

# THERMASIL NEEDEDLED MAT

Our Thermasil Neededled Mat is a high-temperature, fiber insulation composed of a minimum of amorphous silica fabric. This insulation is ideal for high-temperature gaskets and sealing. Also, this insulation is very reusable in the heat treatment industry.

### ADVANTAGES:

The unique properties of Thermasil Neededled Mat make it binder-free, highly resilient, non-respirable, fireproof, and cost-effective. Thermasil Neededled Mat also has outstanding chemical resistance, has excellent sound absorption, and low shrinkage.

### ROLL SIZES:

- 6 inches by 25 feet
- 24 inches by 25 feet
- 36 inches by 33 1/3 feet
- 60 inches by 25 feet
