**Veterans Guide:** [www.veteransguide.org](http://www.veteransguide.org) Our mission is to assist veterans with the array of issues they may face, including obtaining proper disability compensation, financial assistance, information on the GI bill, and more. We have created some helpful guides and will continuously be adding more. Unfortunately a major cause for veterans going homeless is some sort of underlying disability. Recently we made a calculator that helps veterans calculate how much their VA rating should be, especially when it comes to combining ratings and complicated VA math. This calculator shows how much money they should be getting from the VA. Check it out: VA Disability Calculator - [veteransguide.org/va-disability-calculator/](http://veteransguide.org/va-disability-calculator/) What's important to us is providing resources and help for veterans and their families. We want to make sure vets have all the resources necessary to ensure they struggle with their health and finances as little as possible. I think our advocacy site could be a useful addition to your page for that reason. If you agree, would you consider sharing a link to our organization/calculator on your site?
