

What is an Interior Designer?

"An interior designer is **responsible for the layout of the internal space in a building or structure**. An interior design relates to the layout and configuration of interior space and the design includes the skills of first and second fix installation to buildings such as kitchens, bathrooms, path-finding and surfaces."

Why is it recommended that you hire an Interior Designer?

Taking on an interior design project within your home can be overwhelming sometimes! Interior Designers are born with the innate sense to serve their clients and have the attention to detail to keep processes running as smoothly as possible!

Interior Designers have earned their degree from an accredited institution and have spent 100+ hours learning the ins and outs and implementing those skills.

Why is it recommended that you allow your Interior Designer to purchase furniture and accessories for you?

Interior Designers want to help make your experience as pleasant and easy as possible! When handling purchasing, Interior Designers will do the following:

- Creating invoicing for one-time payments for merchandise (Normally, this will not include shipping or freight fees)
- Once payments are received, your designer will purchase the merchandise for you.
- Your designers will either provide a warehouse to ship your merchandise to or will have shipped to a location of your choosing. If you choose to have your items shipped to your home, please work with your designer to inspect items as they arrive for any possible damage. Return requests will need to be processed as quickly as possible.
- Once orders are placed, your designer will track your shipments and keep you notified of deliveries or backorders.
- Once merchandise is delivered to the Shipping Warehouse or Designer's Office, merchandise will be inspected for damage and returns/replacements will be processed quickly.
- After all merchandise has arrived, inspected and if any replacements are needed, your designer will schedule an installation with you!

Allowing your Interior Designer to handle purchasing for you will ensure that your project is completed in a favorable time frame!

Not sure exactly what you are needing or where/how to start? Let's chat! Knowing exactly what you need, but not sure how to execute it? Let's chat! I love what I do and want to help you achieve your design dreams!
