

Lorrisa . art

Acrylics - Pen & Ink - Digital - Watercolor

Art and drawing has always been with me...

A native of the PNW, seeing beauty around me each day is as easy as opening my eyes in the morning. I've had the blessing to work as a cook, tailor, salesman (and the saleswoman), paramedic, firefighter, a small business owner, cosmetologist, curly hair specialist, interior designer, professional picture framer, event coordinator, administrative assistant, national level department head in sales and warranty, a business advisor, baker, pastry baker, wine connoisseur, wine tasting room associate and server. I've been around the block, so I became a good overcomer. Focused on the right scenes.

I've had a piece of art with me through it all. In my heart. Now I want to share.

Art through Inspiration.

I see things. I hear things. I meditate on meaning. The location comes into focus. I feel! I absorb... all I can handle at the time. I remember! I make note.

Then I create.

I'm growing to become more loose and free in the acrylics I'm now painting. My desire is to paint broad strokes with the impact of fine details. Incorporating, blending together, more than the sum of the parts. My new journey...

Painting a pathway to my future style.
