

# R32 Solutions | Cybersecurity & Technology Leadership

Cybersecurity • Cloud • AI • Audit-Ready Technology • Readiness Assessment

## About Us

R32 Solutions is a federal-grade cybersecurity, compliance, and digital governance advisory firm supporting mission-critical and highly regulated organizations.

We design resilient, defensible programs — including governance of Artificial Intelligence (AI), Business Intelligence (BI), and analytics — aligned with NIST, ISO, SOC, HIPAA, and regulatory expectations.

## What We Do

R32 advises executive leadership teams by strengthening technology foundations, cybersecurity posture, governance discipline, and oversight of Artificial Intelligence (AI), Business Intelligence (BI), and analytics across enterprise environments.

Our advisory scope includes:

- Enterprise technology strategy
- Cybersecurity risk & defense
- Audit-ready security architecture
- Governance & control alignment
- AI, BI, and analytics governance & risk oversight

Our work is practical, defensible, and focused on operational resilience, security assurance, and long-term sustainability.

## Why It Matters

Technology failures, security incidents, and compliance gaps now carry direct financial, operational, and reputational consequences.

R32 helps organizations reduce exposure, maintain control, and operate with confidence in the face of cyber threats, regulatory pressure, and executive accountability.

## Service Focus

R32 supports organizations operating in complex, high-risk environments by aligning technology, security, and compliance into a single, defensible operating model.

## Services include:

- Cybersecurity risk & architecture
- Zero Trust & cloud modernization
- Incident readiness & response
- Compliance alignment (NIST, ISO, SOC)
- Technology governance & advisory

## Enterprise Readiness Review (ERR)

An executive-level review that identifies compliance gaps, audit risk, and documentation readiness—delivering clear priorities and practical next steps.

- Audit-ready, defensible architectures
- Confidential advisory support
- Executive Readiness Assessment Review
