

SCALAR ENERGY

The **CONVERGENCE** of two identical electromagnetic frequencies (EMF) from two opposite direction produce Scalar Energy. The **CANCELLATION** of the free movements of these EMF keeps them in one place; Scalar Energy is stationary energy. The **CONCENTRATION** of SE provides the **health benefits** when one comes close to it.

Scalar Waves and Grounding

These frequencies span from **7.83Hz to 33.8Hz** and have numerous health benefits. Most notably, Schumann Resonances balance out your body's electrical potential, keeping your cells functioning as they should and your body able to repair itself.

There are many purported benefits of scalar energy

- Hydrogen bonds of DNA are strengthened by increasing the energy that holds them together which prevents damage
- Immune system functioning can be improved
- Radiating energy has a positive effect on the brain as the 2 halves become balanced. This improves mental focus and directly affects neurotransmitters, acting as a natural antidepressant for the brain.
- Cell membranes vibrate an electrical charge that allows nutrients to move in and toxins and waste to move out at optimal levels of efficiency.
- The body's cells are energized and overall, the body is encouraged to function at increasingly high levels.
- Inflammation in the body is reduced.
- The blood profile is rejuvenated and blood flow is promoted with increased oxygen being circulated. Blood pressure is also regulated.

SCALAR ENERGY – POWERS OUR CELLS

📞 Malaysia +6012 2 093 093

All living organisms radiate frequencies through Oscillation (Vibration), under healthy conditions the Human electromagnetic systems are in equilibrium Healthy cells carry a voltage of 70-90 millivolts

Whenever an area of the body is damaged or injured, the cell voltage drops. Unhealthy people may experience voltage drops of 20 millivolts Resulting in insufficient production of Energy to power the cell

Human cells have structures that are capable of holding electrical charges. When entering a **Scalar*Energy** field, they become stimulated, re-establishing the vibrations of the unhealthy cells back to it's normal 70-90 Millivolts oscillation patterns within the body returning it to equilibrium.

Scalar Energy does not heal, but provides the energy for the body to heal itself

SCALAR ENERGY – ENERGIZES OUR CELLS

Malaysia +6012 2 093 093

Our body's 37.2 Trillion cells each maintains an electrical charge of 70-90 millivolts across their membranes. Every nerve impulse in our body is an electric current (sodium⁺ - potassium gate). Our muscles are powered by chemical energy, digestion of foods, clearing & repair of injured tissues, specialised activities within cells, have all been described as carriers of energy.

With age, the voltage of our cells decreases as a result of increased free radicals, oxidative stress & inflammation in our cells.

This decrease in energy has significant effects on the body, the most profound being the decreased ability of the body to recuperate and rejuvenate. Scalar*Energy has the ability to increase the energy potential of the Cell to the optimum level of 70-90 millivolts.

Scalar Energy does not heal, but provides the energy for the body to heal itself.

Scalar*Energy has this unique property which enables it to embed itself into objects in its field including strengthening the chemical bonds within Human DNA making it more resistant to cellular damage

Scalar*Energy rebuilds energy within all our cells, oxygenate and alkalise them causing blood cells to separate, thereby creating more surface area for oxygen and waste exchange, blood is cleansed and its cellular elements function as they should, cellular voltage levels is also normalised, offsetting illness and injury

Immune function & mental focus improves with increased amplitude of all EEG Frequencies (brain waves) **Scalar*Energy** not only **alleviate pain and inflammation**, but it also **facilitates tissue healing**

SCALAR ENERGY - SWITCHES ON OUR CHAKRAS

There are 7 major **Chakras** in our Body, our Aura is often referred to as our **8 Chakra**. Chakras are funnel shaped openings for *life energy* to flow in and out of our Aura. They develop our self-consciousness and are associated with our physical mental and emotional interactions and well-being

Very often our **top 3 Chakras** (**7, 6, 5**) are not functioning correctly due to manmade electrical field interference from power lines, cell-phones, etc. **Scalar*Energy** switches on these **3 Chakras** and return us to a sense of connection and tranquility enabling us to think and function better
