ABOUT

At a young age, Andre Sammut was already on his way to exploring the world of music before setting his heart on Djing and music production to become NÈO-X. His aim is to produce music that uplifts, inspires and gives listeners the chance to detach into a world of sounds whilst continuing to develop artistically and tour around the world to play in some of the best venues and festivals . NÈO-X's knowledge of music comes from a proficiency in guitar, music theory, countless hours of experimentation in the studio and a Diploma and Degree in Music Technology & Radio Broadcasting, most of which he learned when he logically shifted to London for seven years. NÈO-X is motivated to entertain, reality and nature is his ultimate inspiration.

His rhapsodic style and experimentation of finest deep melodic house and emotive electronica has lead him to iconic venues like Ibiza Rocks (Ibiza), Hideout Festival (Croatia), Sound Garden (Thailand), Ministry of Sound (UK), and all popular Maltese hangouts, as well as being a resident DJ at Chasing Sunsets which has become increasingly popular in the last few years.
