Dear Dr. Boyd,

I am currently enrolled at the Grand Canyon University and am looking to further my experience in the industrial organizational psychology field. I am applying to this job after finding the opportunity online. I have filled out the online application and hope to move forward with the hiring process. This company would be a great step toward making my staple in the industry.

I have an extraordinary experience in customer service, training and teaching. Throughout my education and experience I have gained insight of how to guide and build successful teams that can benefit organizations. In my current position I utilize my psychology knowledge to teach high school students AP Psychology. I am also part of administration as a Curriculum Coordinator where I find new processes for our school to best administer our academics. These skills will be found to be useful as I begin to excel in the field of industrial/organizational psychology.

I can be reached at any time by phone or email. Please, leave a voicemail if I miss your call and I will give you a call back at my earliest convenience. I will follow up with the hiring process within the next two days. I am looking forward to hearing from you soon.

Sincerely,

Star Partee
