

Thermal Tech & Temp

Industrial Heating & Insulation

PROTECTIVE SLEEVES

Thermal Tech & Temps protective sleeves provide flexibility, durability, and thermal containment, and can be either heat-treated or coated with vermiculite or PTFE. Resistant to hydraulic fluids, lubricating oils, and fuels, our protective sleeves insulate against energy loss in piping and hosing.

KEY FEATURES:

- Braided with high-quality fiberglass yarn
- Will not burn
- Flexible, durable with thermal containment
- Can be heat-treated or coated
- Hydraulic fluid, lubricating oil & fuel resistant
- Insulates against energy loss
- Protects the safety of employees
