LIQUILIFT® DRIP:

Our signature vitamin IV drip is your one-stop-shop for all of your nutrient needs. It has the greatest impact on mood since it rehydrates your brain and other important organs, giving you a sense of clarity and extra focus—something everyone needs.

PERFORMANCE HYDRATION DRIP:

The Performance Hydration IV drip provides you with all the micronutrients your body will need before and after being pushed to the limit.

This vitamin infusion gives you energy, helps with muscle recovery and improves your athletic performance.

NATURAL DEFENSE DRIP:

When taken by intravenous infusion, Vitamin C can reach much higher levels in the blood compared to when the same amount is taken orally. This immune-boosting Vitamin IV Cocktail incorporates powerful antioxidants to fight against airborne illnesses, helping you improve the body's ability to withstand stress.

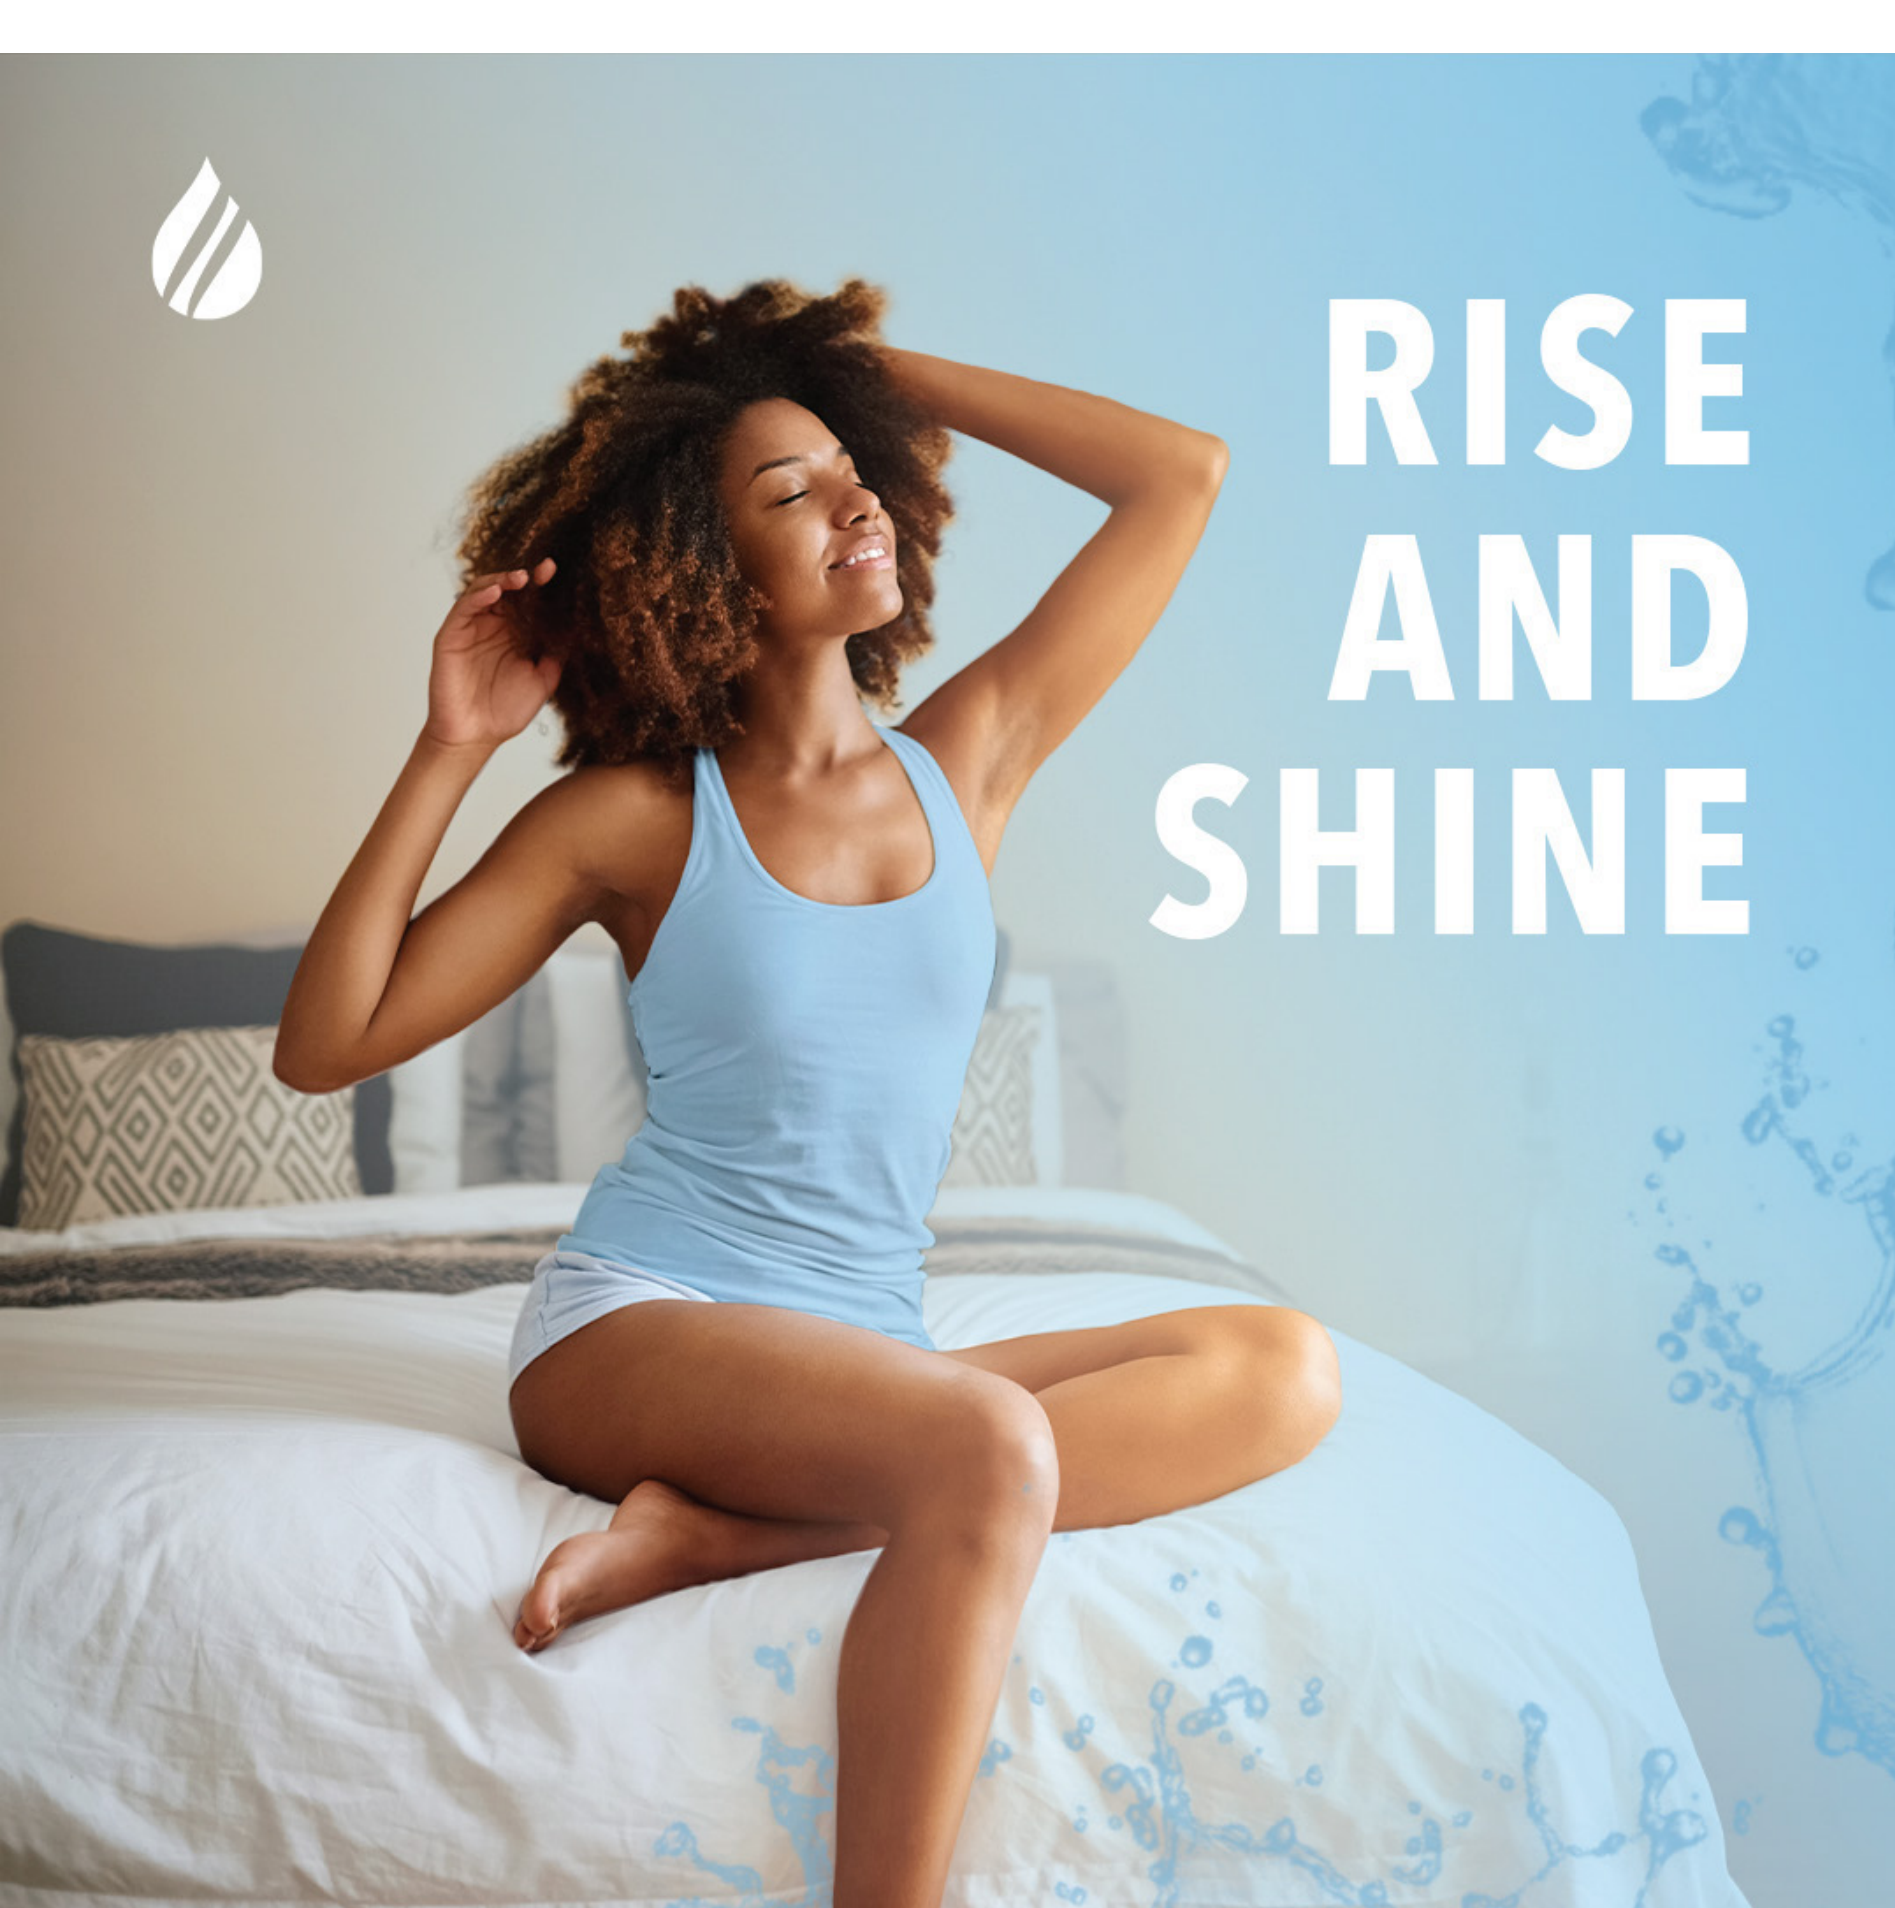

THE FOUNTAIN OF YOUTH DRIP:

Poor eating habits and dehydration affects how our skin looks tremendously. This drip helps detoxify and replenish the body with nutrients that nourish hair, skin, and nails so they appear healthier, resulting in a more youthful appearance over time.

THE EXECUTIVE DRIP:

This blend of vitamins helps allows you to enjoy the best life has to offer well after you clock out of work. You'll feel sharper and clearer to perform daily activities with precision.

THE RISE & SHINE DRIP:

We've all had one of those nights where we've had one (or a few) too many cocktails, or simply could not get the best night's sleep we should have gotten. The Rise & Shine Drip was developed precisely for these moments and will help reinvigorate your mind & body.

ANTI-AGING IV DRIP:

Glutathione recycles antioxidants in the body, playing a vital role in the detoxification process in our bodies. This regenerative antioxidant is so powerful that when at appropriate levels in our bodies it can keep us optimal. Most people see immediate benefits for their skin, often times lightening the skin complexion to a more desirable skin tone.
