

WELDING & KNEELING PADS

When it comes to ergonomics in the welding industry, making sure you have a good welding and kneeling pad is essential to easing the strain that industrial works are constantly putting on their knees. Not only do they provide comfort, but our welding and kneeling pads provide great protection from heat and weld sparks. Thermal Tech & Temp's welding and kneeling pads can fit in tight, hard-to-reach spaces to offer maximum comfort no matter where you are welding. Our welding and kneeling pads are also completely customizable to fit your needs.

KEY FEATURES:

- Can be placed in tight spaces
- Protects from heat, sparks, and slag
- High-temperature resistant
- Offered in a variety of thicknesses
- Custom fabricated to any shape or size
