The WGES Overview –

Description:

The WGES (WGES.US) has made its mark since its inception and earned a track record for showcasing the newest, alternative, sustainable and innovative products while serving as a world stage for education, launches & program updates. The WGES program focuses on new green/renewable energy technology as well as innovations in existing technologies as the vantage point in the new economy's creating and maintaining jobs, contract and exporting opportunities, and new policies leading to economic vitality and a healthier planet. has developed outstanding outcome based topics while creating a platform for education and information exchange. It has continuously been hailed in the media, and by participants and sponsors alike as a well organized, well attended and well executed effective program. The WGES attracts some of the best minds and top decision makers in the field and through a carefully planned strategic process. It has a global reach and has global media coverage.

The WGES is made up of a G2G, B2B and B2G audience. It also provides a platform to showcase products & technologies to an enthusiastic and forward thinking audience looking for solutions. This is the premier event known for the top echelon of speakers, scientists, researchers, innovators, officials, corporate leaders, exhibitors, program and contracting officers. Since its inception it has developed a stellar reputation participating agencies, sponsors & exhibitors include: U.S. DOC, DOE, GSA (PBS, FAS) DOT, DHS, DOD (Pentagon – Army & Air Force), DOC, DOL, SBA, AECOM, StructureTone, Constellation, Cisco, EES, DOW, Tishman, Siemens', GE, Johnson Controls, Ambassadors and Officials from Embassies, Consulates & International Delegations (hosted by US Dept. of Trade), Mayors of Major Cities, Governors, Economic Development & Planning Organizations, Academia/ Universities Co-Hosts including Howard, Drexel, Wharton School of Business, Temple, University of Pennsylvania, Hunter/ CUNY, and other nonprofit partners such as; PWC, AFE, AEE, NAHB, WTO, EAWC, Chambers of Commerce etc.

The Power of New Energy reflects in the WGES.US Partners, Participating Agencies, Sponsors who have helped make it a premier World Event by their past and present participation, some have been included in the next slides.....

“It’s not what we say it is what they say that matters.”

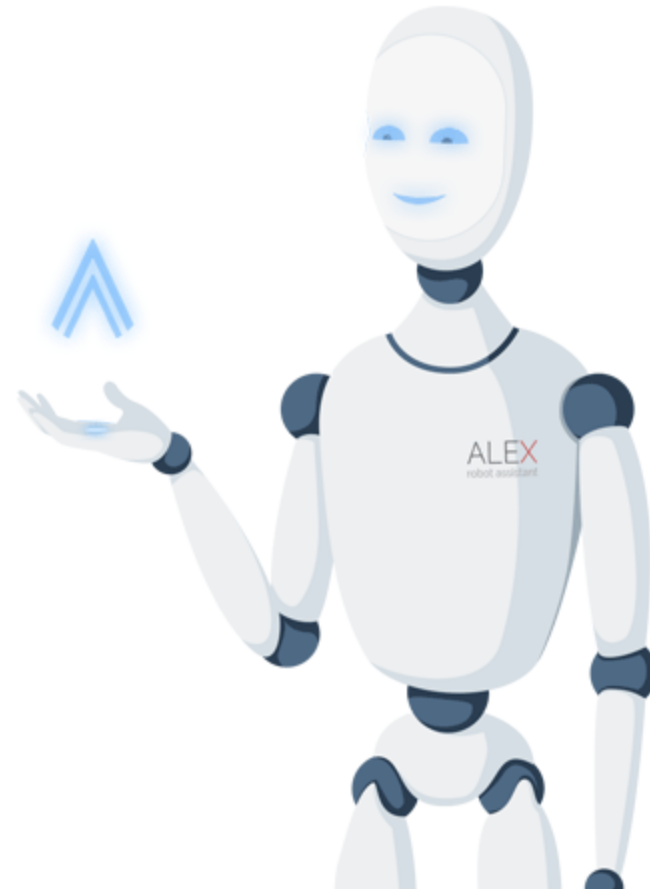

- "This has been one of the most powerful, informative symposiums I have ever been to..."
- "My business partners and I attended and exhibited at the World Green Energy Symposium on both days, and found the event to be informative, energetic, well-planned and well-attended..."
- We met many people in the renewable energy industry with who we will be in contact to discuss opportunities to work together on sustainable development projects...."
- "We very much enjoyed the enthusiastic reception that we found the Symposium received from the general public, who seemed eager to learn about the different exhibitors, businesses, and the overall green message of the Symposium. We are already looking forward to the next WGES!..."
- (testimonials with full details found on website – www.wges.us)

Testimonials cont'd

- “WGES DC is one of the best events I have attended in years. The WGES DC speakers were world-class, and the symposium classes were first rate, our company made numerous important contacts who viewed our technology demonstration.”
- "The World Green Energy Symposium was a great platform... Not many forums have an all-inclusion of stakeholders from policy makers to the individuals and entities that must spend the financial resources to meet such initiatives.
- “I appreciated the chance to engage. The event was worthwhile, the participants engaging, and the success of getting the green energy message out was clear”U.S. Federal Government Officer...
- “The WGES event was fantastic. WGES, brought together under one umbrella, high-level decision makers from government and municipal agencies who were committed to finding innovative green energy and technology solutions. These decision makers cared, listened, and pointed us in the right direction. Thank you WGES.”
- “The Symposium was fabulous. I enjoyed it thoroughly. Thank you for supporting the Green Economy. Thanks so much for your hard work.”

Through strategic campaign developed and implemented by Gallagher Worldwide, Inc., which includes mainstream global media outreach, social media, and other public, community, educational, government, industry and media relations expansive network of outreach the World Green Energy Symposium (and its acronym WGES) has reached the recognition and “hits” to earn from allacronyms.com its own acronym on internet which serves to enhance WGES sponsors brand essence and recognition globally.
