

Contents explained:

Press on nails

These are going to be attached to your natural nails - the underside is already prepped for you

Hand scrub

This will remove dead skin and buff your hands to feel smooth and fresh

Hand mask / lotion

This will leave your hands moisturised and soft

Foot soak

This is to soak your feet before using the other pedicure products to make sure your feet are clean and sanitised

Foot scrub

This will remove dead skin and buff your feet to feel smooth and fresh

Foot mask / lotion

This will leave your feet moisturised and soft

Wooden spatulas

These are for taking out the products from your manicure and pedicure jars

Disposable towels

These are to wrap your hands and feet when using the hand or foot mask - they are also biodegradable

Lint free wipes

These are to use with your pre-nail prep / dehydrator on your natural nails

Pre-nail prep / dehydrator

This will clean your nails of any oils and dirt and help adhere the nails for longevity

Wood sticks

These are for pushing back cuticles and also to help with removal of the nails

Cuticle pusher

This is also to help push back cuticles and to remove any dead cuticle on the nail plate

Nail brush

This is to clean your nails

Buffer block

This is to remove shine and to give the nail plate a 'rougher' surface for the nails to adhere to

Nail file (small)

This is to file your natural nails

Nail file (large)

This is to file your press on nails

Foot file

This is to remove hard skin and dead skin from your feet

Cuticle oil

This is to give nourishment to your natural nails and cuticles and to also help when removing your press on nails

Glue Tabs

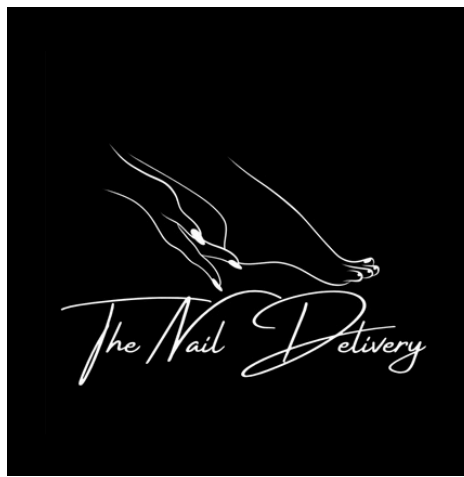

These are for attaching your press on nails for a temporary amount of time

Nail glue

This is for attaching your press on nails for a longer amount of time

Keysie nail saver

This is to help keep your press on nails in tip top condition and for longevity! Use your keysie nail saver to open parcels, open drinks cans, to find the end of a roll of tape, to remove a sticky label and lots more!

Help and information:

- Please follow the instructions as this will help you prep your nails correctly without causing unnecessary damage to your natural nails and also to help with the longevity of your press on nails.
- Please follow instructions for removal of your press on nails as this will help you to do so correctly and so you don't cause any unnecessary damage to your natural nails.
- Glue tabs are for attaching your nails on a temporary basis such as for a special event, a night out or for people that cannot wear their nails for longer than a few days. If applied and removed correctly the nails can be reused at another time.
- Nail glue is to be used if you wish to wear your nails for a longer period of up to two weeks. Once removed these are not suitable for reusing due to the glue residue that will get left behind.
- **NEVER** bite off or force off your press on nails as this can cause unnecessary damage to your natural nails.
- Remember your nails are jewels not tools! Wear gloves for washing dishes or when using cleaning products, do not use your nails to pick at stickers or sticky tape, to open parcels or drinks cans etc - this is what your keysie nail saver is for.

HEALTH AND SAFETY INFORMATION:

- If any of the products gets into eyes wash with clean water and seek medical advice
- If glue gets onto skin please wash with clean water and seek professional / medical advice
- Do not ingest or consume any of these products - if this should happen seek medical and professional advice as soon as possible
