

the perfect choice  
for your business

# Spreader Rack

## ONE-STOP SOLUTION

for your trenching equipment  
and material storage needs

## Features

The Auger Rack Spreader Rack is strategically designed to provide efficient storage of your trenching spreaders. Alternating rows front to back in a stacked honeycomb configuration, this stand allows lean manufacturing practices to be implemented on your jobsite.

*Recommended storage: 42 spreaders*

### Interested in customization?

Auger Rack can create a solution to meet your needs.
