

R32 Solutions

Compliance-Driven. Powered by Partnership.

"Mission-Critical Security. Audit-Ready Compliance."

Who We Serve & Our Mission

R32 Solutions

Solutions is a Veteran-Owned, Minority Disadvantaged Business focused on protecting mission-critical sectors—including Healthcare, Defense, Energy, Finance, Logistics, and Manufacturing. We help organizations achieve full-spectrum cybersecurity, compliance, and audit readiness with concierge-grade services and zero compromise.

Our mission is to deliver peace-of-mind by eliminating cyber risk, achieving regulatory excellence, and enabling operational resilience through tailored strategy, AI-powered solutions, and elite advisory support.

Core Services

- Cybersecurity Risk Assessments (NIST, HIPAA, CMMC, ISO, SOC 2)
- Compliance Program Development & Policy Engineering
- HIPAA & HITECH Security Risk Analysis (SRA)
- Vulnerability Management & Security Hardening
- Audit Readiness & Documentation Support
- Fractional CIO/CISO Leadership & MSP Alignment
- Executive Advisory & Regulatory Navigation

Why It Matters Now

Federal, defense, and healthcare systems are under siege. Compliance is no longer optional—it's the gatekeeper to funding, partnerships, and continuity. R32 equips your team with the tools, insights, and leadership to stay ahead of audits, attacks, and reputational risk.

What Makes R32 Solutions Different

- Concierge-Level, Veteran-Owned, Cybersecurity-Driven
- Strategic Alignment with Internal Teams & MSPs
- Fixed-Fee Packages, No Surprises

- Led by Former Federal CIO/CISO
- Nationally Trusted by Providers & Defense Contractors

Service Packages: Built for Every Stage of Compliance

Whether you're preparing for initial certification, responding to findings, or defending against a live audit, R32 Solutions delivers structured, outcome-driven packages tailored to your organization's needs. Each engagement is designed to align with federal requirements, produce measurable results, and support your team—from discovery through certification.

In close collaboration with your internal IT teams, Managed Service Providers (MSPs), and key vendors, we ensure every element is synchronized for success.

All packages include detailed reports, tailored recommendations, scheduled strategy sessions, executive presentations, and a formal attestation certification letter.

- **Gold Package – Risk & Compliance and System Health Check**
Baseline NIST/HIPAA scan, SRA, vulnerability assessment, policy review and roadmap.
- **Platinum Package – Comprehensive Assessment, Remediation & Audit Support**
360° compliance program, corrective action planning, documentation upgrades, MSP integration, network (external & internal) penetration test, security awareness training, and tabletop exercises.
- **Diamond Package – Audit Defense & Incident Response**
Gold and Platinum package are included as well as 24/7 advisory support, audit management, IR planning, executive response prep, red/purple team simulation.
- **Senior Advisor Package – Embedded Leadership**
CISO-level support, MSP oversight, governance and audit strategy, certification navigation.
