

Traffic Control Barrier Arm

INTELLI-PARK SERIES

INTELLI-PARK

BARRIER ARM OPERATOR

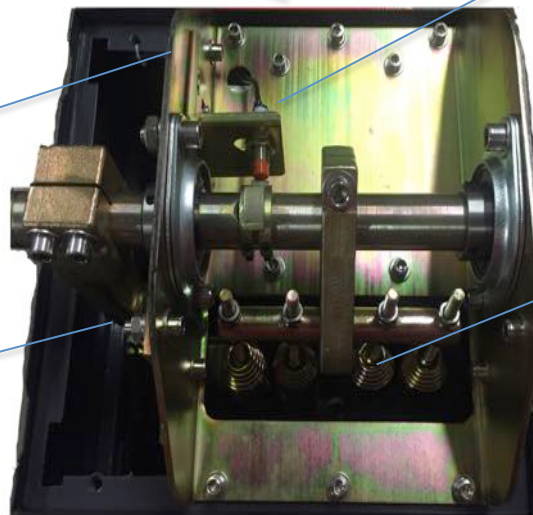

Available Break-a-way Hub and TeleScoping Arm Available

Proximity Limit Switch for accurate positioning

Gold Zinc Plated Torsion and Mounting Plate

Multiple Spring Counter Balance

High Torque / High Speed Variable Frequency Motor

High Efficiency Motor and Gearbox Assembly engineered for 5 million cycles

Standard soft start/stop

Multiple Program Modes

Multiple Inputs and Outputs

Available Boom sizes and speeds

**Auto Open on
Loss of Power**

Manufacturer of Automatic Slide, Swing and
Barrier Arm Gate Operators

IQ GATE SYSTEMS
The Leader in Gate Automation

Traffic Control Barrier Arm

INTELLI-PARK SERIES

“INTELLI” Series

The Intelli Series Gate Operators by IQ Gate Systems are built to the highest standards. Designed to provide years of exceptional service, the Intelli Series operators are manufactured utilizing only the highest quality components, the Intelli Series Gate Operators continue to set the standard for gate automation. Specializing in 24 Volt DC technologies, hydraulic, and high speed variable frequency drive, IQ Gate Systems has always been a pioneer in the industry.

Model	IntelliPark 18	IntelliPark 32
Gate Speed	1.8 Seconds	3.2 Seconds
Capacity: Up To	4 Meters	6 Meters
Duty Cycle	Continuous	Continuous
Input Voltage	110 / 220	110 / 220
On Board Accessory Power	24 VDC	24 VDC

The IntelliPark Series Barrier Arm Operators are equipped with variable frequency drive PLC which provides the following features:

Provided Exterior LED Cabinet Lighting
Mult Selectable Programs
LED indicated terminals
Auto Open upon Power Loss
Multiple Inputs and Outputs
Anti Tailgate Sequence
Quick Close Program
Traffic Light and Cycle Counter Outputs

Options:

Break-A-Way Hub
Telescoping Arms
Right Hand Model
LED Lighted Arm
Photo Eye
Loop Detectors
Cold Weather Package
