

WELDING CURTAINS

Thermal Tech & Temp's custom-made welding curtains work to protect the workspace against weld spark and splatter. We offer our welding curtains in a variety of styles, sizes, and industrial textiles, including our FM-approved silicone-coated rubber fabric. Additionally, there are numerous fiberglass fabrics for light welding, grinding, and cutting as well as silica fabrics for heavy welding, slag, and spatter. With our welding curtains being made to order, it guarantees that they will be a perfect fit for your specific welding application.

KEY FEATURES:

- Highly re-usable
- Protects against sparks
- Shields against splatter
- Made in the U.S.A.
- Heavy duty
