

BUILDING A COMMUNITY- SUPPORTED CARE SYSTEM FOR LONDON

CareCircle Community Support Initiative
Presented by Avera Care Support Services

LONDON'S GROWING COMMUNITY CARE CHALLENGE

Many seniors and vulnerable residents face growing care gaps in our community.

- Long waitlists for government care programs
- Limited family or financial support available
- Increasing isolation and serious health risks

These challenges affect thousands of London residents every day.

WHY EARLY SUPPORT MATTERS

Social isolation increases health risks like falls and depression. When seniors and vulnerable residents lack regular connection and support, small challenges can quickly become crises requiring emergency care.

Timely, preventative care helps people stay healthier longer, reduces hospital visits, and gives families peace of mind. Early intervention is always more effective than crisis response.

INTRODUCING CARECIRCLE

CareCircle connects community to care through a simple partnership model. Local businesses sponsor care hours to fund support services. Community partners identify and refer those in need. Avera Care provides professional, compassionate support. Our mission: "No one in London should go without basic care and human connection."

HOW CARECIRCLE WORKS

Step 1: Businesses Sponsor Care Hours

Local businesses commit to monthly sponsorship, funding dedicated care hours for seniors and vulnerable residents in their community. Every contribution directly supports a neighbour in need.

Step 2: Avera Care Organizes Services

Our professional team coordinates all care delivery, matching sponsored hours with residents who need support most. We handle scheduling, training, and quality assurance.

HOW CARECIRCLE WORKS

Step 3: Residents Receive Support

Seniors and vulnerable neighbours receive professional care services right at home or through community programs. From friendly visits to meal preparation, help arrives when and where it's needed most.

Step 4: Sponsors See the Difference

Business sponsors and community partners receive regular updates showing the real impact of their contributions. See firsthand how your support creates healthier, more connected neighbours.

SUPPORT THAT MAKES LIFE EASIER AND SAFER

Wellness & Companion Support: Friendly visits, social time, and wellness checks to reduce isolation.

Aging-at-Home Help: Meal prep, light housekeeping, and mobility assistance for daily living.

Caregiver Relief: Temporary respite care and family support when you need a break.

Community Programs: Fall prevention, dementia activities, and outreach events.

HOW CARECIRCLE MAKES A DIFFERENCE

Together, we reduce isolation and keep people well. CareCircle creates meaningful outcomes for our community:

- More social connection and companionship
- Support to age safely at home
- Reduced caregiver stress

- Fewer preventable hospital visits
- Stronger community ties across London

Every hour of care sponsored helps build a healthier, more connected community for everyone.

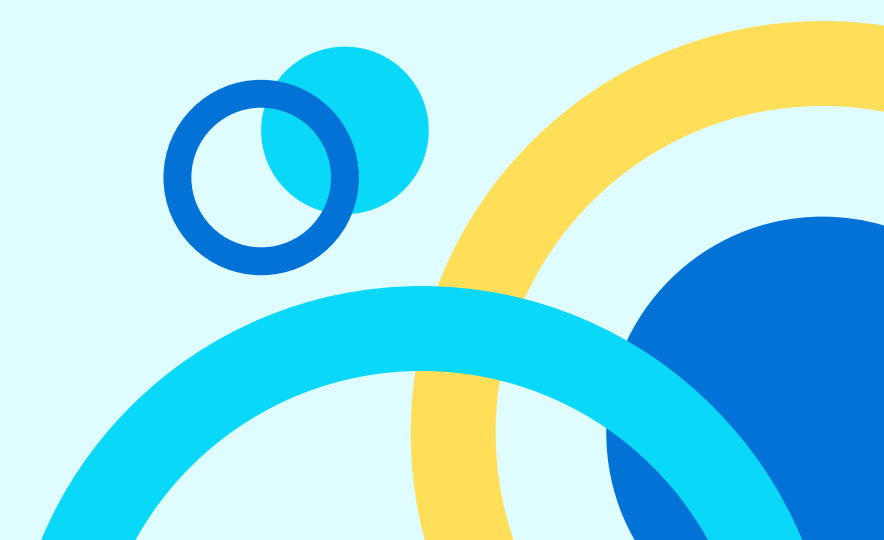

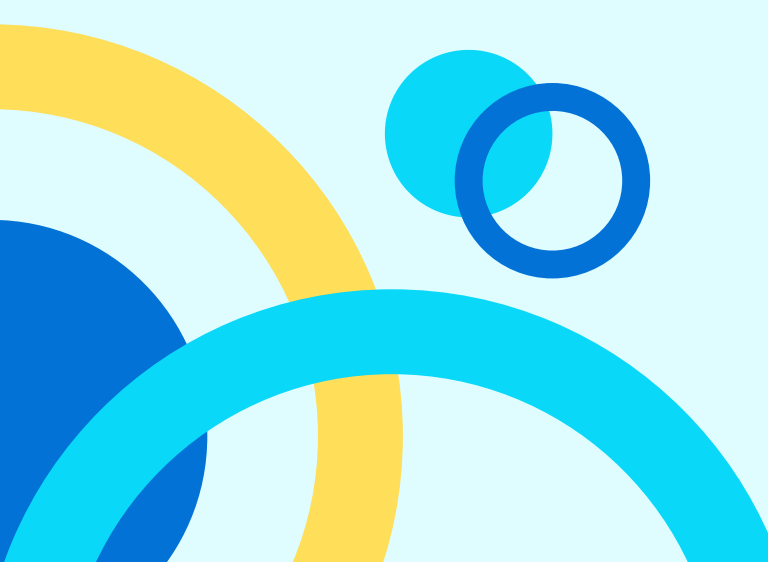

HOW CARECIRCLE MAKES A DIFFERENCE

Together, we reduce isolation and keep people well. Our outcomes include more social connection and companionship, support to age safely at home, and reduced caregiver stress.

We also help achieve fewer preventable hospital visits and build stronger community ties across London. Every hour of care creates lasting positive change.

JOIN CARECIRCLE — HELP BUILD A CARING LONDON

Together, we can ensure no one in London goes without care and connection.
Here's how you can help:

- Learn more and spread the word about CareCircle in your community
- Support through business sponsorship or volunteering your time
- Connect with Avera Care to partner or refer someone in need
