

the perfect choice
for your business

Spreader Basket

ONE-STOP SOLUTION

*to transport your trenching
equipment*

Features

The Auger Rack Spreader Basket allows your team efficiency, ease, and organization during transportation of spreaders. Each product is customized to fit your production. Made from carbon steel and finished with rollercoaster paint (aliphatic urethane), this product is a necessity for any rental yard.

Interested in customization?

Auger Rack can create a solution to meet your needs.
