Dear Physician:

On behalf of STEAM ONWARD, a local non-profit organization, I am requesting the placement of a high school student as a Summer Intern in your medical office. Our summer internship program is funded through a partnership with the *University of Maryland Charles Regional Medical Center (UMCRMC)*. Through this funding we will pay the interns a stipend upon completion of their hours. This is our eighth year partnering with UMCRMC. Dr Shaheer Yousaf is the medical advisor for our internship program. In addition, our program has support from Noel Cervino, President and CEO of UMCRMC, and the Charles County Department of Health.

This past June all the internship candidates received HIPAA Confidentiality and Compliance Training at the CRMC Charles Regional Medical Center. The youth in our internship program are members of *Young Researchers Community Project (YRCP)*, a youth organization since 2001 dedicated to increasing the number of minority and underserved high school graduates who pursue higher education careers in medicine and health care. Our internship candidates are top students at their respective high schools. Many of our interns are members of the National Honor Society, Key Club, Student Government, and the Bio-Medical and Pharmacy programs in Charles County Public Schools.

Please complete the attached Intern Request Form and fax it to: 1-215-975-2369. If you have any questions or concerns please contact me at (202) 649-0590 or email me at bladeeb@gmail.com.

Sincerely,
