

FARAXOME- MORE THAN EXOME

COMPREHENSIVE • FAST • AFFORDABLE.

Three tests in one — exome, CNV, and mitochondrial DNA analysis — with the speed of local processing and pricing designed to make comprehensive genetic testing accessible.

GLOBAL TECHNOLOGY. LOCAL INTELLIGENCE.

World-class sequencing technology, analyzed locally — with regional genetic data factored into every result, not just international databases alone.

ONE JOURNEY. ONE FAIR PRICE.

Panel first, inconclusive? The amount paid is deducted from your FaraXome cost.

CLINICAL INDICATIONS

- Unexplained developmental delay / intellectual disability
- Multiple congenital anomalies
- Suspected genetic syndromes without a clear clinical diagnosis
- Negative or inconclusive targeted gene panel results
- Family history suggestive of an undiagnosed monogenic condition
