

## **Mission:**

At Texas ACE Fund, we envision a Texas where opportunity thrives in every community. We fuel that vision by providing crucial financial resources and education to neighborhood businesses growing our economies, builders and developers creating quality affordable housing, and diverse businesses driving government contracts that build the very bones of Texas infrastructure. We are not just financiers; we are architects of equity, crafting a tapestry of economic inclusion across the Lone Star State.

We prioritize lending and business financial education to BIPOC, Veteran, Woman, LGBTQ+ owned businesses, and businesses who serve LMI neighborhoods and other underserved communities, recognizing the systemic barriers they often face. Through dedicated capital and expert guidance, we empower these enterprises to flourish, fostering economic inclusion and dismantling the walls of historical bias. We are committed to building a more just and vibrant Texas, brick by brick, contract by contract.

To ensure our decisions are driven by fairness, not unconscious bias, Texas ACE Fund leverages cutting-edge AI technology. This allows us to objectively evaluate loan applications and identify the most promising investments, regardless of demographics or preconceived notions. By harnessing the power of data and technology, we create a level playing field where potential, not prejudice, dictates success. Together, we are building a stronger Texas, one empowered community at a time.
