Treats acne, closes up large pores, firms and tightens skin immediately. Non invasive, lifting treatment for all skin types. High Frequency - Stimulates circulation of the blood, increases glandular activity, aids in elimination and absorption, increases metabolism, kills germs and bacteria, generates heat inside the tissue, and helps products to go deeper into the skin.-\$95

Natural glam makeup- Natural glam makeup is all about enhancing your features with a subtle touch—think dewy, luminous skin, and a soft contour. It's the total opposite of full-on glam. -\$60

Eyebrow tinting- Eyebrow tinting is the process of applying semi-permanent dye to enhance, shape, and define your brows. Tinting allows a professional to manipulate the brow area by darkening the fine hairs that surround the perimeter of the brow to increase the width.-\$60

Eyelash Tinting- Think of eyelash tinting like getting your roots touched up. The dye will intensify your natural lashes by darkening them and adding definition to the eye. The dye itself is similar to what you use on your hair, except it's specifically developed to be safe around the eye area.-\$60

Eyebrow lamination- Brow lamination involves straightening and lifting the hairs using a chemical solution, which allows the hairs to have more flexibility to move them into your desired shape, therefore covering any gaps or stray areas. -\$70

Eyelash lamination-A lash lift works with your natural lashes to create a luscious semi-permanent curl that will last between 6-8 weeks. We use a technique combining a lifting lotion and silicone rods to lift your natural lashes, making them look longer and fuller. We recommend lash lifts as a great alternative to eyelash extensions. -\$70

Acne facial- double cleanse, steam, hot towel infused with lavender oil, manual extractions, microdermabrasion exfoliation and sulfur mask. Helps reduce acne and cleanses the pores and also cleansing the skin by removing dead skin cells. -\$90

Booty facial- involves cleansing, steam, exfoliation, extractions (if needed), microdermabrasion, treatment serums, and a mask. Booty or butt facials are a great way to address uneven skin tone and other related skin problems like butt acne, blackheads, or other skin concerns. It basically works to refine and smoothen the skin with a variety of facial treatments.-\$100

Botox mask- ~ Included in Anti-Aging Facial. Argireline is found in Botox and affects the nerve-to-muscle communication so that the muscle contractions do not deepen expression wrinkles. The main ingredient in the contouring mask is ARGIRELINE (product in BOTOX) which targets fine lines and expression wrinkles. So, although it is the same dose that one would have when being injected, it is applied onto the skin rather than injected into muscle.-\$130
