

# **'KNOWLEDGE DAY ON AI REGULATION'**

## **India AI Impact Summit 2026 Pre-Summit Event**

### **About the Event**

D. Y. Patil University School of Law brings to you 'Knowledge Day on AI Regulation'. A full day of events centred around understanding the regulatory potential, issues, and frameworks for the AI age. These events will bring together global academia, legal experts, and practitioners to engage in informed dialogue on regulating artificial intelligence, comparing international approaches, and shaping future-education possibilities through discussion, scholarship, and collaboration.

# Event Schedule

Time	Events
09:00 am to 10:00 am	Inauguration Ceremony
10:00 am to 11:30 am	Screening: We, the Robots? AI, Regulation, and the SDGs

03:00 pm to 05:00 pm	Masterclass: Use, Misuse & Accountability for the AI-Generation Lawyer
05:00 pm to 06:00 pm	Participant Opinion Papers

\* Regular Breaks will be given between Events

## Screening: We, the Robots? AI, Regulation, and the SDGs

A thought-provoking session on whether and how artificial intelligence and robotics should be regulated. Simon Chesterman explores the balance between innovation and regulation, potential risks of AI, and its role in advancing the Sustainable Development Goals (SDGs). The discussion is moderated by Soledad Atienza, Dean of IE Law School.

## *Keynote on ‘Drafting the India AI Governance Guidelines’*

A concise insight into the drafter's intent, objectives, and core principles behind India's AI governance framework, highlighting the influence of past experiences, geopolitical developments, and academic perspectives on the drafting process, delivered by **Rahul Matthan**.

## Editors Roundtable on Regulating AI (2026 Law & Technology Conference).

A high-level roundtable bringing together editors and legal scholars from **India, Malaysia, China, Singapore, Scotland, and the United States** to examine converging and diverging global approaches to AI regulation, setting the intellectual tone for the 2026 Law & Technology Conference.

## Masterclass on Use, Misuse & Accountability for the AI-Generation Lawyer

Conducted by **GovernAI**, this masterclass offers a practical introduction to bridging AI technology and legal practice, covering foundational concepts, case studies, regulatory frameworks, and national and international AI laws to equip participants with applied, future-ready insights.

## Participant Opinion Papers

The programme concludes with participants submitting written reflections based on the day's discussions and insights. These opinions will be analysed, summarised, and consolidated into a white paper to inform and contribute to India's evolving AI governance journey.
