CITY OF ROCHESTER SCHOOL
RELATIONSHIPS AND SEX EDUCATION

This policy, which applies to the whole school, and upon request a copy (which can be made available in large print or other accessible format if required) may be obtained from the School Office. This policy is also publicly available on the school website.

In the City of Rochester School, the term ‘staff’ is inclusive of all staff and it also applies to pupils on placement, contractors, agency staff, volunteers, the Trustees and Board of Trustees.

Monitoring and Review:

• This policy will be subject to continuous monitoring, refinement and audit by the Headteacher, being responsible for the day to day organisation of the curriculum, monitoring the weekly lesson plans for all staff, ensuring all planning is appropriately differentiated with relevant, appropriate learning objectives.

• The Headteacher along with the whole school teaching and therapy team review the long-term and medium-term planning, and ensure that appropriate targets and strategies are in place. It is intended that the ongoing review and development of the curriculum will support enthusiastic and inspirational teaching. The process of review plays a key role in the continuing professional development of all staff at City of Rochester School.

• The Trustees undertake a formal review of this policy for the purpose of monitoring and of the efficiency with which the related duties have been discharged, by no later than one year from the date shown below, or earlier if significant changes to the systems and arrangements take place, or if legislation, regulatory requirements or best practice guidelines so requires. This discussion will be formally documented in writing. Any deficiencies or weaknesses recognised in arrangements or procedures will be remedied immediately and without delay.

Signed:

Alicja Emmett  Claire Cooper
Headteacher  Chair of Trustees and Safeguarding Trustee

This policy will be reviewed no later than July 2021, or earlier if changes in legislation, regulatory requirements or best practice guidelines so require.

Date Reviewed: July 2020
Date of Next Review: July 2021
Version No. 2
Policy No 18:003

City of Rochester School is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.
1. Introduction:

1.1 Legislation: This policy will be compliant with the following guidance:

- DfE “sex and relationship education guidance” 2000
- DfE “science programmes of study: key stages 1 & 2” 2013
- DfE “science programmes of study: key stage 3” 2013
- DfE “science programmes of study: key stage 4” 2014

1.2 Aims and Principles: To embrace the challenges of creating a happy and successful adult life, pupils need knowledge that will enable them to make informed decisions about their well-being, health and relationships and to build their self-efficacy. Pupils can also put this knowledge into practice as they develop the capacity to make sound decisions when facing risks, challenges and complex contexts. Everyone faces difficult situations in their lives. These subjects can support young people to develop resilience, to know how and when to ask for help, and to know where to access support.

RSE is part of the personal, social and health and citizenship education (PSHE) curriculum and is taught through the Jigsaw PSHE Curriculum – Relationships Modules. While we use RSE to inform young people about sexuality and healthy relationships, we do this with regard to matters of morality and individual responsibility, and in a way that allows young people to ask and explore moral questions. We do not use RSE as a means of promoting any form of sexual orientation. The School is well aware that the primary role in young people’s sex and relationship education lies with parents and carers. We wish to build a positive and supporting relationship with the parents of young people at our School as a whole, through mutual understanding, trust and co-operation. The sex education and relationship programme is an opportunity for pupils to:

- Develop an understanding of sex, sexuality and relationships
- Develop a range of appropriate personal skills
- Prepare for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Learn the correct vocabulary to describe themselves and their bodies.

The aims will be achieved though the following objectives:

- Develop an understanding of a range of values and moral issues including the importance of family life
- Develop an understanding of the biological facts related to human growth and development, including reproduction
- Develop an understanding of the importance of healthy relationships
We teach sex and relationships education in the context of the school’s aims and values framework. While sex and relationships means that we give young people information about sexual behaviour, we do this with an awareness of the moral code and values which underpins our work. In particular, we teach sex and relationships education in the belief that:

- Sex and relationship education is part of a wider social, personal, spiritual and moral education process
- Young people should be taught to have respect for their own bodies
- Young people should learn about their responsibilities to others, and be aware of the consequences of sexual activity, including teenage pregnancy, sexually transmitted infections and sexual activity and the law
- It is important to build positive relationships with others, involving trust and respect
- Young people need to develop personal responsibility, self-respect and appropriate decision-making skills
- This policy is consistent with all other policies adopted by City of Rochester School and is written in line with current legislation and guidance.

2. Complaints: All complaints are dealt with under the City of Rochester School Complaints Policy. Complaints should be made in writing and will follow the City of Rochester School complaint procedures and set timescales. The handling of complaints may be delegated to an appropriate person.

3. Organisation of the Programme: RSE is coordinated by the PSHE co-ordinator (overseen by the Headteacher), responsible for the overall planning, implementation and review of the programme. RSE will be conducted in accordance with legislation and DfE recommendations, including the new curriculum guidance issued June 2019, and will be monitored and reviewed regularly. The majority of the programme will be delivered through the PSHE and citizenship framework, with aspects taught via the science and physical education curriculum. Students will be taught in mixed ability, mixed gender and single sex groupings as required.

In the primary years Relationships education is now compulsory.
‘Relationships Education is learning about the physical, social, legal and emotional aspects of human relationships including friendships, family life and relationships with other children and adults. Relationships education supports children to be safe, happy and healthy in their interactions with others now and in the future.’

In the secondary years Relationships, Sex and Health education are now compulsory. Parents can ONLY withdraw their children from Sex Education lessons (NOT Relationships), and then only until 3 terms before their 16th birthday, at which point the student can decide if they want to attend Sex Education lessons.

Sex Education is learning about the physical, social, legal and emotional aspects of human sexuality and behaviour, including human reproduction. This includes conception, safer sex, sexually transmitted infections and sexual health.

Relationships Education is learning about the physical, social, legal and emotional aspects of human relationships including friendships, intimate, sexual and committed relationships and family life. Relationships education supports children to be safe, happy and healthy in their interactions with others now and in the future.’

Appendix 1 sets out we meet the statutory RHSE outcomes in each age range and should be referred to which outcomes are taught and when.

4. Delivery of the programme: Classes may be taught in gender-segregated groups dependent upon the nature of the topic being delivered at the time, and the cultural background of pupils where it is only appropriate to discuss the body in single gender groups. Throughout every year group, appropriate diagrams, videos, books, games, discussion and practical activities will be used to assist learning. Inappropriate images, videos, etc will not be used, and resources will be selected with sensitivity given to the age, cultural background and learning levels of pupil. Students will be prevented from accessing inappropriate materials on the internet when using such to assist with their learning. The prevention measures taken to ensure this are outlined in the school’s E-safety Policy and IT Acceptable use agreement. Teachers and support workers will establish what is appropriate for one-to-one and whole-class settings, and alter their teaching of the programme accordingly. Teachers and support workers will ensure that pupil’s views are listened to and will encourage them to ask questions and engage in discussion. Teachers and support workers will answer questions sensitively and honestly. The programme will be designed as
to focus on boys as much as girls and activities will be planned to ensure both are actively involved, matching their different learning styles. Teachers and support workers will focus heavily on the importance of marriage and healthy relationships, though sensitivity will always be given as to not stigmatise pupils on the basis of their home circumstances. City of Rochester School understands that pupils and young people with special educational needs and disabilities (SEND) are entitled to learn about sex and relationship education, and the programme will be designed to be inclusive of all pupils. Teachers and support workers will understand that they may need to be more explicit and adapt their planning of work in order to appropriately deliver the programme to pupils with SEND. At all points of delivery of this programme, parents/carers will be consulted and their views will be valued. External experts may be invited to assist from time-to-time with the delivery of the sex and relationship educational programme, but will be expected to comply with the provisions of this policy.

5. Training of Staff: All staff members at City of Rochester School will undergo training on an annual basis to ensure they are up-to-date with the sex and relationship education programme. Training of staff will also be scheduled around any updated guidance on the programme and any new developments, such as “sexting”, which may need to be addressed in relation to the programme. City of Rochester School will ensure that teachers receive training on the social exclusion report on teenage pregnancy, and the role of an effective sex and relationship programme in reducing the number of teenage conceptions. Trained staff will be able to give pupils advice on where and how to obtain confidential advice, counselling and treatment, as well as advice on emergency contraception and their effectiveness.

6. Confidentiality: Teachers conduct sex and relationship education lessons in a sensitive manner and in confidence. Confidentiality within the classroom is an important component of RSE and teachers will be expected to respect the confidentiality of their pupils as far as is possible. Students should also respect the content and discussions brought about in RSE and should treat these with confidentiality. If a pupil makes a reference to being involved, or likely to be involved in unlawful sexual activity, then the teacher will take the matter seriously and deal with it as a matter of child protection in line with City of Rochester School’s child protection and safeguarding policy. Teachers and support staff will not advise pupils on personal matters but will refer the pupil to the teachers in charge who may be able to refer externally. Any decision about informing parents will be made in consultation with the Head Teacher who will take advice if necessary.

7. Parental Involvement: City of Rochester School understands that the teaching of some aspects of the programme may be of concern to parents/carers. The School will ensure that no teachers or support workers express their personal views or beliefs when delivering the programme. Parents/carers will be regularly consulted on the content of the programme, through meetings and letters, and the programme will therefore be planned in conjunction with parents/carers. City of Rochester School respects the legal right of parents/carers to withdraw their child from all or part of the sex education programme, except for those statutory parts included in the science national curriculum. If a parent wishes their child to be withdrawn from sex lessons, they should put in writing which aspects of the programme they do not wish their child to participate in and send this to City of Rochester School addressed to Alicja Emmett the Headteacher. Please note that parents wish to withdraw a child from sex lessons only applies up to and until three terms before the child turns 16. After that point, if the child wishes to receive sex education that is their choice. City of Rochester School always complies with the wishes of parents in this regard and will provide appropriate sources of information for parents who wish to withdraw their children. If a parent withdraws their child from topics that are not included in the statutory national curriculum then City of Rochester School will make alternative arrangements for the pupil. A list of the statutory topics included in the science national curriculum at the different key stages, can be found in Appendix 2 – Science national curriculum.

8. Equal Opportunities: City of Rochester School understands and abides by the equality act 2010, and fully respects the rights of pupils and staff members, regardless of any protected characteristics that he/she may have. The School is dedicated to delivering the sex and relationship education programme with sensitivity and respect, avoiding any derogatory or prejudicial terms which may cause offence. Schools have a duty under the Equality Act to ensure that teaching is accessible to all children and young people, including those who are lesbian, gay, bisexual and transgender (LGBT). Inclusive RSE will foster good relations between pupils, tackle all types of prejudice – including homophobia – and promote understanding and respect.

City of Rochester School is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.
9. **Bullying Incidents**: City of Rochester School has a zero tolerance approach to bullying. Any bullying incidents caused as a result of the sex and relationship education programme, such as those relating to sexual orientation, will be dealt with as seriously as other bullying incidents within the school. These incidents will be dealt with following the process in our anti-bullying policy. The Head Teacher will decide whether it is appropriate to notify the police or an anti-social behaviour coordinator in their LA of the action taken against a pupil.

10. **Monitoring**: The educational and personal needs of our pupils develop in line with varying societal pressures and economic change. Our aim is to provide RSE that is relevant and tailored to meet the needs of our pupils, depending on their age and stage of personal development. For this reason, we review the RSE curriculum yearly and will inform parents of any revisions to the school policy or sex education curriculum. We aim to monitor the effectiveness of our sex education provision through:
   - feedback from pupils
   - feedback from parents
   - feedback from staff
   - classroom observations.

The school will review this policy annually, evaluating its effectiveness by taking into account feedback from pupils, staff and parents, as well as what has come to light through classroom observations and information we receive from national reports and curriculum reviews.

11. **Equality Impact Assessment**: This document forms part of City of Rochester School’s commitment to create a positive culture of respect for all staff and service users. The intention is to identify, remove or minimise discriminatory practice in relation to the protected characteristics, as well as to promote positive practice and value the diversity of all individuals and communities. As part of its development, this document and its impact on equality has been analysed and no detriment identified.

12. **Appendix 2 – science national curriculum**: In accordance with the DfE’s “sex and relationship education guidance” 2019, there are certain aspects of sex education which are compulsory for pupils to learn as they progress through the key stages.
