SKIN + BODY CARE

VAYLERA CLEANSER

PRODUCT SALES BROCHURE

INSTITUTIONAL SURFACE CARE

VAYLERA CLEANER

Powerful, ready-to-use cleaning for high-use spaces
where performance, portability and simplicity matter.

Cleaner brings HOCl power to high-use environments.

01

HOSPITALS + VA

EVS, support spaces, noncritical surfaces and defined equipment exteriors.

02

MILITARY + GOVERNMENT

Installations, fleets, facilities, barracks and continuity-of-operations kits.

03

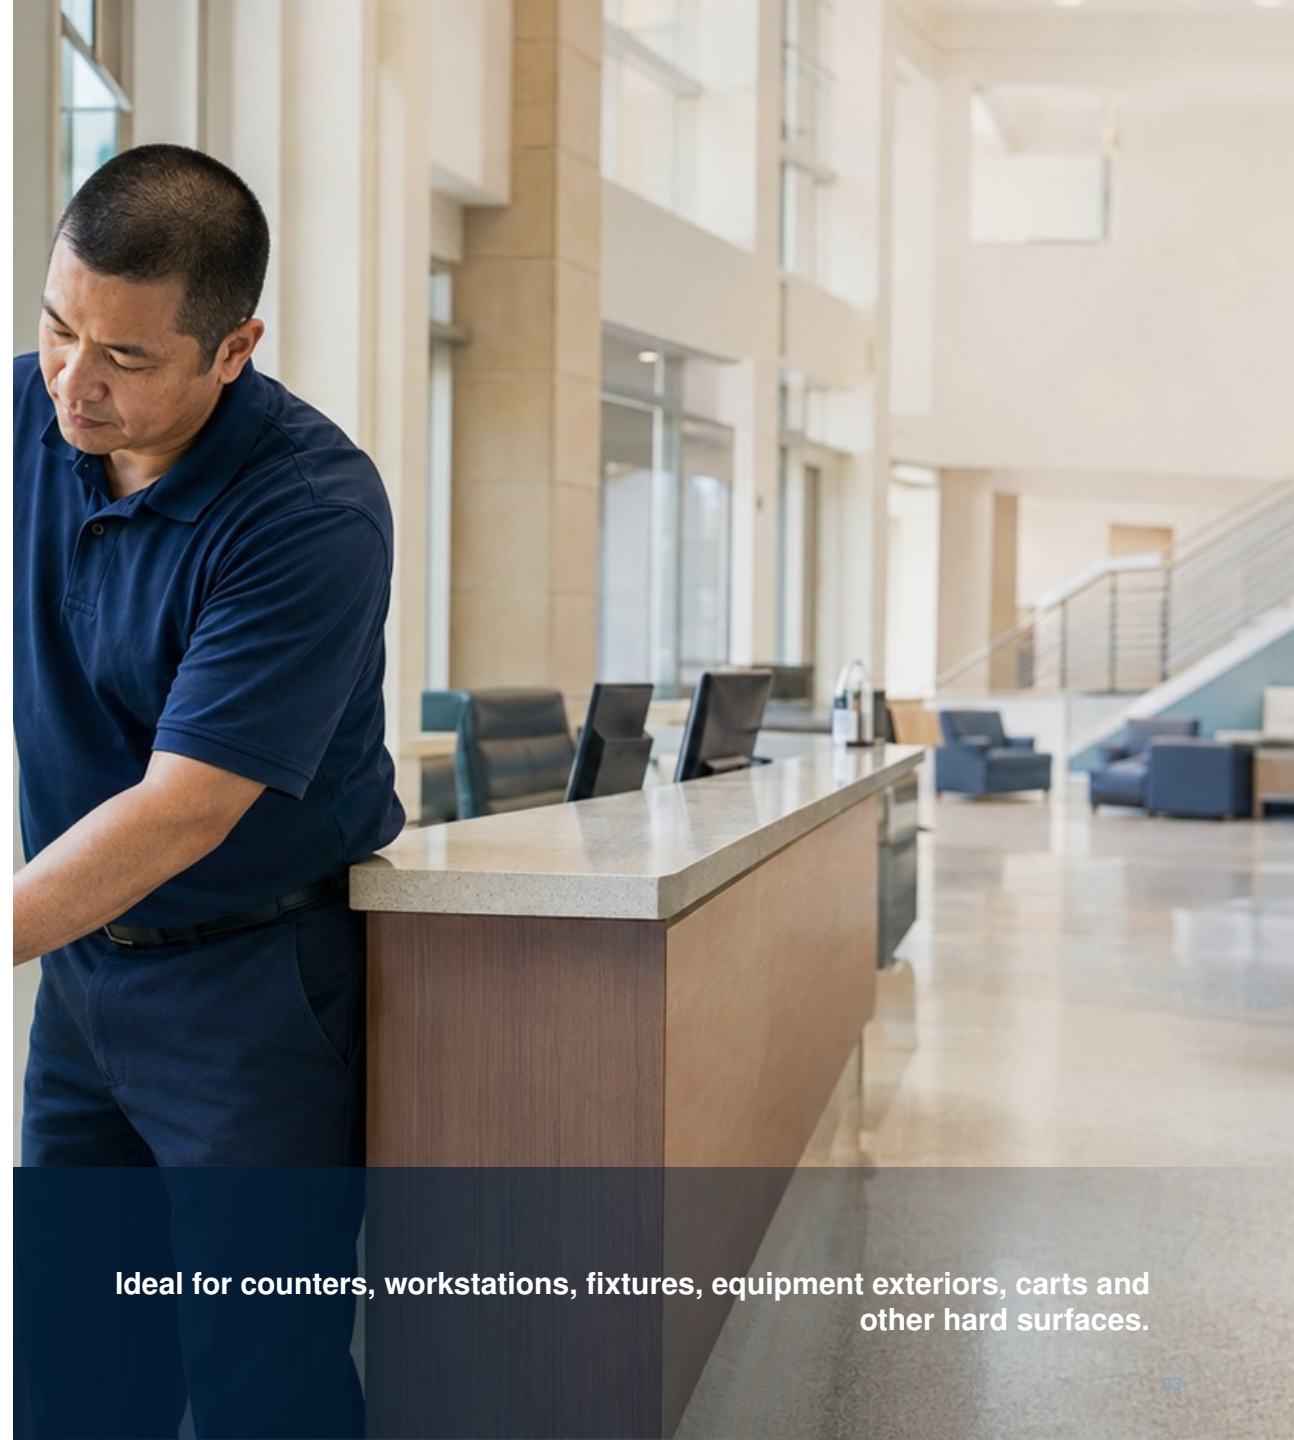

COMMERCIAL + JANITORIAL

Offices, lobbies, reception areas, restrooms, common spaces and service carts.

04

INSTITUTIONAL + HOSPITALITY

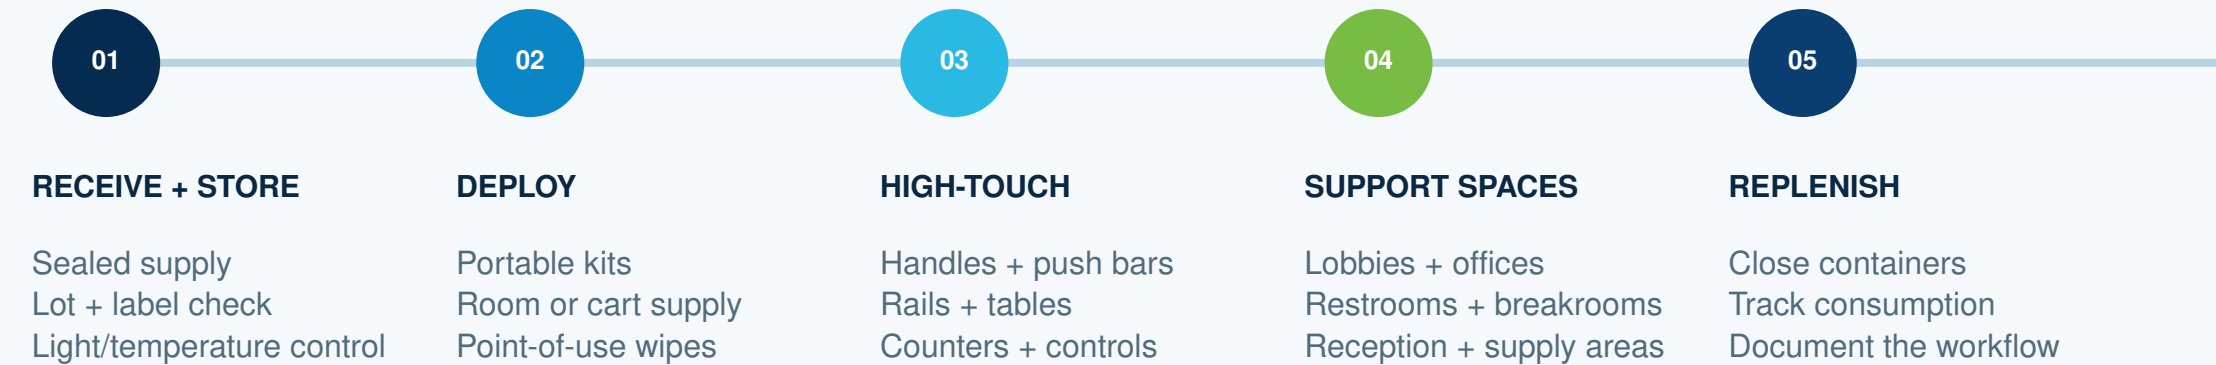

Education, corrections, long-term care and hospitality cleaning workflows.

Ideal for counters, workstations, fixtures, equipment exteriors, carts and other hard surfaces.

A simple five-step routine keeps facilities clean and ready.

A clear routine guides storage, placement, high-touch cleaning and replenishment.

TURN THE ROUTINE INTO A PROGRAM

Assign every room or zone a product location, a defined high-touch list and a minimum replenishment level. Teams begin from the same standard and shifts hand off with clear supply visibility.

Three Cleaner formats put the platform at the right point of use.

32 FL OZ

Trigger-spray Cleaner liquid. 24-month shelf life.

80 WIPE

Premoistened Cleaner wipes. 12-month shelf life.

1 GALLON

Bulk institutional Cleaner liquid. 24-month shelf life.

Built for mold, moisture and restoration work.

01 CONTROL THE MOISTURE

Address leaks, flooding and humidity to prepare the space for cleaning.

02 REMOVE DAMAGED MATERIAL

Clear unsalvageable porous material and remove loose visible contamination.

03 CLEAN WITH VAYLERA

Apply VAYLERA Cleaner to mold-affected hard, nonporous surfaces.

04 DRY + RESTORE

Complete structural drying and return the space to a clean, ready condition.

Published studies report rapid HOCl activity against *Aspergillus fumigatus* spores and black *Aspergillus* under tested conditions.

200 ppm HOCl delivers broad-spectrum cleaning power.

VAYLERA combines a simple ingredient list with the active chlorine form recognized for powerful microbicidal activity.

ACTIVE CHLORINE BALANCE

CDC identifies undissociated HOCl as the more microbicidal chlorine form.

200 ppm

Nominal free available chlorine

4.5–6.5

Finished-product pH range

LISTED INGREDIENTS

Purified water
Hypochlorous acid
Sodium chloride

FRAGRANCE FREE

ALCOHOL FREE

VIRUSES

BACTERIA

BIOFILM

Published carrier research: 20–200 ppm HOCl achieved ≥99.9% reductions of tested viruses within 10 minutes.

EXTERNAL-USE SKIN + BODY CARE

VAYLERA CLEANSER

Purpose-built external cleansing for skin, body
and wound care.

Cleanser supports everyday external skin and body cleansing.

01

INTACT SKIN CLEANSING

Gentle cleansing for intact external skin as part of a daily hygiene routine.

02

FACE + BODY SUPPORT

Convenient care for the face, neck, hands and body at home or on the go.

03

POST-ACTIVITY

Freshen skin after sports, workouts, work shifts or outdoor activity.

04

TRAVEL + WATER-LIMITED SETTINGS

Keep sprays or wipes within reach during travel, commuting and water-limited situations.

CLEANSER / PROFESSIONAL + HOME CARE

Professional care extends from bedside support to home health.

HEALTHCARE + VA

Clinics, bedside external skin care and daily patient-care routines.

HOME HEALTH

Caregiver supply for scheduled cleansing plans between professional visits.

SENIOR + LONG-TERM CARE

Gentle external cleansing that supports comfort, hygiene and dignified care.

POST-DISCHARGE + CAREGIVER KITS

Portable formats help extend a defined cleansing routine from facility to home.

Focused support for wounds, first aid and field response.

01 MINOR CUTS + SCRAPES

Cleanse superficial injuries before dressing, protection or follow-up care.

02 WOUND-CLEANSING SUPPORT

Support clinician-directed external wound-care routines at the point of care.

03 FIRST AID + RESPONDER KITS

Equip clinics, EMS, schools and field teams with portable cleansing access.

04 REMOTE + DISASTER RESPONSE

Stage compact cleansing formats for remote worksites and emergency operations.

Four Cleanser formats cover professional and portable care.

3.4 FL OZ

Pocket-size Cleanser liquid. 24-month shelf life.

32 FL OZ

Trigger-spray Cleanser liquid. 24-month shelf life.

80 WIPES

Premoistened Cleanser wipes. 12-month shelf life.

1 GALLON

Bulk professional-care Cleanser liquid. 24-month shelf life.

HOCl research supports skin tolerance and wound-care performance.

Human and laboratory studies have evaluated HOCl in repeated skin exposure, chronic wounds and tissue-repair models.

SAFETY + SKIN TOLERANCE

- Repeated 160 ppm HOCl-based exposure was well tolerated
- Intact and challenged skin showed no barrier impairment
- First-in-human chronic-wound study reported good tolerability
- Pain scores were comparable with saline placebo

WOUND + TISSUE EVIDENCE

- First-in-human study: 98% median wound-bioburden reduction
- Chronic-wound results supported continued clinical evaluation
- Stabilized HOCl supported fibroblast migration in vitro
- Stabilized HOCl supported keratinocyte migration in vitro
