

INDUCTION BLANKETS

Thermal Tech & Temp's induction heating blankets are manufactured from durable high-temperature materials. Our flexible induction post-weld heat treatment (PWHT) blankets are designed to withstand the tough conditions in both industrial and construction applications.

KEY FEATURES:

- Custom made to fit your application
- Able to be reconfigured without a pegboard
- Made with durable high-temperature materials
- Improved welding environment
- No exposure to open flame
- No need for explosive glasses
- Easy setup
- Fits various pipe diameters and pipe lengths
- High strength
- Made with high temp magnets
