

CLIFF HENRY

President and CEO, Solar USA Power LLC

Cliff Henry is a distinguished professional with over 20 years of experience in the real estate and finance industries. In addition, he has been active in the solar industry for the past 13 years, specializing in the origination of solar projects, advisory, and project development.

Henry's journey in the solar industry began when he started off as an Independent Power Producer (IPP) for a large solar panel company from China, facilitating the origination of solar projects. He then transitioned to advisory and project development, gaining valuable insights and expertise in the solar generation industry.

During his tenure in the solar industry, Henry has also been involved in the buying and selling of solar panels, with over 500 megawatts of solar panels under his belt. Cliff Henry's business expertise spans different solar projects, with a range from 100 kilowatts to 3 megawatts in size. From pre-development to contract implementation, Henry has a solid record of delivering successful solar projects to clients.

Furthermore, Henry's impressive portfolio includes investing in major solar projects in different parts of the world, such as Canada, the UK, hotels, and agricultural farms. A few notable projects include a 600-megawatt solar facility in Canada, 150 megawatts in the UK, and a 900-megawatt solar project on agricultural farms, with 3 megawatts on each one.
