

Thermal Tech & Temp

Industrial Heating & Insulation

WELDING CURTAINS

These blankets and curtains protect other applications and areas so weld splatter doesn't arc off and melt or heat up something else. Our welding blankets and curtains are also made to order and can be cut to size right off the roll. Thermal Tech & Temp offers a variety of fabrics and styles for all types of welding applications. There are numerous fiberglass fabrics for light welding, grinding, and cutting as well as silica fabrics for heavy welding, slag, and spatter. Our blankets have the ability to withstand steady-state temperatures of 1200°F-1800°F and can be reused.

KEY FEATURES:

- Highly re-usable
- Protects against sparks & splatter
- Soft & does not irritate the skin
- Heavy duty
