

The Power of New Energy

World Stage for Sustainable Technologies &
Innovations

Why Sponsor WGES

From its inception, The World Green Energy Symposium (WGES) has served as a platform of education and information exchange for new and green energy construction, infrastructure, technologies and innovations as well as sustainable advancements in existing energy technologies. There is a concentration on 21st Century job creation, contracting opportunities, policy updates, exporting products and innovations within the sustainable industry.

The partnerships include local, state and federal agencies, academia, industry, chambers of commerce, environmental, economic organizations and delegates. The agenda is carefully developed by a council of leading professors, industry, and government agency experts. The Symposium attracts the top echelon speakers who are leading subject matter experts including Nobel laureates, top industry leaders, top officials, published scientists & educators.

The WGES invitations are targeted to B2B, G2G and B2G and the audience is made up of well-informed multi-discipline top experts, government officials, policymakers, scientists, researchers, investors, innovators, industry, manufacturers, program managers and contracting officials who are there specifically to exchange, showcase, procure, invest and identify opportunities. The WGES footprint through media partnerships and other press outreach reaches the global market.

The WGES works with the local leaders and organizations to insure an inclusive successful outcome for all involved during and post event serving as a vantage point for support of the region's economic development, tourism and sustainable efforts.

Every care and attention is made to properly build up the foundation of WGES with a focus on its core mission of providing a platform of education & information exchange which ultimately leads to economic vitality and a healthier planet. If this is the program which fits within your organization's strategic goals, CSR program and identifies with your brand image we welcome you to participate as a sponsor.

"We would like to thank the growing list of co-hosts, participating agencies, partners, sponsors, lecturers, world class exhibitors, media partners and volunteers of the World Green Energy Symposium and for the support and involvement of so many in helping make this collaborative effort into a premier World Event"
