1. Apprentices who have a passing grade can makeup classes on alternate nights either remotely or in person. Apprentices who do not have a passing grade will be required to makeup classes in person on Fridays with an instructor.
2. Apprentices who miss a test, whether they are passing or not, will be required to makeup the test on Fridays with an instructor. They will be administered a paper test for now. The online assessment module in LMS is in the process of being improved and will eventually allow an instructor to administer multiple different tests at one time.
3. Apprentices will be notified of the Friday instructor schedule in case they would like tutoring with a specific instructor.
