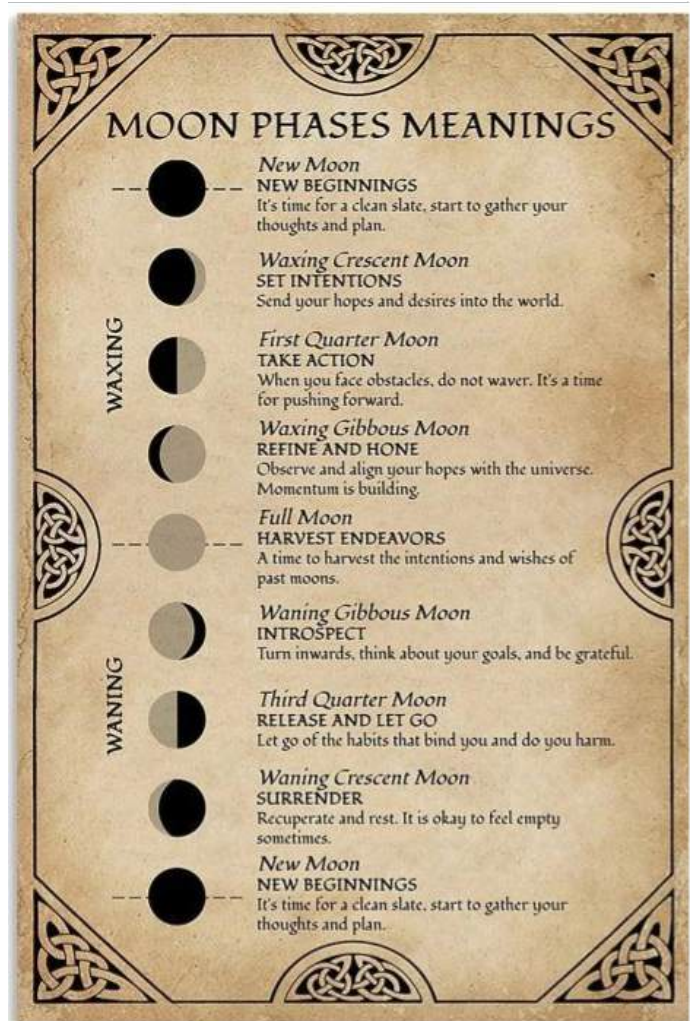

Religion is actually the worship of the sun and goes all the way back to the sun worship and moon worship in the ancient Arabic world.

The moon does not reflect the sun light, it emits its own source of light. Full moon will help you gain physic abilities.

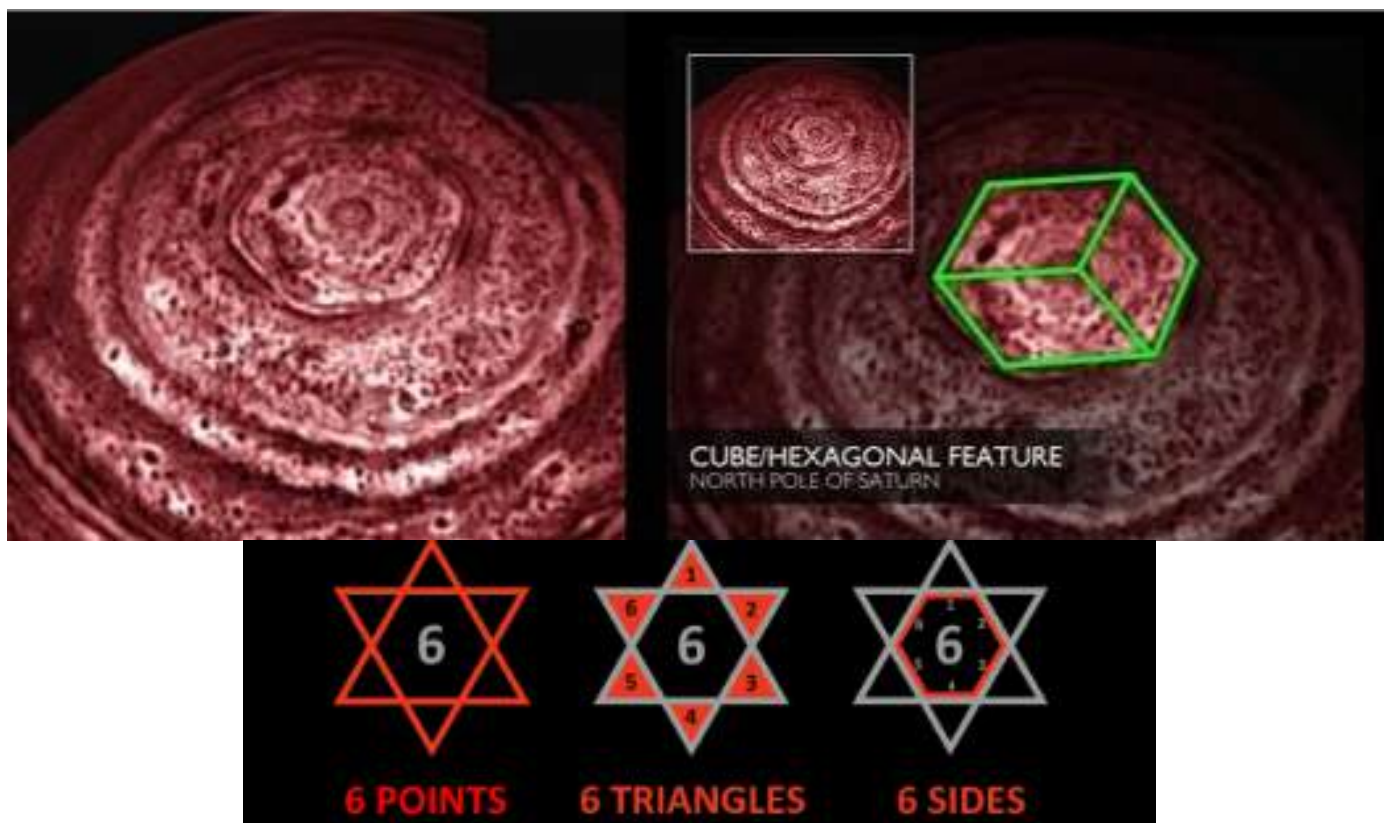

The moon represents your mind and a full moon is when your mind is most powerful. Use full moons to your advantage by starting something new in your life or have a deep visualization meditation of your future etc...

New moon symbolizes new beginnings, fresh starts, new mindsets, new goals...

The Christians still today are praying to God's Son, to the light of the world. Palestinians in the ancient time already had their own god, they had their own religion. That religion was the worship of the planet Saturn. Saturn was referred in the ancient world as Lord of the rings. The Jews in Hollywood making Lord of the rings, it's all be manipulated purposely. It's just a business, nothing personal here. The want to keep people occupied.

On the north pole of Saturn there is a cube - hexagon

Revelation 13:18

Here is wisdom. Let him who has understanding calculate the number of the beast, for the number is that of a man; and his number is six hundred and sixty-six.

If we connect all the sides, we get:

Those two triangles combined are symbolising a hex. We have been hexed into physical matter that is consisted of male and female energy plus a physical and spiritual aspect of our nature.

Ancient people from Rome metaphorically showed Saturn god eating his children because we are all Saturn's children and he eats us away until the body dies.

Christians eat little round bread biscuits which symbolize the Sun, not body of Jesus.

Priest will also hold these bread biscuits above their heads which is exactly where the sun is, above our heads.

As I already said the eagle only has two wings. Left wing is evil. That's why God put your heart on the left side, it's a sinister side. The sun is solar plexus that is in the centre of your chest.

Once you understand that Jesus is a symbol, a metaphor story, a symbolic story everything begins to make sense.

In the ancient Roman Empire, there was a religion, just before the event of Christianity. It was a very powerful dominating religion and it was called Mithraism. Mithra was the god of light. He was called God's Son, the light of the world. He died on the cross. He was resurrected after three days. He had 12 apostles. His mother was a virgin. Then when Christianity comes along thy left everything the same. Just follow the same story.

It's incredible when you understand how this religion works. How many people go to church and have no idea in the world what the word "church" means. It comes from a Scottish word Kirke. So, if you're Christian on Sunday morning in Scotland you go to Kirke or if you're in England you go to church. Word "Kirke" can be traced back to the Knights Templars. They Learned a lot of the religion of the Middle East. In the Middle East there was a worship of a goddess. Her name was Mother Circe. While Mother Circe becomes Mother Kirk and then later on becomes Mother Church.

Circe is the basis for Kirke, and Kirke is the basis for the church. Mother Circe was able to hypnotise people and take their minds from them. She would bring them into her

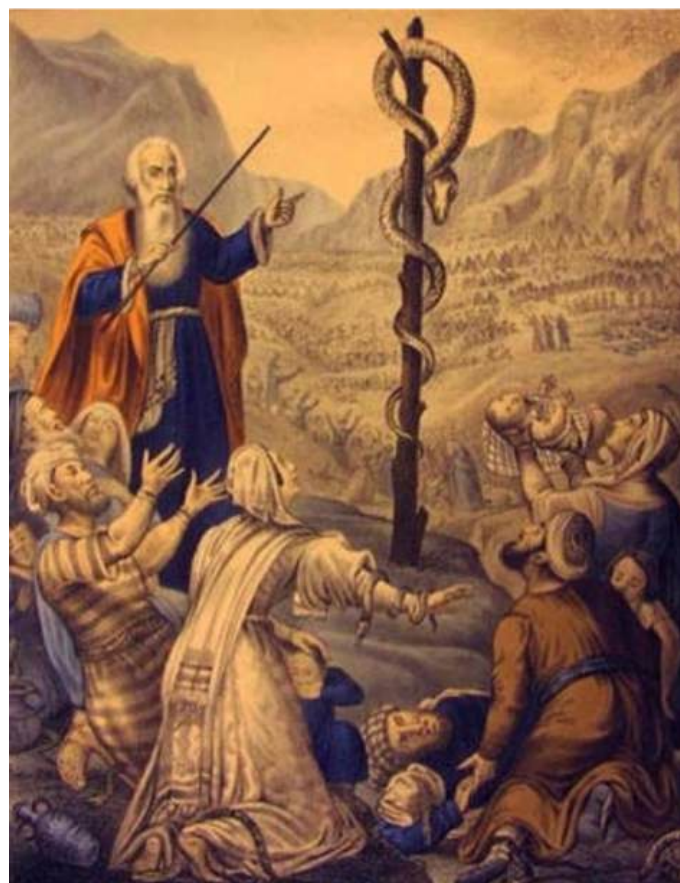

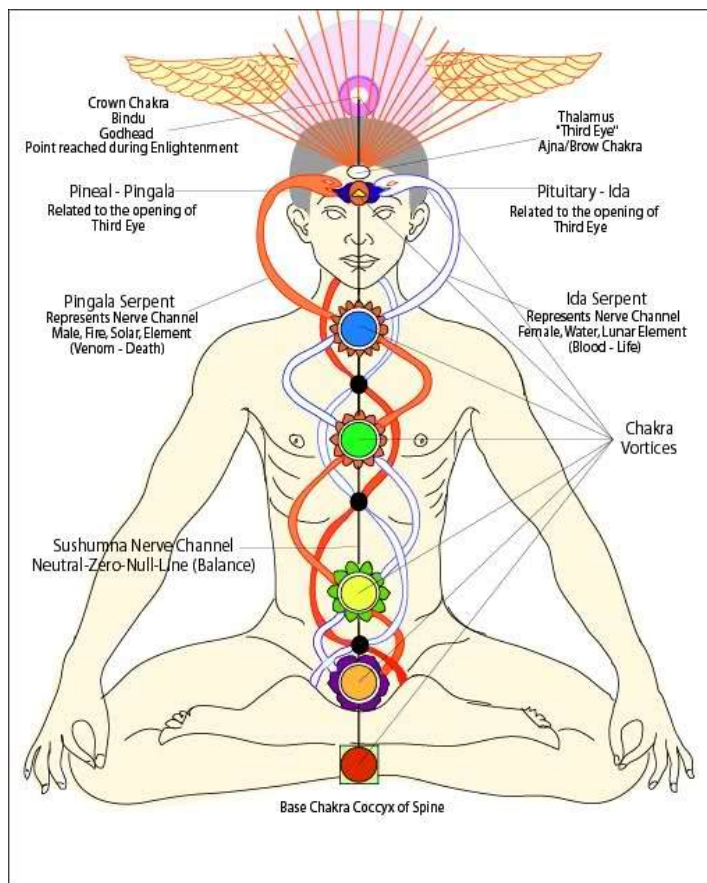

house, lock the door behind them and eat them. That's what mother Church does as well.

You bring them people, they walk through the door, behind them the door close. No reading of any books because we don't want to question nothing. We don't want discuss nothing. Just do what you're told to do, write a check and keep your mouth shut. So therefore, mother church is living off the people.

I'm just amazed how many people don't see this stuff. People give 10% of the income to the church tithing to support the church. Do you know where tithing comes from? Giving 10% of your income tithing was the ancient Phoenician Canaanites tactic. All the ancient people in the Middle East realise that each year when you grow your plants and food you save 10% of the seeds for the next year, so you can give it back to God. The church used that in their favour. Religion is just a business; it has nothing to do with anything spiritual.

There was no Jesus, it's just a story of the sun. The whole story of the Bible is astrology.

“Son of man must be lifted up” son=sun=sol=soul

Soul must be lifted through kundalini activating the pineal gland. Activation of the pineal gland gives you the abilities to leave the body and explore other realities.

Story of Jesus is symbolic of the process that happens monthly within the human body. Jesus fell from the heaven and incarnates on the earth which is symbolic of the Christ oil traveling down the spine from your brain which represents heaven.

The sacred oil stays still within the sacrum bone for 3 days which is Jesus being dead in the cave for three days. Once Jesus resurrects (the oil rises up the spine) he gets crucified at 33 years of age. The spine contains 33 vertebrae and once the oil passes all 33 vertebrae and reaches the optic thalamus it gets crucified on the cross because the thalamus looks like a cross. The death of Jesus symbolizes turning matter into spirit as the return of the oil gives the human supernatural abilities like astral travel.

Birds are the symbol of the holy spirit/soul.

Christ Oil

When the moon enters your sun sign (your birth zodiac sign) the oil is released down the spine to the sacrum bone which is shaped like a cave. It stays there for 3 days which symbolizes Jesus dead in a cave for 3 days. When the oil is activated/resurrected it will travel back up to the brain.

The Pineal Gland 'Joseph' secretes the milk, the Pituitary 'Mary' secretes the honey, both from the same source the Claustrum 'Santa Claus'

The sacred oil returns after the crossing 'the crucifixion' it enters the cerebellum 'Golgotha' the place of the skull. The fluid 'Christ' is refined 1000 x fold

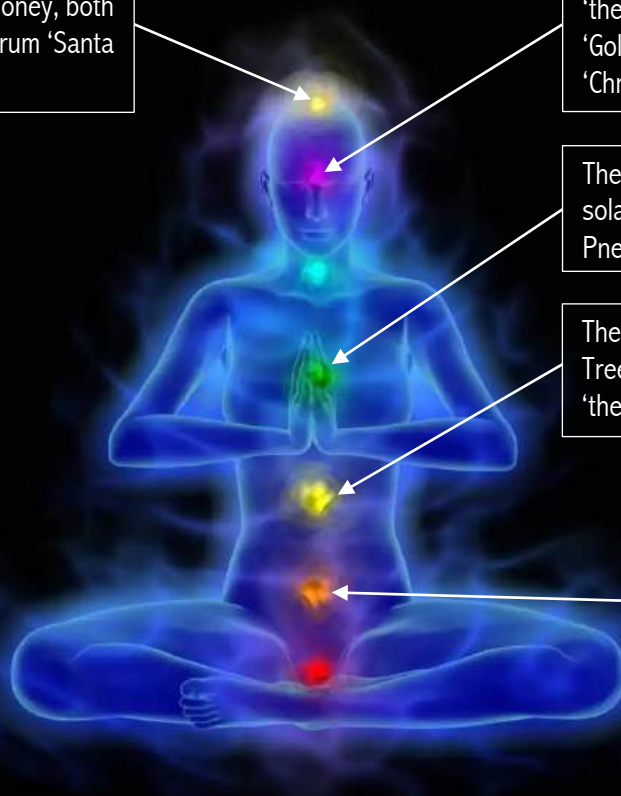

THE PROCESS OF THE OIL COMING DOWN FROM THE HEAD SYMBOLIZES JESUS COMING DOWN FROM HEAVEN INTO PHYSICAL FORM.

JESUS DYING FOR 3 DAYS AND THEN BEING RESURRECTED TO BE CRUCIFIED AT 33 IS A METAPHORICAL STORY ABOUT THE CHRIST OIL PROCESS WITHIN THE BODY WHICH ACTIVATES THE GOD CONSCIOUSNESS.

THE STORY OF MOSES

Religion is at the bottom of all of the world's problems because the people who are in power have given us our governments, institutions of higher learning, governmental systems and religions. Religions came from the same people who have given you your banking system and governmental systems. So, Judaism, Christianity and Islam are nothing more than masonic concoctions invented to entertain the masses and keep them occupied. Religions are designed purposely to distract your mind and to give you something to hope.

Why do we have different wars on earth? There is only one reason. To guide the human race. If you have peace around the earth everybody would get together and do things together but that's not what the “masters” want. Their plan is to feed the violence and rebuild us through the media, pornography, religions, video games etc. Most of the people in the world have no idea what's going on, how the stuff really works.

Government, commerce and religions works together and everything is well planned out. If you start doing some research you will find out that Christianity, Judaism and Islam are referred to, as the “people of the book” because all three rely on a book. Judaism today is actually Hinduism. It is connected through the ancient Hindus. Many of their teachings call “Brahmanism” and you put “A” in front of “Brahma” it becomes “Abrahma”. So, all the stuff about Abraham, Isaac and Jacob are Hinduism.

Old ancient Phoenician Canaanites were the bankers, politicians of the Middle East. They picked up all Hindu stuff and fashioned the new religion called Judaism and out of Judaism comes Christianity.

Christianity and Judaism is based on the Old Testament and Moses in particular. We were told that Moses was a great "Law Giver".

When you begin to look at the history of the scriptures and the history of the Old and New Testament, you will begin to see for the first time that the stories in the Old

Testament have been misrepresented. None of the stories in the Old Testament or actual historical facts. There was no ancient Israel, it didn't exist. There were Canaanites, today we call them Hebrew people, so Canaanites religion today is referred as Judaism.

Moses as the basis for the law. He's the law giver. We were told that he was given the

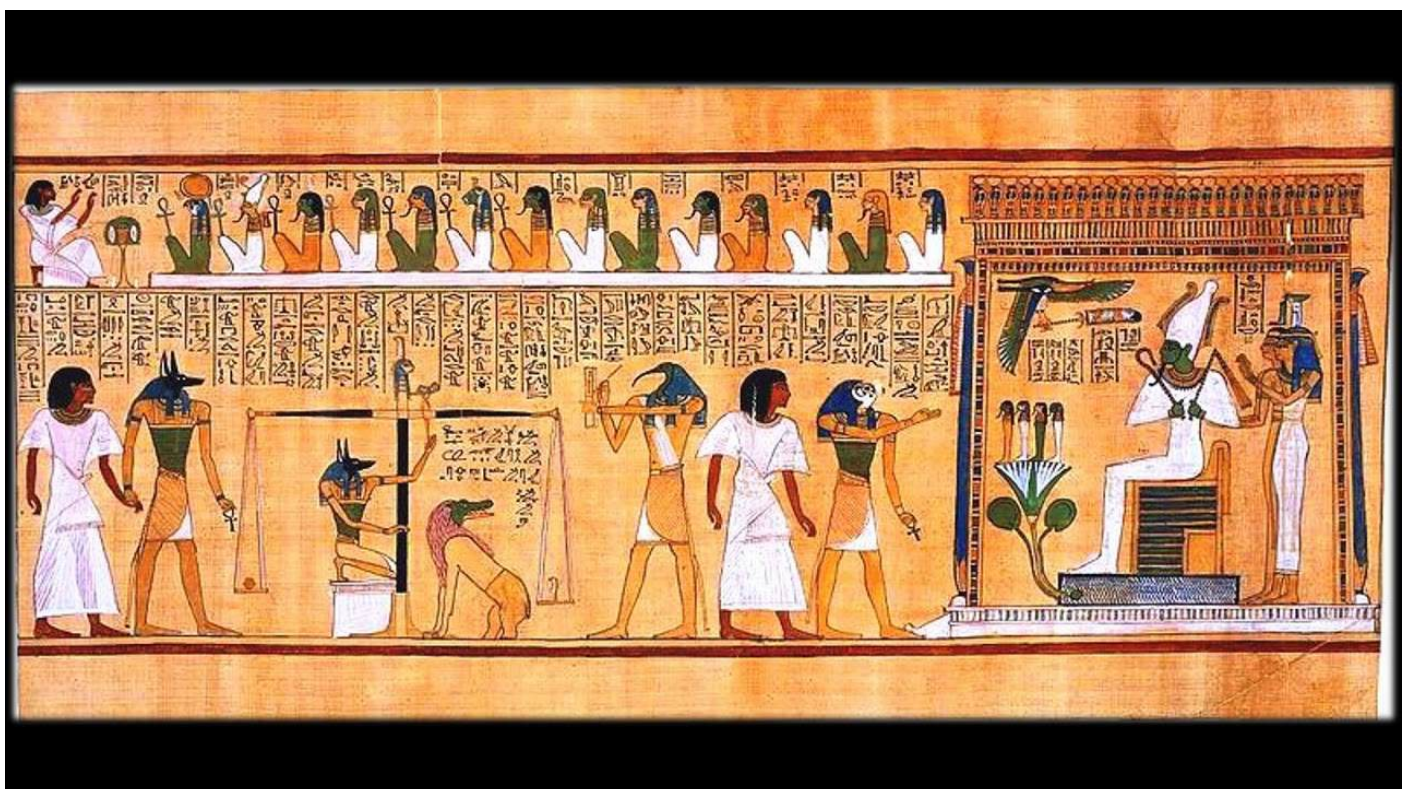

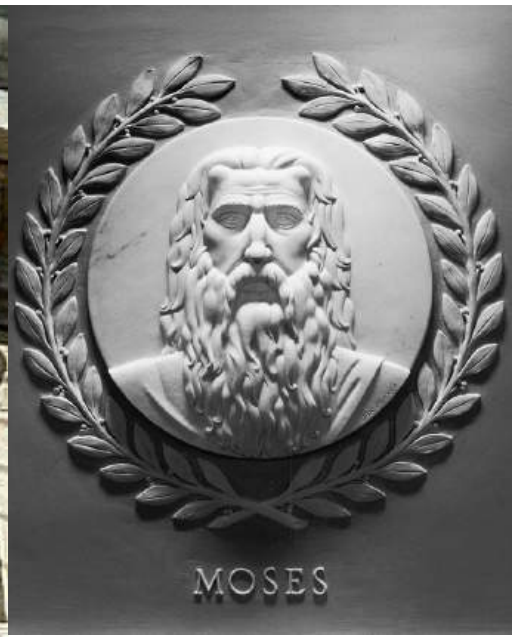

law from God. He comes

down the mountain.

Incidentally Moses throws the law down and breaks it. So, he is the first law breaker. The Ten Commandments were copied from something in Egypt called the Twelve negative confessions, so the very Ten Commandments were Egyptian.

Even in the US government there are statues of Moses. In the 'Halls of Justice' and even in the 'House of Representatives'. There are three legs on which America exist. First of all, Roman and government, Greek and philosophy and Jewish and law.

Most of people will not notice, but why the Moses have horns? The horns represent the Moon. Moses was a focal figure of moon worship on the Sinai Peninsula.

Americans and the Vikings wore horns because the native Americans always counted their days from sundown. American Indians talked about mini moons have passed. They didn't keep track of the day by the sun because that was Christian sun worship. So, the native Americans like the Vikings were the moon worshippers. They counted days from sun down to sun down just as the Jews do today, because that's when the Moon comes out.

Old coins and carvings in the ancient world show the hands rising worshipping the moon god.

Islamic religion is a very interesting combination of Moon worship, Saturn worship and Venus's worship. Venus is very big in the Islamic religion.

The name moon god in Arabian was Sin. And if you look up the word Allah or Sin, it will tell you that Allah in Islam is actually the moon god Sin. "Al" in the ancient language was a mountain. SIN-Al is the **Moon God** that comes up over the mountain. If you put it together it become SINAl.

Sin

If Moses climbed Mount Sinai to meet the resident god, then the god he met would have been the moon god Sin, who had been enthroned on that mountain since the rise of Sumeria, and gave his name to it. In fact, Sin gave his name to the whole Sinai peninsula, formerly "the Land of Sinim" (Isaiah 49:12), or the land of the lunar mountain. The original Yahweh was only another form of this "primitive lunar deity of Arabia."¹ Sin became part of the Babylonian trinity along with Shamash the sun and Ishtar the star.¹

SINAI

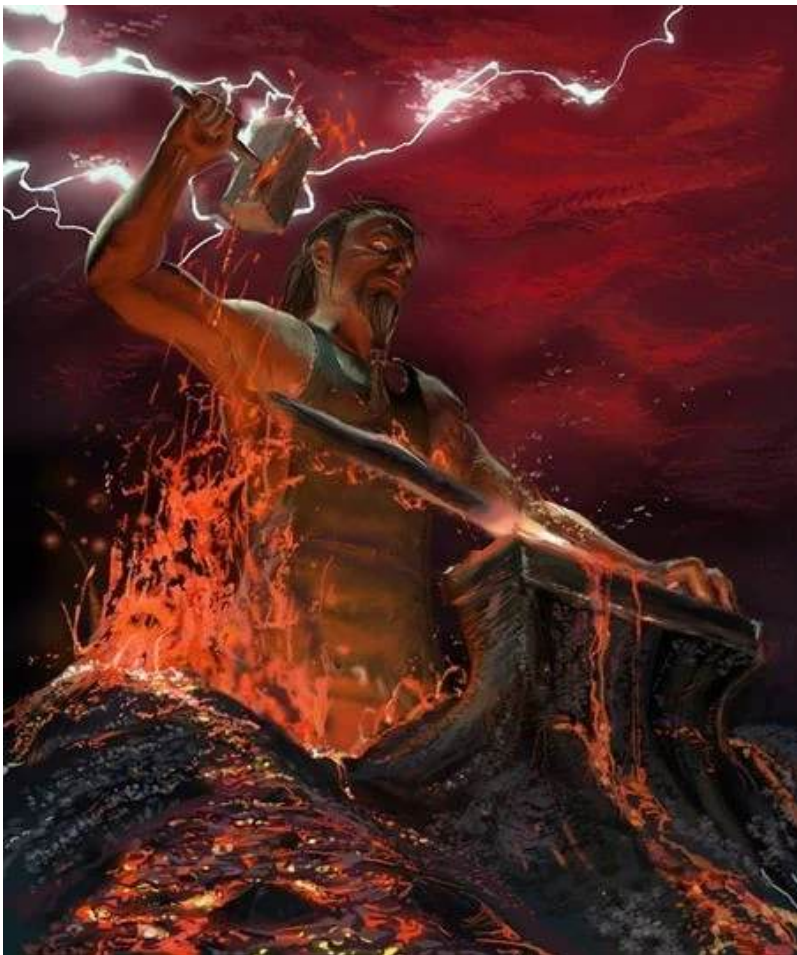

A mountain in the peninsula between the gulfs of Suez and Aqaba (now Sinai Peninsula), also known as Horeb in the Old Testament. Its identity is disputed but both tradition and much modern scholarship points to Jebel Musa ("Mountain of Moses" – about 7,400ft). The surrounding area was known as the wilderness of Sinai (or of Sin).

The point I'm making here is that Moses represents a Moon Cult.

Even in the Catholic church they have the crescent Moon.

Moses was also connected to a Volcano God. Volcano worship was very big in the ancient world. This is why on all the drawings and pictures in the Jewish religion you see the Moses at the volcano. Because the ancient Canaanites, people of the middle also worshiped the god of the Volcano.

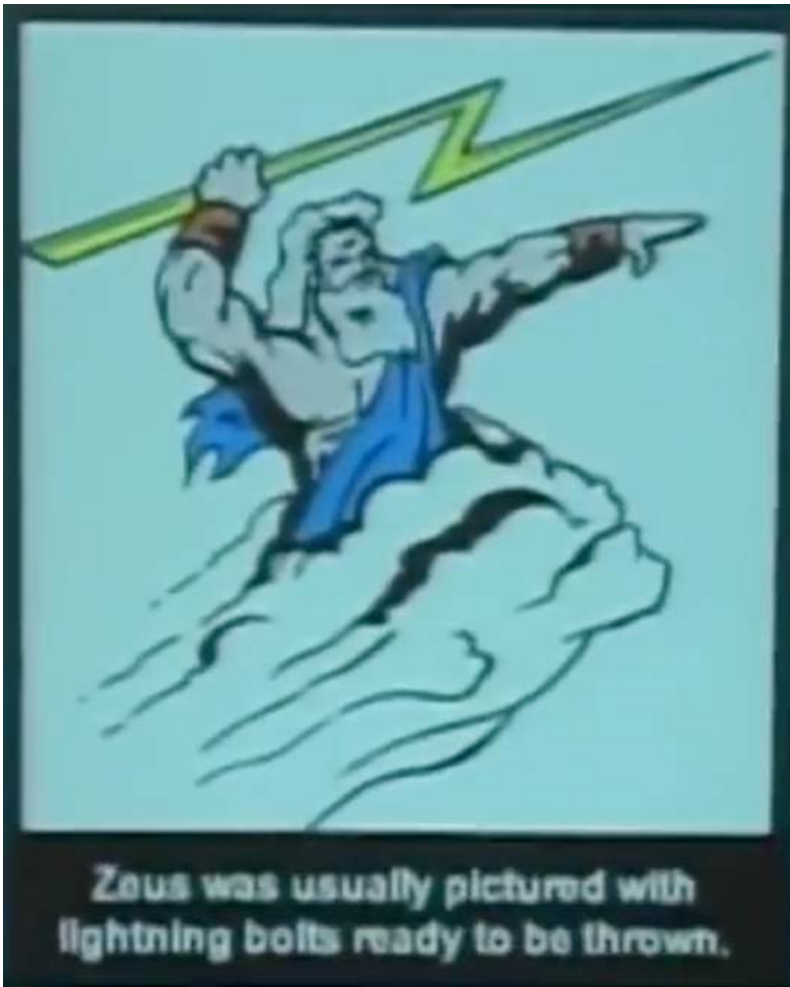

Jews were worshippers of the Volcano God, the Moon God, they were worshippers of the planet Saturn that was called “Lord of the rings” because Saturn was God of the rings. This is why women were told to listen to the God so they were wearing an earring, they can’t get marry before they got to wear wedding ring. The rings represent the planet Saturn.

In the Bible book of Exodus, it says “the LORD went before them by day in a pillar of a cloud, to lead them the way; and by night in a pillar of fire, to give them light; to go by day and night” what you get with Volcanoes, a pillar of cloud by day and a pillar of fire by night.

The word “God” comes from the Latin word “Deus” that means Zeus in Greek, the god of lightning and thunder.

On the ancient Phoenician language “Saturn” is referred to “Shabbat” so therefore the Hebrew Sabbath is the Worship of the goat God connected to the planet Saturn. That's why the Hebrews have there a holy day on Sabbath on the sundown Friday night and to sundown Saturday night because that's Saturn, Saturn Day or Saturday. It's all Moon worship, Saturn worship, Volcano worship.

We were told that Moses led the children of Israel out into the wilderness and they were given “manna” from heaven to live on. “Mana” is a Hebrew word which means “what is that?”.

Whatever it was they were picking up off the ground they don't know what it is, but you can eat it. It was small it was round, flaky, white and it actually came from heaven. The first time we hear about the “mana” from heaven is in the book of Exodus in the Old Testament Exodus 16 14 and it says “And when the dew that lay was gone up, behold, upon the face of the wilderness there lay a small round thing, as small as the hoar frost on the ground.” After you analyse the words and the symbols you realize that they were picking up the mushrooms.

SOMA

DIVINE MUSHROOM OF IMMORTLITY

R. Gordon Wasson

The New Testament says while they were eating Jesus took bread, broke it and says “take it, this is my body”. The very word “body” is the word “Soma”. So, if you look in the Bible dictionaries “body” will say Soma Mushroom. So much for Jesus giving his body, it is the body of the mushroom.

I have the highest respect for spirituality and for God. I have a very high respect for the divine in nature and the divine in the universe. I totally believe in God. Whatever God is, God is simply a word dogs spell backwards. Whatever is it, in fact, out there, is extraordinarily powerful, extraordinarily brilliant and profound its presence in the universe.

As one astronomer said “The universe is not only stranger than you imagine, it is stranger than you can imagine”.

I am totally convinced that there is a higher force in the universe, a matrix of power that is far more brilliant and powerful than anything we have ever contemplated.

I think it's an ideal time for people to give them explanation that your religions are based on the old Masonic orders coming out of the middle East. The people we call the “international bankers” were actually the Knights Templars coming out of the Catholic Church, coming into Europe and ultimately into America. I have no respect for religion whatsoever, I think it's fascinating to watch how people will believe things and not do any research to find out where these belief systems have come from. This is why Christians are referred to as believers.

GENESIS TRANSLATED

In the Bible there is many things that are misunderstood and mistranslated into English from the Hebrew. We need to understand that language which we refer as Hebrew is in point of fact not Hebrew but Phoenician Canaanite.

The Phoenicians bloodline is from the ancient Middle East. That area of where Phoenicia existed was called Cana so today, we refer to the Canaanite. Their language is well known as a Hebrew.

Many of the concepts and ideas which are expressed in the Old Testament are not original to the Old Testament from the ancient history.

The Bible is one of the most important books on the earth, it's telling you some really interesting things but if you don't understand how to read the symbols you will never understand any of it.

The Old Testament is probably the most important story in the whole world. But not as history, as a metaphor!

In Genesis 1 King James Bible says "In the beginning God created the heavens and the earth" That's not what it says in the old ancient Hebrew or Phoenician language, the original language. That's how it was translated. Now we know more about the language and there's a lot of imperfections in the King James Bible that could be misleading, unless you understand what the words actually meant in the ancient world.

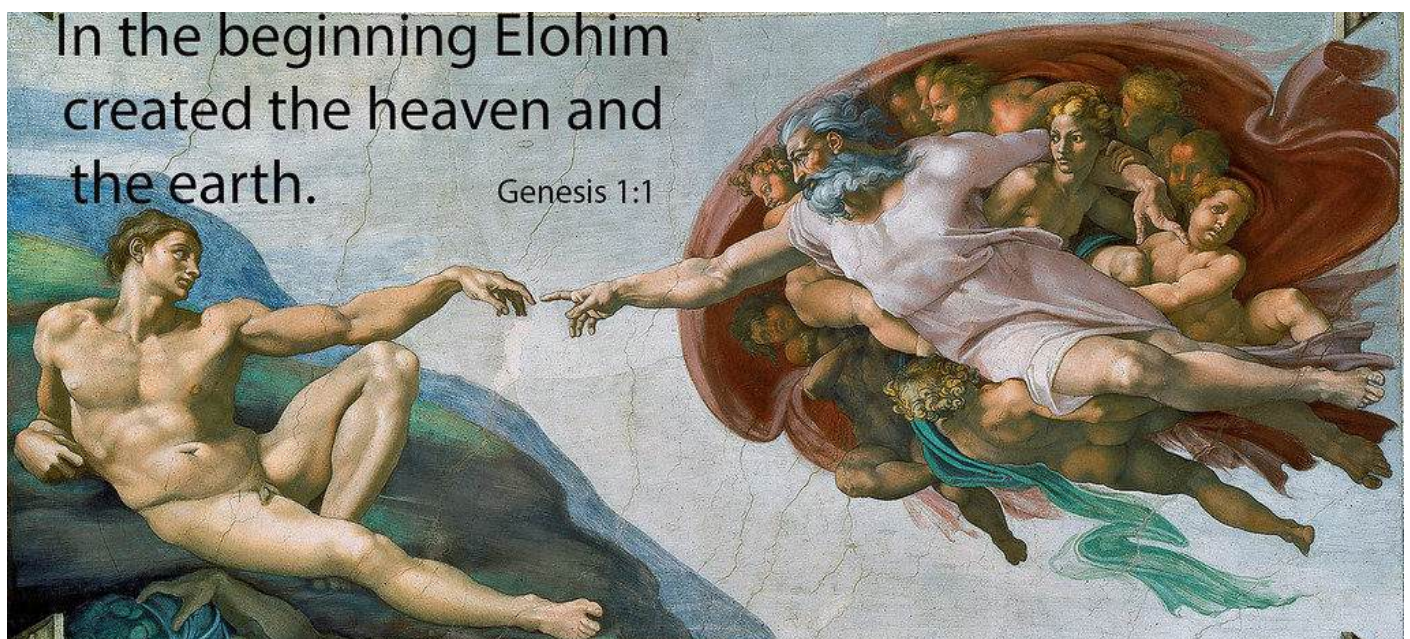

In Hebrew it says in the beginning of the creation Elohim created the heavens and the earth. Elohim is not the word god. El is a Phoenician Canaanite name or word for God. Adding "him" it makes it plural. So, the correct understanding should be "The gods created the heavens and the earth" not the god. And more interesting than that in Genesis 1.28 when God is creating Adam and Eve god said "come let us make man in our image according to our likeness"

Who's us and ours? Was God talking to himself?

In the King's James Bible, Genesis 1.1 it says "In the beginning the God created the heaven and the earth". That's not what it says in the old ancient Hebrew or Phoenician language, the original language. That's how it was translated. Now we know more about the language and there's a lot of imperfections in the King James Bible that could be misleading, unless you understand what the words actually meant in the ancient world.

God in Hebrew is "EL" but in Genesis 1.1 the God is not word EL, it's ELOHIM. Adding "OHIM" makes it plural, more than one. The correct translation should be "In the beginning Gods created heaven and the earth" This explain why in Genesis 1.28 when God created Adam and Eve, it says "God said, come let US make man in our image after our likeness" Who is US?

There is no place in the Hebrew Bible that it says God created man. Nowhere. You can't find it. The word "MAN" in Hebrew is "ISH", and nowhere it said the God created "ISH". Also, there is no "Adam" it's a "ADM", they just added letter "A". "ADM" in Hebrew means a new creature. So, it should be written "Come let us make ADM, after our image after our likeness. So, the real translation is "Come let us make man in our image, at our likeness". He was already here. Somebody recreated us.

God (higher self) is reaching/stretching over to try connect with Adam (lower self) and Adam is relaxed showing no effort. This painting is showing that all you have to do is move up to the higher mind to reach your higher self. The higher self is always speaking and giving commands but the lower self dominates. All you have to do is follow the commands of the higher self (higher mind/thoughts).

Head is heaven, because it's the place of consciousness in the centre of the brain. The pineal gland is the place of thyme consciousness and it has access to the astral plane.

In Genesis 9, after the flood of the Noah's day, God says to Noah and his family after the flood "Go forth multiply and replenish the earth." Replenish means do it again. If there was a flood and everything was destroyed you need to create it again. That makes sense. But what about the Genesis 1.28 when God created Adam and Eve, God said to them "Let us create man at our image, at our likeness and go forth multiple and replenish the earth" It's the same word "Replenish" Why would God said "replenish" if the Adam and Eve are the first humans. The reason why, is that they are not the first humans, we are not the first creatures on the earth.

Who was God? This is a very difficult word to deal with. Well God is dog spelled backwards. This is why churches have dogma and their teachings because it goes back to Anubis the dog of any ancient Egyptian religion.

In Genesis 1.2 where it incorrectly says that in the end the earth was without form and void correctly translated the earth became a waste and a desolation. The two Hebrew words that are being translated there is

"tohu" and "vohu" There are only two places in the Bible where "tohu" "vohu" is used.

In Jeremiah says "I saw the earth in a vision and the earth was tohu vohu" meaning the earth already existed it became a waste and a desolation. According to the Jeremiah prophecy it happened many many many thousands of years before. The prophet Isaiah said God gave him a vision and in the vision, he saw the earth, Tohuvohu. Jeremiah says the earth was beautiful full of animals and civilisations.

And then Tohu vohu became a waste of a desolation, it happened some kind of a major catastrophe. We know that they have found frozen animals with green vegetation still in their mouth. Something happened many many many thousands of years ago which is translated like tohu vohu. Some terrible

catastrophe in which the gods were angry and the whole thing was just destroyed.

The Bible is saying that the gods ELOHIM became angry at the creation and Jeremiah was allowed to see tohu vohu a total destruction of the earth. So, when everything is collapsed and destroyed now theoretically, according to the Bible God says, come let us do it again let's create a man and a woman.

If you go back to the ancient works, you will find that the ancient people the Sumerians, Babylonians, Phoenician, Canaanites, Egyptians, the ancient Greeks and Romans all of them understood that we are the creation of another entities.

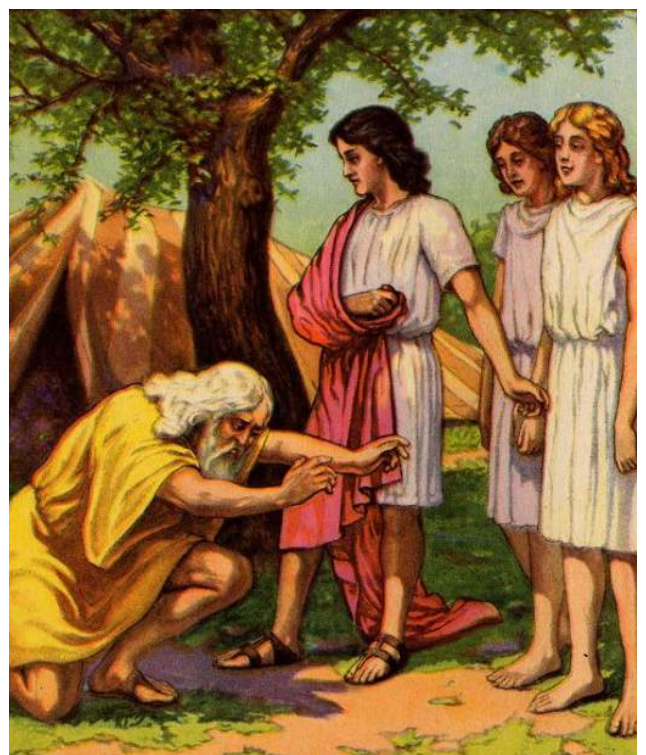

The Sumerians are saying that extra-terrestrials came here from a planet called Nibiru. It is a planet about twice the size of the earth that comes in it as part of our solar system but it has a huge elliptical orbit.

The US Navy has even commented that there seems to be more than one planet connected to our solar system with elliptical orbit. This elliptical orbit every 3600 years it comes back into our vicinity and passes through our solar system. We have no idea what's going on, but the ancient peoples knew. The gods told them that every 3600 years they come back to see how everything is, they give you some new ideas and concepts depending on how smart you are.

If you are able to look at the science, philosophy, religion and biblical history, all of this makes some kind of a legitimate sense.

If we go back to Genesis 18 there's a story there about Abraham. Abraham is standing in his tent talking to his wife and three men come walking up toward him and he went out to meet them. They said that they were on their way to do some business and they were just passing

through. Abraham asked the three men to stay and have dinner and then go. They said no. Abraham insisted so at the end they had a dinner. Two of the men got up thank Abraham for his hospitality and said they really must go but the third one will stay to talk for a little bit. In the Bible Genesis 19 said that those two men were angels, the spirit entities in human form. And in Genesis 18 the one that stayed talk to Abraham was THE LORD, the creator himself, God Almighty, the creator of mankind himself!

There is something very important encoded in the book of Genesis. I think that today the sons of God are still here on the earth. We don't know what their lifespan is, we have no idea what we're talking about here, all we know is that the Bible is saying that there are extra-terrestrials. They're coming from "out there" and they look like humans, they can mess with women and have offspring. They can sit and have dinner with you and they look like good and handsome men but they're not from here and they're not men. They just look like men.

I think that's what we're looking at today are wars between the gods. It has nothing to do with the human element it has to do with a cosmic cataclysmic time in which the gods are battling now for our ownership.

This is what Steven Spielberg and George Lucas have been telling you. In his movie Indiana Jones and the Last Crusade. If you don't understand the first two crusades, you're never going to understand the Last Crusade. Do you know what the Crusades were all about? Well, it has to do with the ownership of the people, international banking cartels that has to do with the Knights Templars of the 9th and 10 centuries. In the movie the last crusade, Indiana Jones looking for something called "the cup of Christ" or "the Holy Grail" There have been many stories and many interpretations of this but basically, it goes back to one thing. the

cup represents the holder of the wine, the wine is poured into the cup, the wine has always represented the blood of mankind. They are symbolically drinking the blood of the God so that they are locked into a partnership with God. The lost grail is a cup in which you pour the wine. The cup represents the earth and the wine represents the blood on the earth, the human blood on the earth. Whoever holds the cup holds the blood of the human family on the earth in his hands which I believe is a symbolism of the ancient gods who have come here from another world.

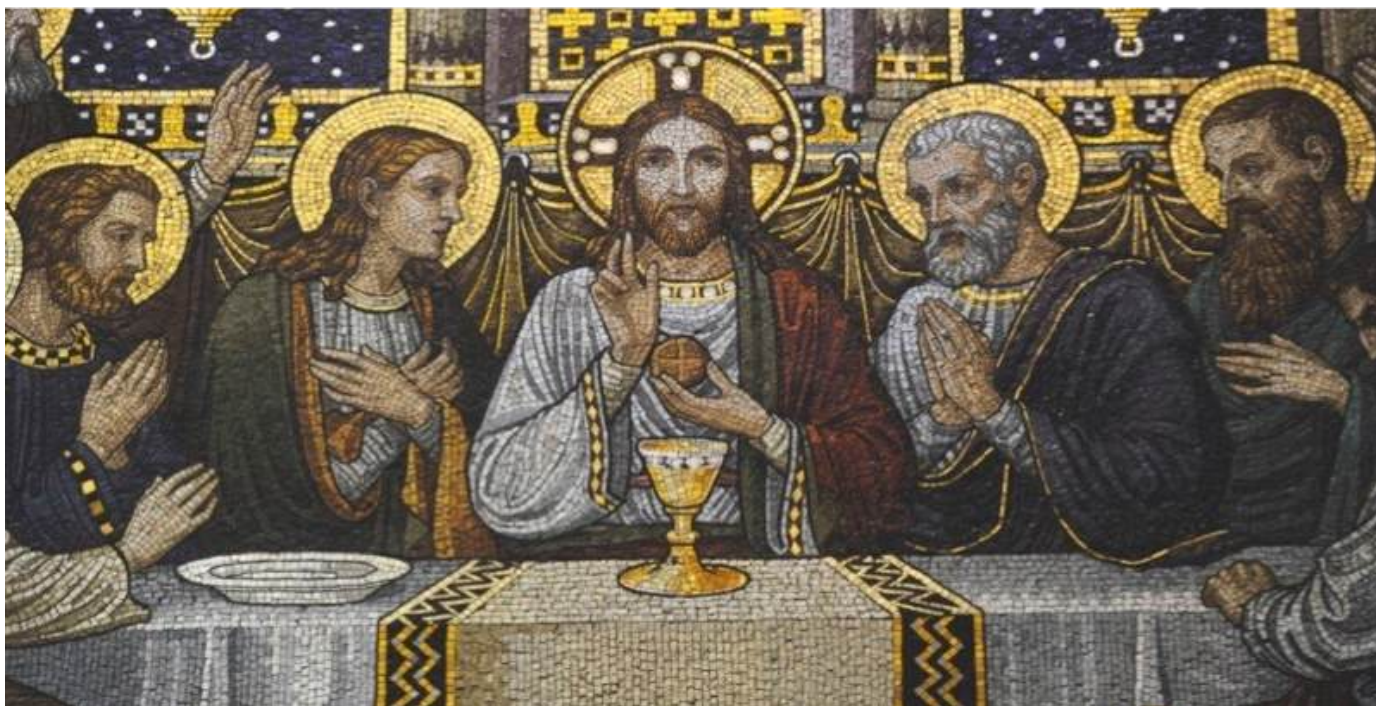

The Holy Grail

Holy grail is the neck and head. The reason why the holy grail is a cup is because the sun and moon create the holy fluid (christ oil) and fill it up every month.

This masonic art symbolizes the sun and moon creating the "milk and honey" in the brain. The milk is the fluid created by the MOON. The honey is the fluid created by the SUN.

If you're concerned about your spirituality and your life, talk quietly to the God or talk to the universe of God force because believe me it's there and it hears you.

Ask God;

What am I to do?
What am I to know?
Show me where I'm wrong
Tell me what I have to do
and I'm going to do it!

Then leave it alone and watch the way the spirit works; things will begin to happen around you and all of a sudden you know things; the answers will be right in front of you.

There is a higher force in the universe, talk to that spirit and it will protect you and guide you!

THE VATICAN

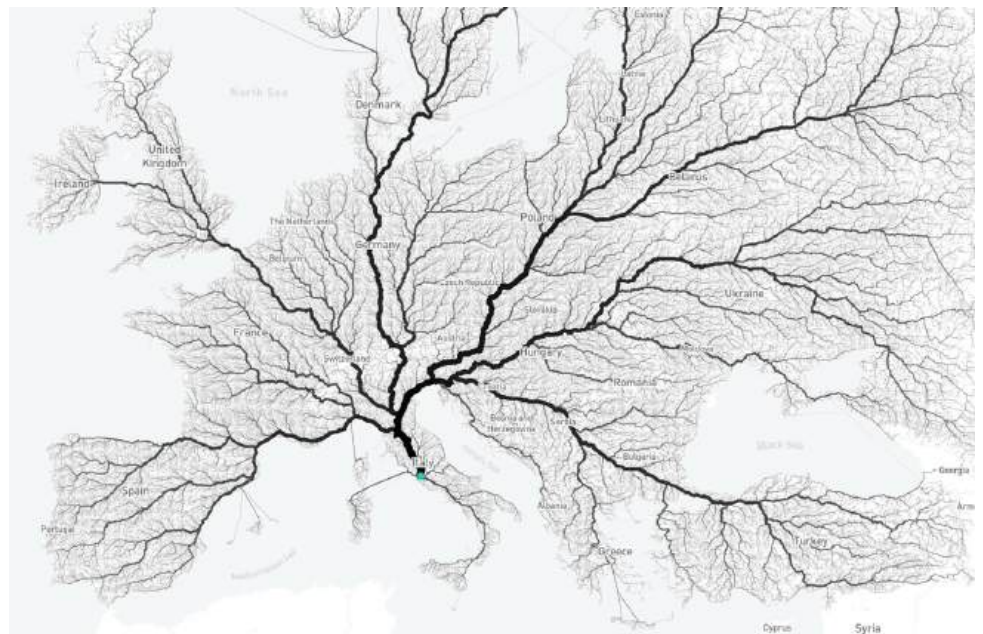

The best spy agency on the earth is the Vatican. For 1600 years the Vatican has dominated Europe. Actually for 2300 years Rome has dominated Europe. After the fall of Roman Empire, the Vatican became the new power of Europe, so Rome hasn't gone anywhere, it just morphed into the Vatican.

If you want to take all of the evil and all the badness in the world, the war, the bloodshed, the hypocrisy, the lies, the drugs go back and start studying where all the stuff has come from. It will lead you back to the Catholic Church.

When the Roman Empire collapsed it became the Roman Universal Religion, or the Roman Catholic Religion, because “universal” means “catholic”.

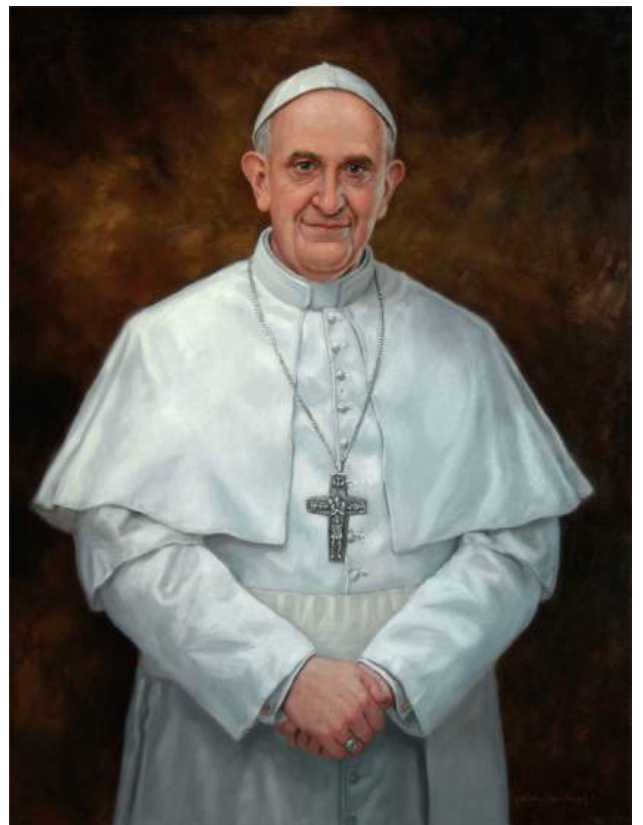

So, if you take the time to do the research you will find that all of the bad stuff that's going on the earth today coming from one place... “All roads lead to Rome”.

Pope comes from all the Latin word “Papa”, and “papa” is a door. Because your papa was the door to life. You can’t open the door without the hinge. In Latin a “hinge” is “cardine”. Cardines are the hinges for Papa to open the door to the Babylonian mysteries of Dagon.

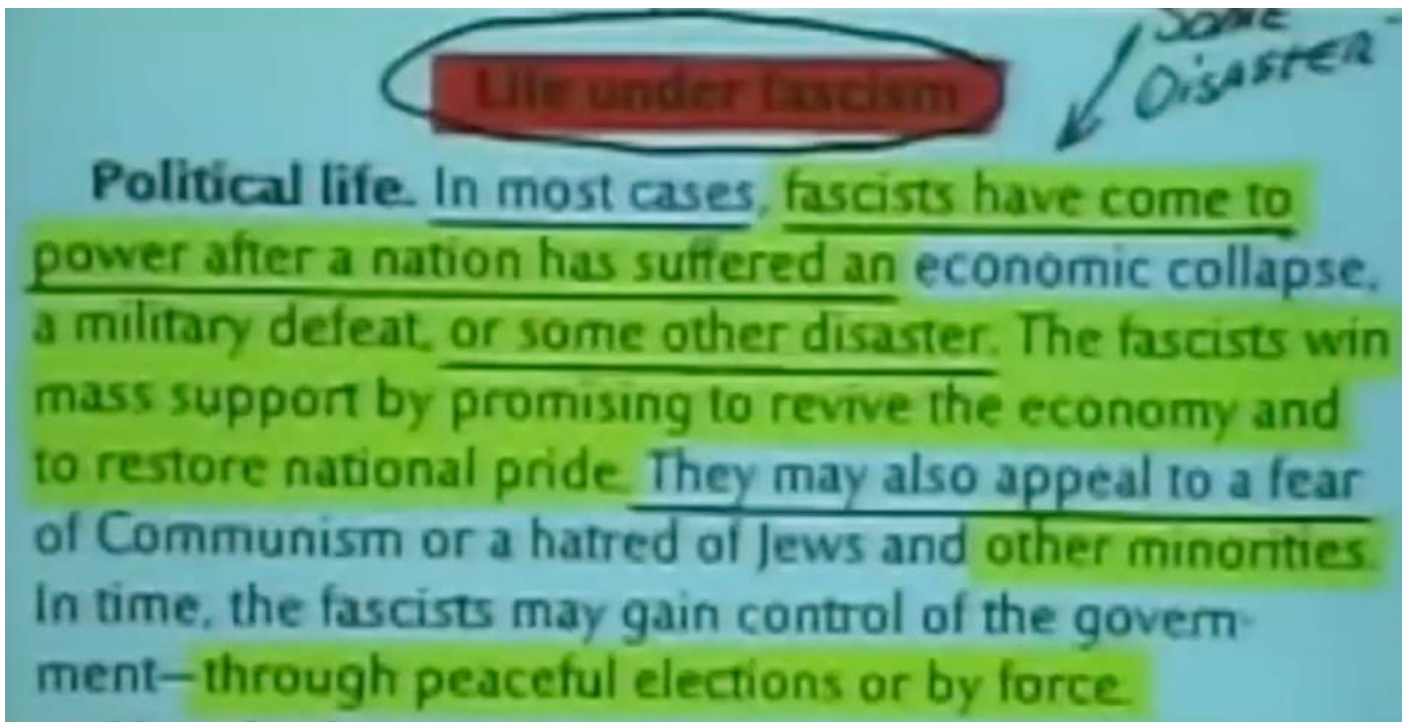

Caesar under the ancient Roman system, he was called Pontifex Maximus or the great bridge builder. Today that is the term has given to the Pope. Bridge builder because he builds bridges to other nations.

Fascism

If you go to the world's encyclopaedia and look up for "fascism" you will get an article "Life under fascism" that says;

We are talking about Rome Fascism the America today. The strict censorship by foreign people out of Rome who have come here, they were called Jesuits. In another word fascists.

"Fasces" is a bundle of sticks, tied together with a hatchet has called a fascist. "Fasces" is a bundle of rods containing an axe with the blade. Almost all ancient civilizations that have ever existed used the same symbol for divine power. In government it was always an "axe". Axe symbolize a final cut, the power of Caesar an absolute master. Why a bundle of sticks?

Because one stick can be broken but you put a bundle of sticks then you have a problem. They all work together.

Breakable

Unbreakable

FASCES

Secret Symbol of the
Lincoln Memorial (U.S.
National Park Service)

In Egypt the axe was God. In America the axe was God. In Rome the axe was God.
America is still under absolute Roman Fascism!

There are two kinds of laws in the roman language. One is “jus” that gives us justice. “Jus” in Latin is Man’s Law. “Fas” is God’s law. So, we have God’s law and Man’s law. Fascist comes from the word “fas”. In Latin it means “divine law”. The kings of English and princes, and all of the royalty have a divine right of kings. That sounds like a God appointed them. Well, in fact, no God didn't appoint anybody this is just a man-made trick. When you're talking about God's law you're talking about the Pope, you're talking about the Vatican. Because in Europe all the royalty are made by the blessing of the Pope. Why him? Because he represents God and he said you could be king. The problem is that he could also say tomorrow that God decided he don't want you to be king anymore. It's a man-made system.

Fascism & World Conflicts

The Pope declare Benito Mussolini divine emperor of the new Italian state. Mussolini signed a contract with a Pope to become an emperor of the Italy.

Mussolini he is a Fascist friend named Adolf Hitler. So, Hitler and the Nazi had to do the same thing. They had to go sign contracts with the old Mob Boss in Rome.

When I hear when people talk bad about Jews, I told them to better go back and do some homework. The Jews don't run anything. They are good with figure and they are great with law and banking so the powers to be behind the world throne uses the Jews. The real power is in the Holy Father and that's why they told Jews to wear yamaka, because Pope wears it too. Jews thinks that yamaka is a Jew's symbol. It is not! It is a roman symbol. Pope is the "big boss" in Europe and around the world. You don't build the Empire unless you talk to the boss, first.

Vatican Ratline

When Germany was losing the war, once it was decided by the generals that the war was lost, the Vatican immediately wanted to get all the top Nazis like scientists and intellectuals out of Germany quickly. So, they formed a secret group called the Vatican Ratline. All the top Nazis slipped out of Germany quickly through the Vatican. They got into the Vatican and with a help of CIA got false passports, false ID. The CIA work with the Vatican.

The real top of the line Nazi were brought to Washington DC and they became the part of the CIA and NASA.

Example:

Eichmann's false passport issued by the Red Cross in the name of Ricardo Klement.

There is nothing holy in Rome and Vatican.

HOLLYWOOD

Disney has involved a lot of dark stuff right now. People have no idea in how much dark stuff Disney is into. They're just letting it all out. They are heavily involved in the Illuminati, secret society propaganda and preparing America's youth for a communist world when it takes over. In their movies there are all kinds of hidden political subversive communistic Marxist stuff and Nazi symbolism and philosophy.

For example, "The Lion King" is an astronomical story based on what Adolf Hitler was trying to accomplish. The movie was all about the coming of the new age, sun rising on the dawn and new world order. It's just an incredible story about what Disney is really all about today.

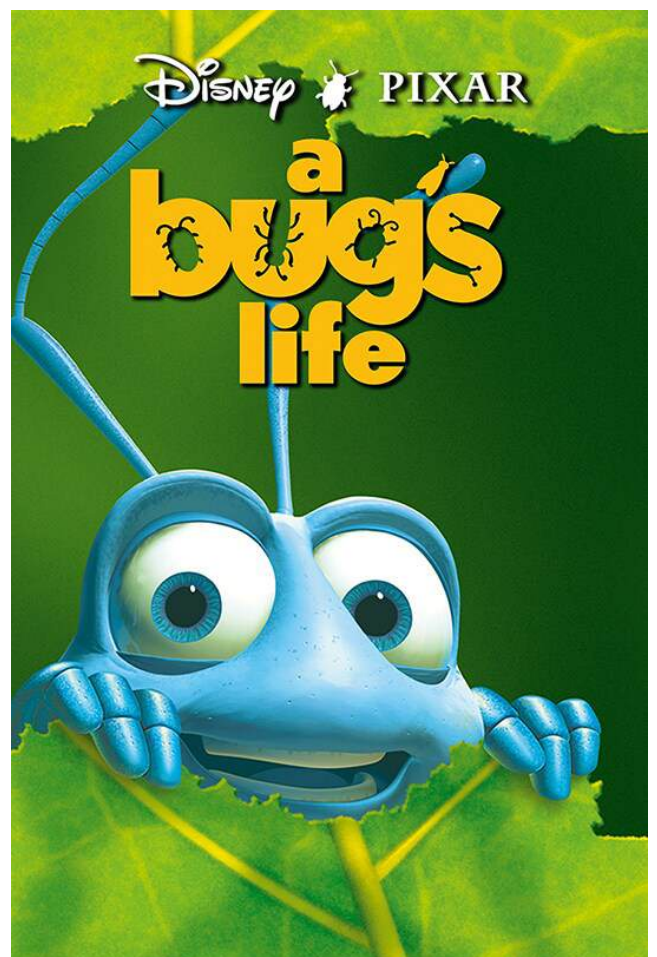

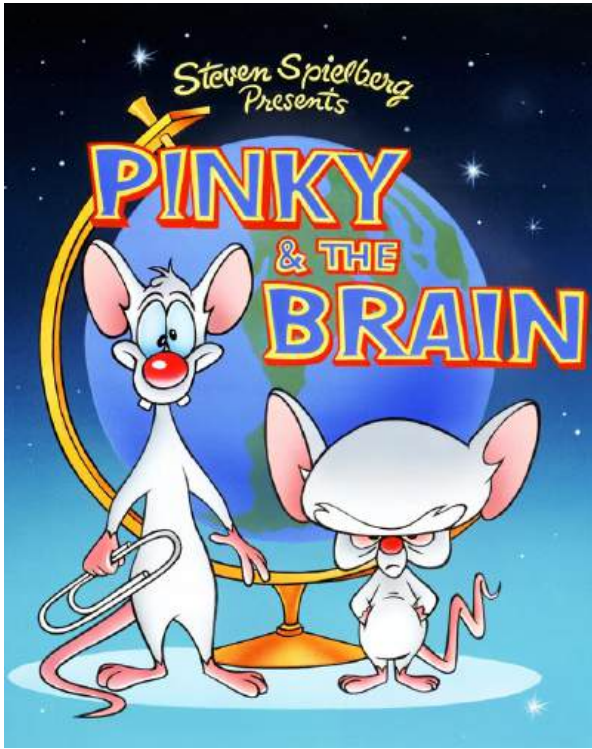

Walt Disney knew what was going on, he realised what they wanted to do. His studio was so popular with young people all around the world. Everyone loved Disney Studio. For that reason, secret societies wanted to own Disney so that they can put their propaganda into Disney movies for children and young people. Walt Disney fought them all the way but they finally won, they finally broke him and bought the whole Disney.

When George Lucas sold Disney the whole Star Wars project, he said; "I have sold my children to the slave owners" They want to take over everything so they can promote Marxist communism.

In the Disney movie "A Bug's Life" there's a scene where the leader of the ant colony is calling everybody to war saying; "This is the dawn of a new day for the world revolutions and we have to be ready, prepared for the war" That was a symbol that was taken directly of the Soviet National Coat of Arms. That's what Disney is doing. Preparing the whole human race for the world revolution using the hidden symbolism.

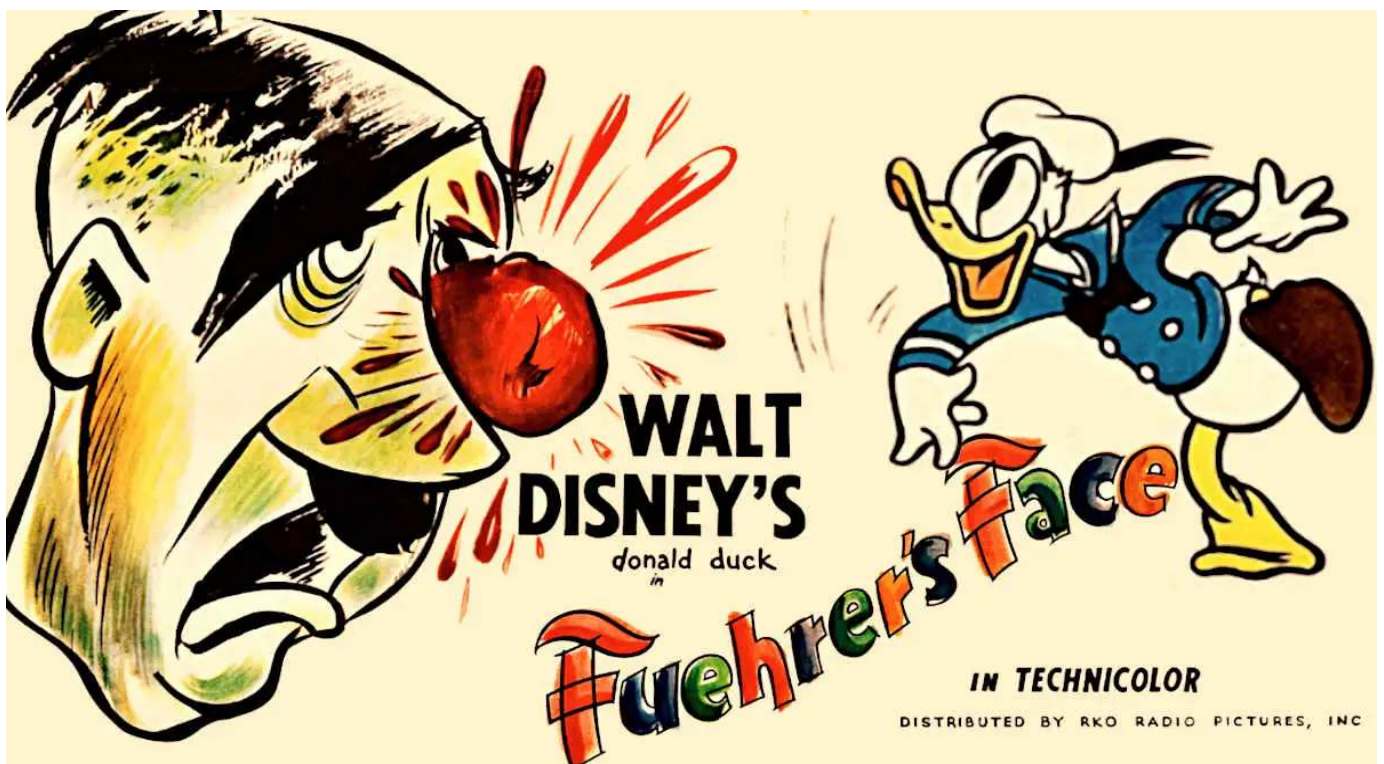

Steven Spielberg produced the television series for kids on called "Pinky and the Brain"

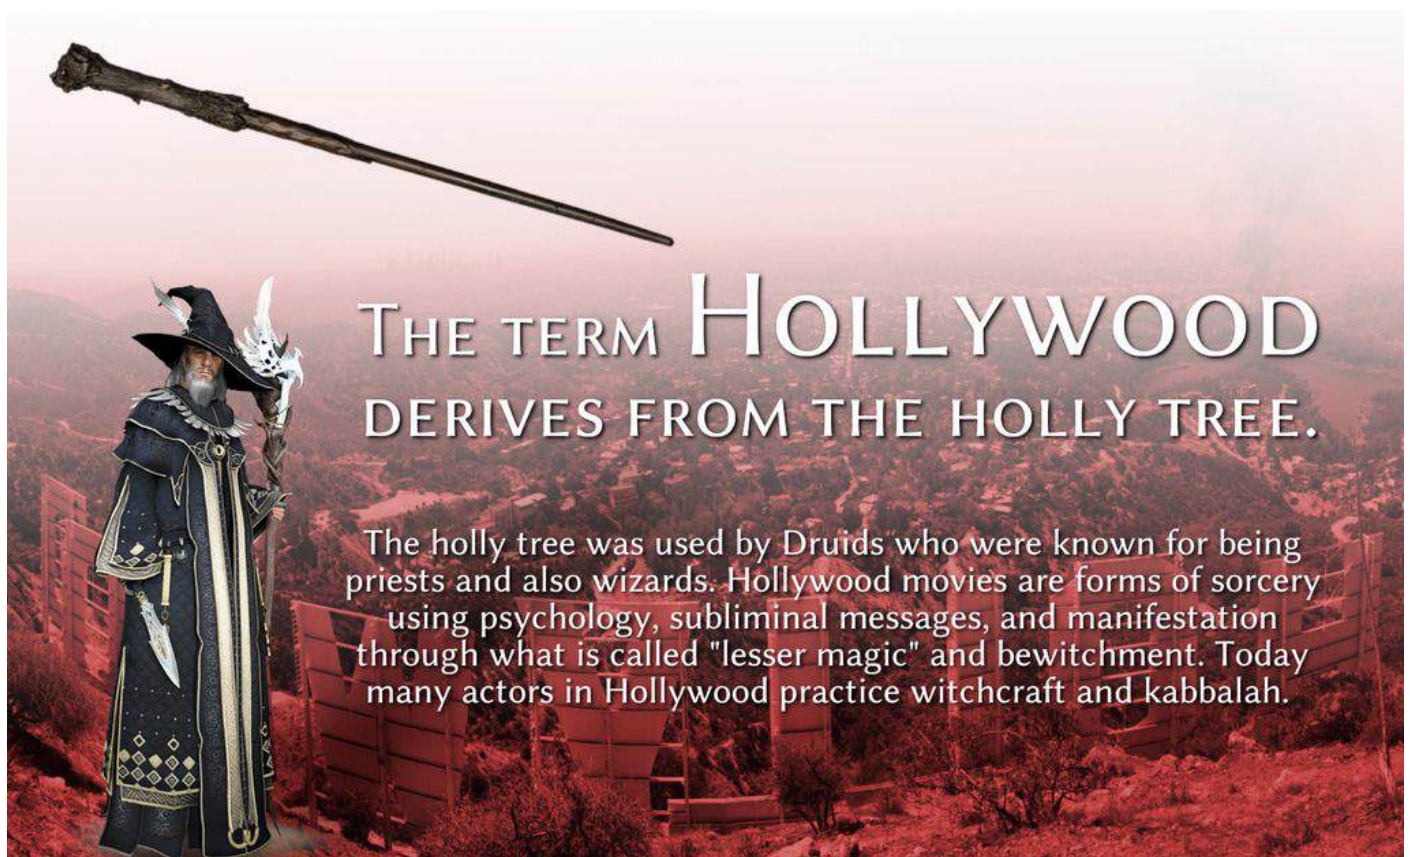

Pinky is a crazy goofy mouse, mentally deranged that's running around, behind the old man and the old master Rat. When Pinky asked the Brain "What are we going to do today, Brain?" Brain said; "We're going to do what we've always done. Take over the world" and then the music starts, talking about the sun rising on the dawn of a new day.

The people who are behind them, who are financing, organising and directing Disney Studios, have only one goal; To promote communist propaganda, what we call the WRM "World Revolutionary Movement" The WRM are the brains, the money and the operators behind world Communism and world Naziism. World Naziism is very powerful today. It's operating all over the earth, but most people don't know that. They don't know that the Nazis are an extremely powerful political banking order on the earth. They are running the earth, behind the scenes, together with communism.

Behind the power of Hollywood is an extra-terrestrial of the worldly demonic depravity that's operating in a human society by using Hollywood as a front man in order to promote other world demonic depravity. It's a very frightening criminal element that's running the loose, and they can do whatever they want and get away with anything. They got the money to buy their way out of anything.

Anybody who had any important position in Europe was a druid. Druids were religious leaders as well as legal authorities, adjudicators, lore-keepers, medical professionals and political advisors. One of the most important symbols that was used among the Druids to show for power was a magic wand. Today we have orchestra leaders who are leading the music of the orchestra with the magic wand. Magic wands were always made out of the wood of a holly tree, is made out of Holly-wood. Today we still have the Druids, the people who call themselves Jews from the Druids. They are running Hollywood. When you begin to see the connection between Hollywood and the druidic priesthoods and everything else what's going on in Hollywood, it all begins to make sense.

WHERE DID WE COME FROM?

The more you begin to investigate what we think we understand, where we come from, what we think we are doing, the more you begin to see we have been lied to. The more you begin to educate yourself the more you understand where things come from the more obvious things become and you begin to see lies everywhere. You have to know the truth and seek the truth and the truth will set you free.

Unless and until you are prepared to look at the whole truth; and wherever it may go, whoever it may lead to, if you want to look the other way or if you want to play favourites, then somewhere along the line you are going to find out that you are messing with divine justice.

Science today is like a religion. It has a holy book, holy saints, gods and you have to be a believer, mimic everything they thought you in school so you can get a degree and become a scientist. With a degree you get a work permit so you can get a job and call yourself a scientist. Therefore, you are controlled by the hidden hand and if you speak something that is not allowed you lose your job. In that moment you discover that the degree is useless.

Religion should be a science. Spirituality should be scientifically looked at. Most people have religion but very few investigate spirituality.

The world is a dark and very dangerous place. Not because people do bad thing but because good people do nothing. We live in the world of absolute total dictatorship of power. It has nothing to do with humanity. It's all about money.

The questions we need to ask ourselves. Where do we come from? What are we doing here? Where are we going?

You need to realise that our body, name is not who we are. We are all designed in a same way. There is nothing new on the female and male body. So, what makes you, YOU? Spirit and personality.

We are somebody else's experiment. Somebody created Us. That's what a Bible and many ancient texts says. If we take a look at the people, animals now and in the history they all have two eyes. Why no one evolve with more eyes. There is too much about the human body, the nerve system, brain, the way it's all put together. It's too complicated to evolve in something else. The universe is stranger than you can imagine.

There is something really interesting what was talked in the Old Testament Genesis of the Bible. It's hiding some very important information's that very few people would suspect it's there. If you just read it, you will never get it, but if you break it down in occult understanding it's very overwhelming and obvious.

In the King's James Bible, Genesis 1.1 it says "In the beginning the God created the heaven and the earth" but that's not what it says in the original. Because God in Hebrew

433. אֱלֹהִים

{57x} 'ēlōwāhh, el-o'-ah; rarely (short.)

אֱלֹהִים 'ēlōāhh, el-o'-ah; prob. Prol. (emphat.)
from 410; a deity or the Deity — God {52x}, god {5x}.

The New Strong's Expanded Dictionary of Bible Words, Thomas Nelson Inc.

is “EL” but in Genesis 1.1 the God in not word EL, it’s ELOHIM. Adding “OHIM” makes it plural, more than one. The correct translation should be “In the beginning Gods created heaven and the earth” This explain why in Genesis 1.28 when God created Adam and Eve, it says “God said, come let US make man in our image after our likeness” Who is US?

אלהים

There is no place in the Hebrew Bible that it says God created man. Nowhere. You can’t find it. The word “MAN” in Hebrew is “ISH”, and nowhere it said the God created “ISH”. Also, there is no “Adam” it’s a “ADM”, they just added letter “A”. “ADM” in Hebrew means a new creature. So, it should be written “Come let us make ADM, after our image after our likeness. So, the real translation is “Come let us make man in our image, at our likeness”. He was already here.

Somebody recreated us. That’s why in Genesis 9, after the flood of the Noah’s day, God says to Noah and his family after the flood “Go forth multiply and replenish the earth.” Replenish means do it again. If there was a flood and everything was destroyed you need to create it again. That makes sense. But what about the Genesis 1.28 when God created Adam and Eve, God said to them “Let us create man at our image, at our likeness and go forth multiple and replenish the earth” It’s the same word “Replenish” Why would God said “replenish” if the Adam and Eve are the first humans. The reason why, is that they are not the first humans.

We are just a new creation. That’s what the Bible want to tell us.

MARITIME ADMIRALTY

America is run by people who are lawless, we have no law in America.

In relation to the subject which is the occult world of commerce let me give you a simple example where you need to start thinking.

If you are going to send a box through the mail and you need to wrap it with some rope you go out in the garage and you find some rope and tie up the box, that should be sufficient to do the mailing. but if you're going to take that rope out to the edge of a ten-story building and hang on it, you better examine the integrity of that rope.

Another example is if you own the two-story building and you were going to put a lot of weight on the second floor. If you are smart, you would go downstairs first with the structural engineer get on a ladder and go up to the ceiling tiles and examine the floor, to see if the floor is going to hold that kind of weight. You are standing under the foundation you're going to build on. You need to start doing your homework and understand what words means.

Words can cause you great trouble. Humans are word control creatures, so we need to establish what words mean. Especially in relation to law and government. Because there is a whole world of occultism that is operating today. When those words are used in a court, they don't mean the same thing at all. Understanding law and the words of law are two different things.

On the earth we have a water and a land. Consequently, there are two kinds of law.

1. The law of the land

2. The law of the water

You need to understand the difference between the law of the land and the law of the water. Law of the land is the law of the culture that lives on the land.

So, the law of the land is different in every country. You can do things in America you can't do in Russia; you can do things in Africa you can't do in England. However, there is a higher law that dominates the entire world. It's called the law of the water. The law of water is referred to as a law of the money. It doesn't matter what colour you are,

where you're from or where DO you live, money is money. Anytime you're doing banking or using money you are under the law of the water, maritime admiralty.

If you go back in ancient history where all of this began, back in the land of Cana and you probably have heard in the Bible "the land of Cana"

On the ancient Phoenician language "Cana" meant merchant banker.

Let me give an example of the difference between the law of water and the law of the land. The statue of Liberty must be put in water, it could not be put on American land. Because it's not the statue of freedom. It's a statue of Liberty. Liberty is what a sailor gets when he pulls in the port with a ship. He gets liberty. So, America is not the land of the freedom, this is not a free country.

Let me give you an example of how this law of the water works. Why you have to go to court? People are always concerned about going to court. You go to court because you play basketball and tennis on a court. How do you play tennis on a court? You play with a racket. They do not pick words by chance. These words are very serious. What's the idea of going to court? It's a game like basketball. The whole idea in a court is to put the ball back in the other guy's court. One team gets up and they throw the ball over to that team of lawyers. It's a ball game. The judge is wearing a black robe, so he is the referee. He doesn't care which side wins or loses because he's going to get paid anyway. The judge rules from the bench. The word bench and Latin is a bank. Where do you find banks? You find banks on both sides of a river. They're called the river banks. What does a river bank do? It directs the flow of the current sea. Your money is a current sea, it's the flow, the cash flow.

All ships are referred to as female air ships, rocket ships, sailing ships. Why?

There's a very good reason, maritime admiralty. Banking law says all ships are female because, they're carrying items for money. They are under maritime admiralty law. Admiralty is where we get the word Admiral. When a ship pulls into harbour, it parks at the dock and it ties off at the dock. The captain has to provide for the court authorities a certificate of manifest because yesterday the ship was not here but this morning the ship pulled in so it has manifested. Each one of the items coming off that ship has come off the water, and each of them has come on a ship. All ships have a captain. The word captain comes from a Latin word "capital", money. So, the captain represents the money that's on board. After the captain provide to the port authorities a certificate of manifest

for each item the ship is sitting in its birth. All the items coming off that ship represent money, they came in on water, they are maritime admiralty product.

When you were born your mother's water broke. This is why you have to have a birth certificate because you are a maritime admiralty product. Under international law your body is considered as a maritime admiralty product. Your mother delivered you. That's why you were in your delivery room, your mother was delivering a product of Maritime Admiralty. You came down your mother's birth canal.

All of these words and terms are maritime admiralty banking words. If you understand lawyers and judges and courts and government, they are all under international maritime admiralty law.

All religions, all churches in the world operate under maritime law. This is why all churches are divided into denominations. Because all churches are nothing more than the product of maritime admiralty banking law. It's an extraordinary story of occult and crimes against the state.

There has never been a country on the face of the earth as far back into history as you can go, in which the people rose up and demanded their right to be free.

The concept of human spiritual, intellectual and physical freedom is a totally concept that has never ever existed on the earth. The only time that has ever come into existence was the founding of the America. Since 1868 we are on the International Maritime Admiralty Law.

Think about this! When cowboys were riding into the town. They would get off the horse. All of them had guns. How come they could walk into a bar carrying guns and if there was some argument they could go out on the street and draw on each other in front of the sheriff's office. How come that men could go out in the street and shoot each other in front of everyone and had nothing be done about it. The reason why is because before 1868 all Americans were considered sovereigns. You had the right to be yourself!

In 1868 there was a company incorporated. That company was the United States Corporation. They stipulated that anybody who would be a member of that corporation or work for that corporation would be called, not an employee, but a citizen. So today if you are asked "are you a citizen of the United States" you're being asked if you lawfully in this country to do business.

To be citizen of the United States means you are an employee of a foreign corporation operating on the international maritime law. The president of the United States is the president of a privately owned company, the company is called United States. The word "president" is always a word that is used in corporate law. Banks have presidents, all companies have presidents, so there's a corporation called United States privately owned and it has a president.

You need to understand words and terms, because I believe that there was a divine presence in the universe that men called God. One day that divine presence is going to move on the earth and we're going to see freedom. When this happens, you you're going to need to understand words and terms and how they have been used to trick you.

THE LAW OF THE SEA

Tax or law which is the law of the sea and the banking systems are intent on keeping the distribution of the system in line with then energetic operations of life and death. The living feed the dead so that the dead can be reborn into the living again in an endless cycle. The energy that we put into the sea through commerce is the main medium of transport to those in power and this is how this entire process continues to function. It is the intention of this work to make the listener aware of the terminology that is used in commerce, terms that the public is familiar with but unfamiliar with in the true severity of their import.

Tender

A tender is a boat for communication between ship and shore and a ship that usually provides supplies to other ships as well. In the world of commerce as it stands tender is something that is used as an official medium of payment. A medium is someone or something that serves as an intermediary between the living and the dead and this make sense when one understands that the purpose of commerce is to charge the dead so that they can be reborn. Tender is the middle tool that acts as this form of communication.

A tender is also known as something which is used to propose a payment with and the words are used in government legal tender as promissory notes, erroneously referred to as money. To propose something is to be in the positive position with the offer. If the offer is accepted the positions of polarity have been reversed between proposer and acceptor. The medium of exchange has thus been diminished of its own capacity through the energy used in this interaction which is why all legal tender promissory notes lose their value with each use. Just like a battery that loses its charge with each cycle of its protons and electrons through the neutron. This process has been called inflation which leads us to our second term.

Inflation

Inflation is in basic definition, a progressive increase in the prices of goods and services. This is related to the ocean or sea with an inflatable craft, which is usually a rescue boat of some kind used as a last resort after a shipwreck. The purpose of bankrupting the nations was to serve as an indicator that this age is now using an inflatable craft, which needs to be blown up with more fresh air currency to keep it afloat. This of course can only last for a short time until either a legitimate rescue arrives or the surviving crew members eventually all die.

Cutter

A cutter is a boat for communication between ship and shore. Merchant ships were called revenue cutters and is where the term "to cut a check" is derived. To cut something is to reduce. In past, the deals were quite literally made on the deck of the ship. This is also why in card games you have a deck of cards where each player gets a deal in a business. A salesman will also cut you a deal because on a ship's deck deals needed to be cut just like any other wood floor.

Merchant

A merchant is a business person engaged in retail trade, this is from the French word "mer" meaning sea, ocean. Whereby the word "mermaid" is derived hence "sea Maiden" The suffix word "chant" means a repetitive song in which as many syllables as necessary are assigned to a single tone, hence Mer'Chant, is someone who sings a repetitive sea

song or "song of the sea" because they wanted repeat customers. This is true when we follow the term "repeat" which is linked etymologically to the word for "feather".

The English term "repeat" is cognate with the Latin "repetere" meaning "to return" from the Latin prefix "re" and "petere" translated as "to seek, attack, claim, desire". The Latin word "petere" gave rise to the Old High German "feder" meaning "wing." Wing is linked with a Sanskrit "vati" for "it blows." The wind is what blows and was needed for the ships to continue on their merchant journeys. The old high German "feder" is where the "FEDER"al government derives its name from, which is the central power of government. Added to all of this in C terminology "to feather" is to turn an ore while rowing. And a proper English synonym "for feather" is "square." Which can also be used to indicate the turning of an ore while rowing. A square is also by definition someone who doesn't understand what is going on and the word "square" can also be correctly used as a verb to indicate that someone is being paid to settle a debt, hence the phrase, we're all squared up.

Humanity is being shown through the enormous amount of square symbolism that they have no clue as to what this operation is about. And that part of the scheme is about paying off a debt to someone or something. That something is the feeding of Saturn through the feathering of energy into the square of that planet. As a transitive verb the etymology of the word "pay" comes from the Latin "picare" which meant "pitch, smear with pitch". Pitch was a heavy viscid substance like tar that was used to seal up the hulls of ships from water leakage, of course a tar is a noun for a man who serves as a sailor. In commerce terms to pitch something is to offer it for sale from place to place, which is the reason for there being sales pitches. That's not the last of it. The word "feather" is linked with the word "for father" and this is the hidden etymology of that. First of all, by taking out the first letter E in the word "fEather", we are left with "father." While the English "feather" is linked back with the Old English "feather" and Dutch Vader whereby the correlating Dutch word "vader" both means father. When we go back to the Sanskrit "vati" meaning "it blows" linked with the Old High German "feder" for "feather" we find an exact match with Sanskrit with the German word "vati" that translates into English as "father"

Isn't it quite interesting to note that this word is found in the first four letters of the great Roman institution known as the Vati-can, which through this connection would mean "the dog father." Since "can" is the Spanish word for dog as related to the dog star of Sirius, where the false gods that now control this world came from. Dog spelled backwards is "god" and Vatican, therefore also means "the Godfather", which is why the Pope is also known as the "papa." Since the Spanish "pope" quite literally means "papa" and the basis of the word "father" is linked throughout the etymology for the term pope. Add to this the fact that the related Italian term "vedere" means "sea" and is part of the reason why the Pope is also referred to as the "Holy See." These organisations are also telling us who the father of this operation is, Saturn, Satan. Since the eagle is the square, feather, father, ether or that brought the light of duality knowledge to our species.

Float

Float, as in cash register, float is to be a float. To stay on a liquid surface and not sink. It is also the time interval between the deposit of a check in a bank and its payment, hence, when one is not a float financially, they are said to be drowning in debt. That's when the loan sharks are sent after them. "Float" is derived from the Middle English "flote" meaning "boat" and Old English "flota" meaning "ship."

Sale

A sale is the general activity of selling, whereby the exact phonetic correlate is sale. Which is why there are salesmen. A "sailmen" which were and are necessary for the proper operation of emergency vessel or business. When the sales are up people will blow their legal tender, fresh air currency on them, so that the ship business can continue moving forward. That's the luck of the sale, sail that gets a windfall, which is a word that means a sudden happening that brings good fortune, as a sudden opportunity to make money, and is the reason that the phonetic of merchandise is in actuality "Merchant Dice" By definition liquidation is the termination of a business operation by using its assets to discharge its liabilities and is also known as the murder of a competitor.

Liquidate

The first definition of liquidate is to get rid of someone who may be a threat by killing them and in secondary terms is to eliminate something by paying off debts. The prefix word "liquid" gives us the automatic link to the waters of the sea. More esoterically to liquidate something is to phonetically LIQUID-date them. Which is why all ships that sit in their birth have what is called a certificate of manifest that is dated; therefore, it is liquid-dated, liquidated. This would be known as your birth-day where you came through the hips of the mother ship. The anagram of hips is ship, and the mother ship is the moon, which is the egg that brought you to port. The moon of sin that each of us was grown in before being docked in our port by going through the mother's vaginal canal. A canal is a long narrow strip of water made for boats. When going to work people report for duty, because humans are the liquidated ships made mostly of water that have been eliminated to pay off an endless debt. We are brought to port and then docked by the doc-tor, doctor and we now hold an off-ice, office of duty where we have a post which is why there is the post office. This is shown by the Dutch part and French part which both mean postages.

Revenue

Revenue is known as the entire amount of income before any deductions are made which is according to government the income that is due to taxation. Revenue is a commerce term of the sea as shown by the word "revenuer" which is a revenue officer or boat. The word revenue is linked with sexuality as shown through the etymology with revenue being derived

from the Latin "revenire" meaning to come again. Come is a vulgar term for a sexual orgasm which is why the powers that be like to include this word in such commercial terms as income. The English word "venire" is a law term that means to summon a group of people for jury service. This is related to the religious term "venial" for a forgivable transgression or one that is pardonable. That's why there are "venial sins" The Latin "venia" meant a pardon and the granting of a privilege which people now known as a license because the word "license" is rooted in "licentiousness" which is indulgence in sensuality. To be given license is to be given the motive to disregard any forms of self-restraint at the cost and expense of others in the environment. The archaic term "venery"

translates as "hunting" and "sexual intercourse" which is where the term "venereal disease" is derived.

Commerce

Commerce is about the hunt where people hunt for a good deal and it's about killing the competition and why there are executors or execution sales. Continuing with the connections, is the English word "vendue" which means "a sale" and a 'sail' is phonetically a "sail" because the Latin "venti" and "ventus" both mean "wind." The wind that's needed to blow the sails. The Italian "vento" also means wind while the French law word "vente" gives

us a sale, contract of sale. This is about selling us into slavery through the womb, which is shown in the English "venter" meaning "womb." That came from the same Latin spelling in the related Latin masculine noun "Venus" meaning sale, purchase. Since Venus represents the clam's money, bucks used during our purchase. Venus is the Roman goddess of sexual love and generation. And the term "ventor" is why the English language has in commercial terms of "vendor" or "vendors"

Humans are sold into commercial slavery since "venal" means to be a mercenary, someone who is purchasable or bribable, while the Latin "venalici" translates as slave dealer, we are hunted in the chase during each purg-chase, purchase, this is the pure chase where they make a clean kill. Because to deprive something of everything that they have is to "clean them out" they've taken you to the cleaners which in esoteric terms means that after death your mind and all of your known conscious history of this life will be erased and wiped out. The cache/cash of your hard drive mind will be deleted and then you will have a "clean slate." This is why no one remembers where they have come from or where they are going. This is a fact and one that makes many humans angry upon hearing it because it is the truth that is easier to deny than face.

We have been "double crossed" as shown by a final relation that will be proven out with the Italian "venti" Portuguese "vinte" and French "vingt" all translated as "twenty." The number 20 in Roman numerals is written as XX. We have been "double crossed" and sold into this system.

Cash

Cash is money in the form of bills or coins. the phonetic word of "cash" is "cache" which is a secret store of valuables or money. By reinterpreting the English, we might say that this could also be pronounced as "catch", cash is catch or to make a good catch and then store it in the cash. The cache is already outlined, is also the storage of our memories and experiences that is wiped out after death before we are brought back into the system again. This is where we are put on ice again because we are frozen assets that have been taken off ice during life and then put back on ice during death.

That's the reason for the saying cold hard cash/cache. A synonym for cash is "bury", which is where valuable items are kept because we are being held prisoner as valuable items. The dead are buried in boxes and cash originally meant "money box." And the English language derived the word from the French "casse" meaning "broke" which is why when you are out of money/energy you are said to be "broke." Cash was also instituted from the Italian 'cassa' for "cash,case" and the Latin 'capsa' meaning "locker, box, satchel, church, mave." Capsa is synonymous with the Latin "arca" meaning "ark, coffin, money, wealth, cage, cell", because the Ark of the Covenant is truly about the recharging of cells in the moon that brings the dead debt back to life.

Another Latin word for "church mave" is a "capsi". Since the mave is the central area of the church which is esoterically the vaginal canal that leads to the dead saviour that rescues the dead from the clutches of sin which is the Akkadian god of the moon. Since sin is actually the moon and the celestial body of regeneration. This is what the church is symbolising as you walk down the aisle of its ship, since the Latin 'navis' means ship and the Spanish 'nave' also translates as "ship, vessel for sailing on the sea".

During generation we are linked into this reality through the naval cord with the word "nave" showing as being derived from the Old English 'nafela' for "navel". The military navy or navy fleet is connected to this as shown by the Latin 'naval' meaning "dock, shipway" and "naval" is an English adjective to represent that which is connected with or used in the navy. We are the semen, fish that they seize in the seas of space and then put in their box, since the Latin 'box' from the 1879 Louis and Short Dictionary means 'fish', while the Latin 'capsa' for box is a derivative of the verb 'capere' translated as

"seize, take hold, capture" that is related in the etymology to the English word for "heave". At death we are recaptured seized and taken hold of to go to heaven. The English "heave" is manifested from the Middle English 'heven' Old English 'hebban' and is akin to the old high German 'hevan' meaning "to lift" and Latin 'capere' "to take". To the beings who control this world it is like shooting fish in a barrel.

Cash Flow

Cash flow is the excess amount of cash revenues over cash outlays in a given period of time' This is a necessary commerce term that indicates the cash flow of the sea.

Banks

Banks are the financial institutions that accept deposits and channel money into lending activities. By the terminology of the sea, banks are the sloping edges of land that exist beside a body of water, like the river banks. The banks direct the currents or the currency of the cash flow. The banks are where the cash of debt, dead are buried or stored giving credence to the ancient accounts of dead spirits being stored in the moon. The debt or dead are deposited into the banks and it is known as a cash, cash deposit, whereby the debt or dead are then put on trial in front of a judge, as shown by the word bench.

The court system is entirely based upon the principle of money and the energy that we create in commerce, so when someone states that it is the court of Queen's bench for example, they are actually saying that it is the court of the Queens Bank. Right now, we are in the game of life because we are not buried in the banks, but when we die that is what happens we become a security deposit and take a seat on the bench, because we are taken out of the game to receive a rest. This is why a police/pole-ease officer/officer will arrest someone when they need to receive a charge for a debt or sin, because they need to be given a rest between their trial.

Branches

Branches are the separate divisions of the main financial institution which in oceanic terms are the streams or rivers that are connected to a larger one. This would be akin to the rivers that flow into the ocean or in biology the arteries and vessels of blood that

flow to the heart. All of our energy is flowing to one main source and this is repeatedly shown in the words and terms. The branches of the tree of life are also the ribs connected to our spine that is caged the heart earth hence the rib cage. The implication of just this alone is something that is incredibly important to think upon.

Currency

Currency is known as the metal or paper medium of exchange that is presently used. The phonetic for "currency" is "current-sea" or the current of the sea. Fractional currency is paper money that is valued in denominations of less than \$1. This means that all of your paper money no matter what denomination is written on it 5 10 20 50 etc is all worth less than \$1. The first recorded instance of this in the United States occurred in the years 1863 to 1876 which was a 10-cent fractional currency issued during the Civil War due to shortages of precious metals. As one can see the words fractional currency were clearly listed right on the note. Something that is not done today, which is a deception of those in power towards the public. Seeing that all notes called money now are fractional reserve currency that are valued at a significant decrease from the basic monetary unit, which is 100 cents in many countries.

Current

Current is the dominant flow of running water. This is why people stay current on their monthly payments, for fear of being taken down by the under current.

Rebate

A rebate is to give a reduction in the price during a sale. The phonetic of this word is a Re-bait which is to bait the customer again and get them on board by hooking them with a more alluring deal.

Liquid Assets

Liquid assets are assets in the form of cash or easily convertible into cash, which is likened to liquid water.

Frozen Assets

Frozen assets are assets that are not available for current use and is easily linked with frozen water. We become the frozen assets when we are put back on ice and stored in the banks in the afterlife.

Interest

Interest is commonly known as a fixed charge for borrowing money. The prefix word "inter" means "to bury" while the suffix is "rest". When someone has died, they are said to be at rest and therefore we have the word inter Rest, interest. To bury those at rest. This would relate to the cash, cash of goods that is buried in the banks, river banks. The latter three letters of 'est' from inter-EST, gives us a further indication of the lunar and solar occult meanings since 'est' in French and 'east' in Italian are both the words for "east". Which is where the sun rises from its death each morning. It was buried in the west and rises in the east. hence in the morning the sun appears to be rising from its burial place, in the dawn of the east giving us another indication for the true meaning of interest. This is also why people each day say good morning to each other thus indicating the rising of the sun that came out of its burial chamber. The moon takes the charges of souls to Saul. Soul as a pledge or payment to the sun. The sun rises because of the payment of the debt and this is why there is so much sun symbolism in governments, major corporations and secret societies throughout the world. Sun sacrifices not gone away; it is simply become occulted.

Mortgage

"Mortgage" is from the two French words 'mort' meaning "death" and 'gage' meaning "pledge". A mortgage is a death pledge hence the commonly used saying to sign one's life away. They ask for a down payment to show good faith to the dead who are being recharged in the banks.

It may be difficult to imagine but the dead are reborn in the moon egg that is dropped each month by a woman and this egg is their lifeboat that has come to rescue them. This already happened to each one of us and will continue to occur in this prison indefinitely, because humanity is not prepared to accept the implications of this

tremendous and daunting information. It is not a mistake that mortgages are for homes because the pledge to the dead is about the luck chance that each soul have inside of their new home of birth in whatever moon egg that happens to find them. this happens in hell as shown by the Norwegian word "hell" meaning "success, luck". It's the luck of the die because everyone who dies goes into the case; box, vagina to try and find another home. That's the true biblical meaning of the fall as determined through the etymology of the word

case from the Latin "casus" for fall, chance, adventure, fortune, collapse. It's the light of luck is shown by the German 'hell' meaning bright light and the Middle Dutch 'luc' for luck related to the Latin "luce" for "by daylight". It's the light of Lucifer. Lucifer being given to the dead where more children are born in the moon with the French "fer" meaning iron, being instituted from the Latin 'fer' meaning "bearing", one that bears. This is why Lucifer is known as the Light Bearer, which is the light of the moon that has been pledged and paid to the dead. It gives the dead the life blood, which is filled with iron which becomes our blood, iron bars of DNA. This entire operation is filled with iron, 'irony' because it is as Dante stated a divine comedy.

Undertaking

An "undertaking" is a promise or a guarantee given in any piece of work that is 'undertaken' or attempted. As a noun it is known as the trade of a funeral director because in esoteric terms, this is the undertaking of the dead by the false light of the moon.

Undertaker

An "undertaker" is one whose business it is to prepare the dead for burial.

Stiff

A stiff is the dead body of a human being and also someone who refuses to pay or tip.

Commerce and death go hand in hand!

Capital

Capital is known as the assets available for use in the production of further assets' One phrase that has been used over and over again to reflect this is "you need money to make money". Capital is further more wealth in the form of money or property owned by a person or business while governments and corporations refer to their human base capital as human resources of economic value. In language a capital letter is one of the large alphabetic characters used as the first letter in writing or in printing proper names, and is sometimes used in writing for emphasis. The Latin word 'capital' translates into English as "capital, crime, punishment, loss of life or civil rights" and the phonetic of capital turns into "cap it all", which is the all-caps name that is associated with a human being that is tied to every definition of capital. This is why people are considered to be human resources and receive identification from the government that shows your name in all capital letters, thus indicating that you have lost both your life and all of your rights and have been turned into liquid dated capital.

Nevertheless, all capital energy is funnel to the main source of this construct, and this energy is used for its own agenda. This is why there are capital cities because these serve as a autonomy for the central hub of the state, province or territory, where all of the funds or energy is channelled to. This is the reason for the saying "all roads lead to Rome".

To Earn

To earn is to attain a gain on some commercial or business transaction such as earning a salary or garnering wages.

Withdrawal

A withdrawal is known as the act of taking out money or other capital this comes from the prefix word "with" meaning "against" such as a fight with his brother and the suffix word "draw" meaning "inhale, gain". Therefore, to withdraw is to be against gain. The word 'drawAl' from 'with-drawal' is phonetically pronounced 'drawl' which means to "speak or UTTER slowly with vowels greatly prolonged. This is the general depiction of

how a zombie speaks, because the great metaphor of the government's corporation secret societies and rulers of this operation, is to tell us that we are the living dead or zombies that are controlled in this energetic operation.

Salt

Salt is a white crystalline form of most often sodium Chloride used to season and preserve food. A salt is also a sailor and there we have our immediate connection to the sea which is obviously salt water. This is where the common phrase comes from of a man being worth his salt because he or she is able to generate a charge within the energetic system. The etymology of the word 'salt' is derived from the Latin "sal" meaning "salt", it is why we have monetary "SAL-aries" and "SAL-es". In religious terms mankind is told that they will receive salvation for their sins which would come from Sal-Oman. Salomon is the Latin word for David because Saturn is worshipped by the occult elite as the star of David, the line of kings that Jesus is said to be produced from. David in biblical terms was the second king of Israel in succession to Saul, in a lesser-known secondary meaning of the noun "David" is that of an "underdog". The underdog is always expected to lose because of its serious disadvantages, but as many story writers have told it, the underdog always comes in near the end of the game to prove everyone wrong by winning the day. Those who do not understand the astronomical aspects of the allegories will remain stupefied while worshipping fictional characters of their own imagining.

Cashier

Cashier is a noun used to indicate an employee of a bank who receives and pays out money. Today and for quite some time there has not been one cashier doing their job, because no actual money is being received or paid out, since fractional reserve notes are not money but only a promise to pay money sometime in the future. This abstract concept is incredibly difficult for many people to comprehend but is true nonetheless. Just so it is not overlooked a cashier is also a person responsible for receiving payments for goods and services such as in a shop or a restaurant. As a verb that was derived from service on a ship to cashier someone is to dismiss them from service and especially to dismiss them in disgrace. This is why to label someone a cashier as a noun only tells half of the story. They need to create the living action of their work, the verb, which is to

cashier each customer; and once the transaction is complete the customer has been "cashiered" or dismissed from the service that the business provided them, with complete disgrace.

Borrow

To burrow is to "burrough" as the etymology shows, again linking us with the burying of the dead, and the suffix word "rowing" gives us our link to the law of the sea. The term "borrows" came out of the Middle English 'borwen' from the Old English 'borgian' which was akin to the Old English 'beorgan' meaning to preserve. To preserve something is to conceal it or bury it, and the word 'bury' is linked with the Old English 'beorgan' since 'bury' was derived from the Old English 'byrgan' that was linked to the old High German 'bergan'. This is also why in commerce we have 'bargains' or 'bargain bins'. To summarize, to borrow something is to take it from its borrowed place of preservation and use it temporarily. It is therefore lent to someone which is why there is the religious period in the spring called lent which is a period of 40 days from Ash Wednesday to Holy Saturday. It is Ash Wednesday because this is where the ashes of the dead have been earned.

The number 40 is extraordinarily significant to the controllers during each Passover, including the significant Passover between the ages which is why the Keystone XL pipeline is a significant project of theirs right now. XL is simply the Roman numerals for 40, and a Keystone is the central building block at the top of an arch or vault. A vault is a burial chamber or tomb, and these projects both signify the end of the age that has been completed and the burrowing of this world as we now know it.

Account

The first two letters of the account, 'AC' is the abbreviation for alternating current. And the final word is count giving us the alternating current count which is electricity that is likened to the eb and flow of the tides that are brought about by the moon. This is also known as a meter account and the etymology of the word meter is linked with many other words that are tied with the word moon.

Report

The prefix of 'RE' means to do it again and 'port' for a ship's docking station, otherwise known as a harbour, pier, or wharf. To 'report' would mean to "dock again".

Amortization

Amortization is in practical terms known as the payment of an obligation in a series of transfers. We are going through a series of spiritual and physical transfers to pay back an endless debt, because an amortization is also the liquidation of a debt. The prefix 'amor' is in Roman mythology the god of love. The German word 'amor' means "eros, cupid" and the Turkish 'amor' translates as "god of love, cupid". The Latin 'amor' translates as "love, cupid, affair". Many other languages also use the word 'amor' to reflect this definition. 'Mort' is from the French 'mort' meaning "death" and 'iza' means "prostitute" in Spanish. A-MORT-IZA-tion would mean that in death we are prostituted by the god of love to continue a series of transfers for the liquidation of a debt.

Savings

Savings is a matter of faith. To be saved or to receive salvation is to have savings. Without savings one is said to be doomed. When people receive a windfall or get money, either from their job or from an unexpected source, they all too often pronounce 'thank god' because they feel that the money has saved them. It has nothing to do with God, this is the occult reason for monetary units that are buried in the banks being called savings, because these monetary faith units are charges that are given to the dead will be resurrected from this given pledge of power. This is the true basis for the United States currency pronouncing on its notes that "In god we trust".

Balance

Balance is where the boat finds its level and its passengers are no longer in danger of being thrown overboard. In accounting one has to balance their books, while in a store, the 'cash in' and 'cash out' involves a float that needs to be balanced each day.

Draft

A draft is the depth of a vessel's keel below the surface of water. It is also known as a current of air which would be necessary to move a merchant vessel. In banking a draft is a document that orders the payment of money from one bank to another one.

Credit

According to nearly any dictionary credit is belief, it is faith. Also, by definition credit is an accounting entry acknowledging income or capital items and since all fiat 'let it be so' Currency is in actuality credit; accounting entries are all that exist which is why the books are always balanced. If this were not true then why are people paying back 'credit' with credit. Belief and faith are the only forms of currency that are recognized in this unsustainable system and it would be wise to recognize the significance of these statements.

Trader

A trader is someone who buys and sells because they are interested in short term profits. Phonetically spoken a 'trader' is a 'traitor'. This is because anyone who is willing to create a duality of destruction and competitive retribution against their fellow species is a traitor not only to everyone that they seek to manipulate, but is also a self-traitor. Look at the stock market, everyone involved in this scheme is called a trader and for good reason.

Capital Name

The capital name that nearly everyone exists under, connects everyone to this exchange to be traded as capital stock on the stock market or the E.T. MARK. Humanity is considered the stock or animals that are kept for use and profit, which is why we are human resources. We are chained by the bonds of this prison, which is why there are both stocks and bonds. As related to the sea a stalk is the cross piece that is on an anchor. The other parts of an anchor give more of the sea related parts of the game away, since a Bill is the end of the anchor hook and a fluke is the part of the anchor that fastens into the ground. Some sales are just flukes while others are worked for with more difficulty. The crown is also involved, since this is the middle bottom curved portion of

the anchor. Nothing has been left out. The logistics of this are taken care of through the parliamentary congressional and court systems because stock is also known as a base for soup. What? Soup? What does that have to do with the court systems or parliamentary and congressional law? Simply because stock is also known as 'broth' and the Latin word 'jus' translates into English as "law, right, soup, gravy, broth, ordinance, decree, cannon". That's the gravy train which is a windfall or an exploited source of easy money. 'Jus' is furthermore where the word 'justice' is derived, and 'broth' gives us the reasoning behind the secret society Broth-erhoods that shape and monitor this operation. In law dictionaries, there is a term known as 'jus abutendi' that is a Roman and civil law decreeing the right of a property owner to make full use of said property even to the extent of wasting or destroying it. This is the reason that the controllers are so intent on owning everything and declaring it to be under their dominion - to destroy it all at their own whims and discretions.

Hired and fired

All in this segment with arguably the greatest duality of them all, heaven and hell. This is seen in the words hired and fired. To be hired is to actually be 'highered' or lifted up to a 'higher' state of being or life, while to be fired is to be 'fired' - sent to 'hell' and lowered in status, position, lifestyle, security, comfort and everything 'good' that heaven is claimed to be.

CONCLUSION

When you find out that everything you believe was a bunch of man-made stuff given to you by the knights Templars and all the secret societies of free masonry coming out of Europe. That the church was nothing more than a masonic order financing and promoted by the old aristocracy of Rome.

That the entire superstructure of Western Civilization is commerce, money, banking, that has nothing to do with God, nothing to do with spirituality, Moses was in the mushrooms and volcanoes...

So, I'm just saying we need to wake up and start doing some research on what is life? Where did we come from? What is God? Because if we don't do the research, the whole human race is going to be raped.

I am not criticizing spirituality of God I'm criticizing corporate religions!

I've learned this the hard way, but people will always support what they want to hear. They will not support, what they don't want to hear.

One thing around the world, generally speaking, that people do not want to hear is the **TRUTH**.
