For Leo, being a senior also means serving the community as a volunteer firefighter. We knew this session had to be more than just a few nice photos. It had to capture Leo's strength, dedication, and passion. From portraits in bunker gear surrounded by smoke to relaxed shots that show who Leo is outside the station, every image reflects a part of his journey.

Who  
Wants  
Average?

### Why Studio 47 Portraits is Not Your Average Senior Photographer

When it comes to senior portraits, Studio 47 Portraits believes your images should be as unique as you are. Unlike the average photographer who offers quick, cookie-cutter sessions, Studio 47 creates a personalized experience from start to finish.

From your very first consultation, we dive deep into your style, personality, and vision. Whether you're dreaming of an urban vibe, nature-filled landscapes, or classic studio elegance, we plan every detail — wardrobe, locations, poses — to showcase who you truly are.

Studio 47 Portraits also specializes in heirloom-quality artwork. We don't just hand you digital files and send you on your way. Instead, we guide you through selecting gorgeous prints, wall art, and albums that will last for generations.

Most importantly, your session with us is an experience — fun, relaxed, and confidence-boosting. We're not simply clicking a camera; we're capturing this once-in-a-lifetime milestone in a way that's meaningful and unforgettable.

**Studio 47 Portraits isn't for everyone...**

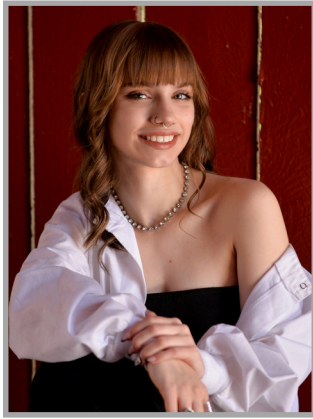

**...it's for seniors who want portraits as extraordinary as they are.**

# HOW TO STYLE SIMPLE CLOTHES?

### EASY WAYS TO ELEVATE YOUR EVERYDAY WARDROBE

Simple clothing doesn't have to mean boring. Fashion experts say that basic pieces in your closet can be transformed into chic, eye-catching outfits with just a few clever styling tricks.

- Accessories are key: layering necklaces over a plain top, adding a statement belt, or carrying a handbag in a bold color can instantly elevate your look.
- Simple techniques like front-tucking your shirt or tying a knot at the waist add shape and interest.
- Layering is another powerful tool; throwing a blazer over a tank top or wearing an open button-down shirt over a dress creates depth and dimension.
- Mixing textures, such as pairing a cotton tee with leather pants or a chunky knit with a satin skirt, adds a luxurious feel.
- Footwear also makes a difference—white sneakers create a casual vibe, ankle boots add an edge, while pointed flats offer sophistication.
- Playing with proportions, like balancing oversized tops with slim pants, keeps your look modern.
- Simple touches such as rolling up your sleeves or pant cuffs can add a relaxed feel and show off your accessories.
- Good grooming habits including styled hair, neat nails, and confident posture. This will ensure that your simple clothes look anything but ordinary.

For example, pairing a white tee and jeans with layered gold necklaces and sleek loafers can transform everyday basics into a stylish ensemble. With a few creative tweaks, simplicity becomes effortlessly chic.

## 3 Grooming Tips for Guys

### Tame Brows and Facial Hair

- Brush brows upward with a clean spoolie or clear brow gel to look neat but natural.
- Trim stray hairs around your beard or mustache a day or two before your session for a crisp shape (not right before, to avoid redness).

### Blot, Don't Wipe

- Carry blotting sheets or oil-absorbing powder if you get shiny.
- Pat gently on oily areas like the forehead and nose—it keeps skin looking fresh without wiping away your natural skin tone or any light coverage you're wearing.

### Hydrate Your Lips

- Chapped lips show up clearly in portraits.
- Exfoliate gently with a damp washcloth, then apply lip balm. Matte or non-glossy balms are great for guys who want a natural look.

## Beauty Tips for Girls

### Heatless Curls Overnight

- Wrap damp hair in silk rollers or braid it before bed.
- Wake up with effortless waves—no heat damage, plus loads of volume for portraits.

### Soft Lips instead of harsh lip lines.

- Apply a creamy lip tint or lipstick to the center of your lips.
- Use your fingertip or a brush to gently blend the color outward toward the edges, leaving the outer lip line softer.

### The Glow-Up Moisturizer Hack

- Mix a drop of liquid highlighter into your daily moisturizer.
- Gives a natural, dewy glow that looks amazing in photos without heavy shimmer.

### Brow Gel = Instant Polish

- Clear or tinted brow gel shapes and holds your brows in place all day.
- Just a quick swipe can totally lift your face and make you look more put-together (without looking overdone).

### Skin Tint > Heavy Foundation

- Seniors are swapping thick foundations for lightweight skin tints.
- Evens out skin tone, feels weightless, and lets your real skin shine through—perfect for high-res photos.

### Soft Glam Eyes

- 2025 trend: minimal eye makeup with a focus on fluttery lashes.
- Curl lashes and use brown mascara instead of black for a softer, youthful vibe.

Always remember—your natural beauty is your best feature. Keep your skin healthy, wear what makes you feel confident, and let your unique light shine. The most beautiful thing you can wear is your smile!

A young woman with long, wavy blonde hair is lying on a wooden floor, looking directly at the camera. She is wearing a tan jacket over a black shirt and a delicate necklace. Several books are scattered around her, including 'The Hobbit' by J.R.R. Tolkien, 'The Girl on the Train' by Lucy Farrow, 'The Night Circus' by Erin Morgenstern, and 'The Secret Garden' by Frances Hodgson Burnett. The text 'SENIOR PORTRAITS' is overlaid in the top left corner.

# Formal Portraits: A timeless tradition

A professional headshot is more than just a yearbook photo — it's a lasting keepsake for parents, a polished image for scholarship and college applications, and a meaningful way to mark this milestone with style and confidence. Simple, clean, and truly you.

## What to Wear for Your Classic Senior Headshot

Keep it simple and timeless. Solid colors work best; black, white, navy, or soft neutrals. Avoid busy patterns or logos that distract from your face. A well-fitted top with a flattering neckline looks polished. For guys, a dress shirt, tie and jacket or sweater works great; for girls, a classic blouse or simple dress is perfect. Remember, the goal is a clean, classic look you'll love for years to come.

### INSIDE EDITION: SPORTING YOUR SCHOOL COLORS

### Show Your School Spirit in Style!

Why keep it plain when you can add a pop of personality to your senior portraits? Wearing your school colors or repping your mascot is a fun way to make your photos uniquely you. Think varsity jackets, team jerseys, or even a scarf or accessory in your school's signature shades. Bring along a foam finger, a pennant, or a mascot plushie for a playful vibe that shouts school pride. These shots not only look awesome but capture the energy and excitement of your high school years – perfect for sharing with friends, remembering where you came from, and showing off your school spirit as you head toward your next adventure!

### Highlight Athletic Achievements!

Your senior portraits are the perfect chance to showcase all your hard work and dedication. Bring along your trophies, medals, or even your sports gear to celebrate your athletic journey. Whether it's a single medal draped around your neck or a whole collection of trophies, these special touches tell your unique story and add a powerful, personal edge to your photos.

# THE KEY TO A STRESS-FREE PORTRAIT SESSION

- **Plan Your Outfits Ahead**
  - Choose 2–3 outfits you feel great in. Make sure they're clean, wrinkle-free, and comfortable.
- **Don't Overbook Your Day**
  - Avoid scheduling your session right before or after other big commitments so you're not rushed or frazzled.
- **Do a Hair & Makeup Trial Run**
  - If you're getting professional hair or makeup, test the look beforehand so there are no surprises on photo day.
- **Stay Hydrated & Well-Rested**
  - Drink plenty of water the day before and get a good night's sleep to help you look and feel your best.
- **Trust Your Photographer**
  - Relax and let your photographer guide your poses. You don't have to know how to "model." A good photographer will help you look natural and confident.
- **Bring Comfort Items or Your Best Friend**
  - Pack a small bag with touch-up makeup, water, a snack, and any personal items that make you feel at ease. Sometimes having a friend helps keep you relaxed.
- **Think Positive**
  - Focus on the fun! This is about celebrating you and your journey.
