

INDUCTION INTERNAL PLUGS

Here at Thermal Tech & Temp, our induction internal plugs are custom made to fit your application. Our plugs allow for an even pre-heat and are powered by Miller ProHeat 35. Our induction internal plugs can be inserted into bearings, vessels, and large piping for induction heating. The temperature rating of these internal plugs can be up to 1100°F.

KEY FEATURES:

- Custom made for your application
- Allows even preheat
- Powered by Miller ProHeat 35
