

NATURE DAWGS

DATES:

July 6–9, 2025

APPLICATION DEADLINE:

May 9, 2025

LOCATION:

Mississippi State University

COST:

Free (limited space available)

**WHAT YOU'LL LEARN:**

OUTDOOR SCIENCE: Get hands-on experience with forestry techniques like tree measurements, analysis, and even drone use for forest management.

WATER QUALITY: Learn how to test and monitor water to understand its impact on the environment.

NATURAL PRODUCTS: See how raw materials like wood are turned into products.

PROFESSIONAL DEVELOPMENT: Learn how to dress for success, create a great online presence, and more!

WHY YOU SHOULD GO:

HANDS-ON LEARNING: Develop real-world skills in forestry and natural resource management.

MAKE AN IMPACT: Learn how to protect and sustain wildlife habitats for future generations.

EXPLORE CAREERS: Discover different career paths in forestry, wildlife, sustainable bioproducts, and environmental science.

PREPARE FOR COLLEGE: Get resources to help you with college planning and career decisions.

MEET NEW PEOPLE: Connect with other students and professionals who share your interests.

GROW PERSONALLY: Boost your leadership skills, and gain a deeper appreciation for nature!

WHO SHOULD ATTEND?

This camp is perfect for rising 9th to 12th graders who are passionate about nature and want to explore cool career opportunities in the environment.
