Kill American Citizens?

1962-63

OPERATION NORTHWOODS

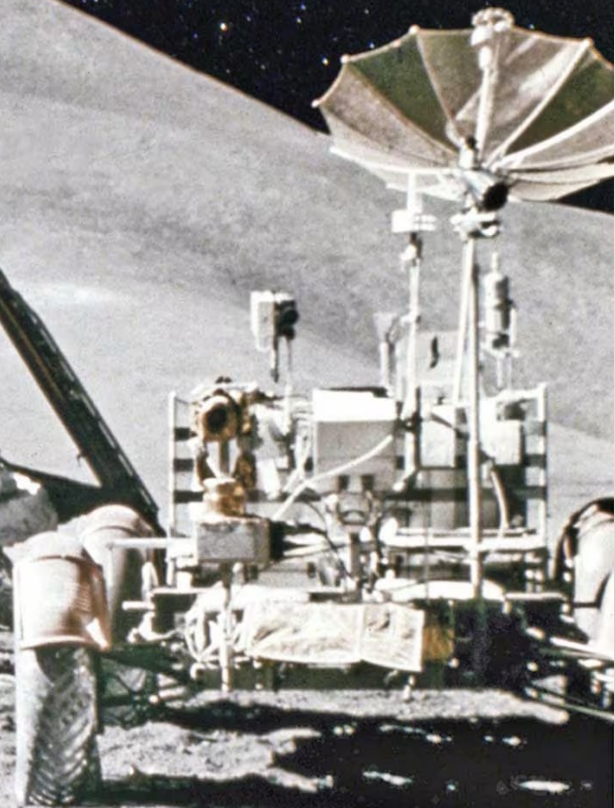

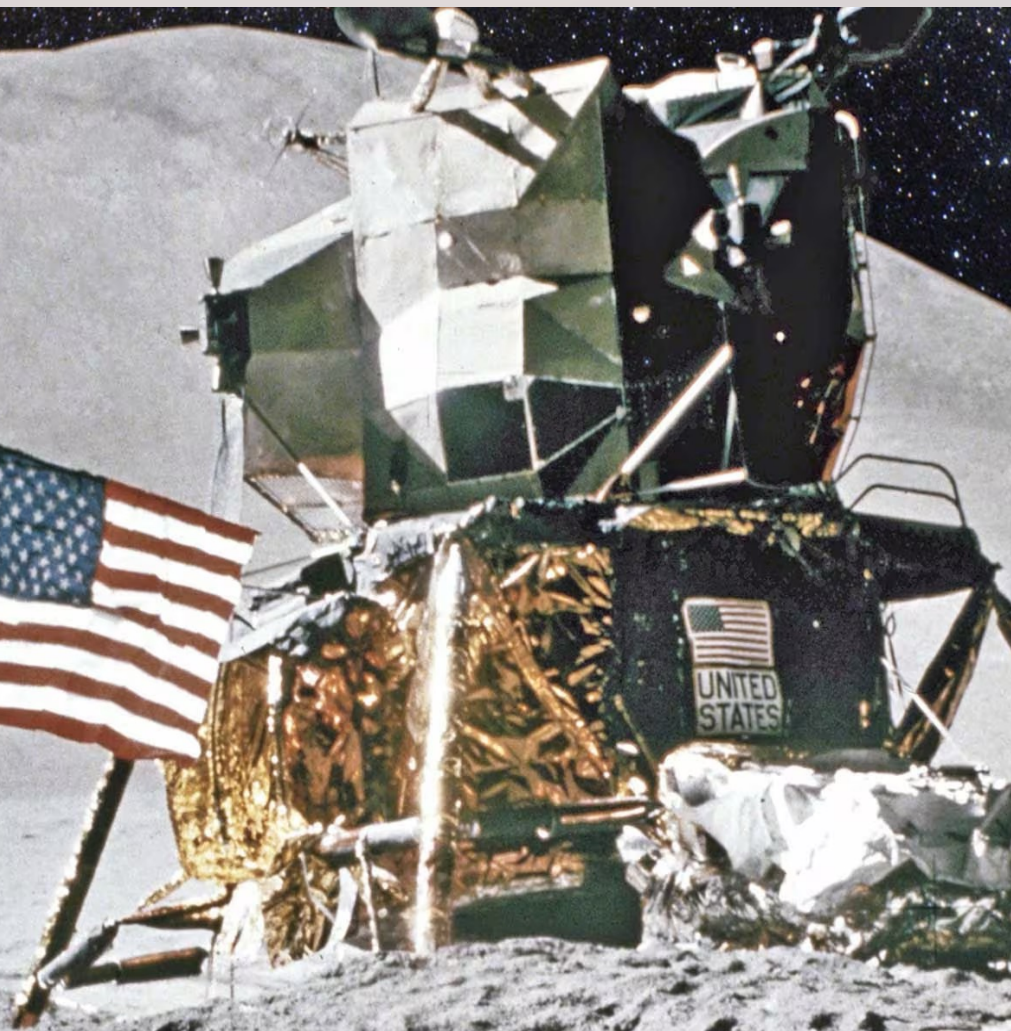

Unclassified in 1997, Operation Northwoods was written up by the US Joint Chiefs of Staff as a plan to persuade the American people to want to go to war with Cuba, by launching a wave of terrorist attacks on US citizens. It called for innocent people to be shot, bombs to be planted in major cities, planes to be hijacked, and it would be blamed on Cuba. Luckily, JFK rejected the plan.

Workers from Wuhan China

MILAN (AP) — Exploited Chinese workers employed in Italy by an unauthorized subcontractor made handbags and accessories for the [Giorgio Armani](#) fashion house in a series of supply chain abuses that the in-house production company failed to properly monitor, Italian police said Friday.

The fashion house denied wrongdoing by GA Operations, which produces apparel, accessories and home decor for the Giorgio Armani Group brands.

“The company has always had control and prevention measures in place to minimize abuses in the supply chain,” the Armani statement said. “GA Operations will collaborate with the utmost transparency with the competent bodies to clarify its position on the matter.” According to police, GA Operations hired a subcontractor, which in turn hired unauthorized Chinese subcontractors that employed workers under the table, some of whom were in Italy illegally. They allegedly disregarded health and safety regulations as well as rules governing working hours, breaks and days off.

A diagram released by police indicated that the Chinese subcontractor was paid 93 euros (\$100) for a handbag that the fashion house sold for around 1,800 euros (around \$1950). The authorized subcontractor, acting as the middleman but without real production capabilities, was paid 250 euros for the same bag, pocketing 157 euros for each bag, police said.

“The system allows for maximizing profits (in which) the Chinese factory actually produces the products, lowering labor costs by resorting to off-the-books and illegal workers,” police said in a statement.

Thomas Jefferson is known for advocating the questioning of religious doctrines, including the existence of God. A famous quote of his is: "Question with boldness even the existence of a god; because, if there be one, he must more approve of the homage of reason, than that of blindfolded fear." He encouraged people to use their reason to examine religious beliefs and not be swayed by fear or blind faith. [🔗](#)
