

Radical Transparency in Philanthropy Powered by Blockchain

TOKEN2049

29 SEP - 5 OCT 2025

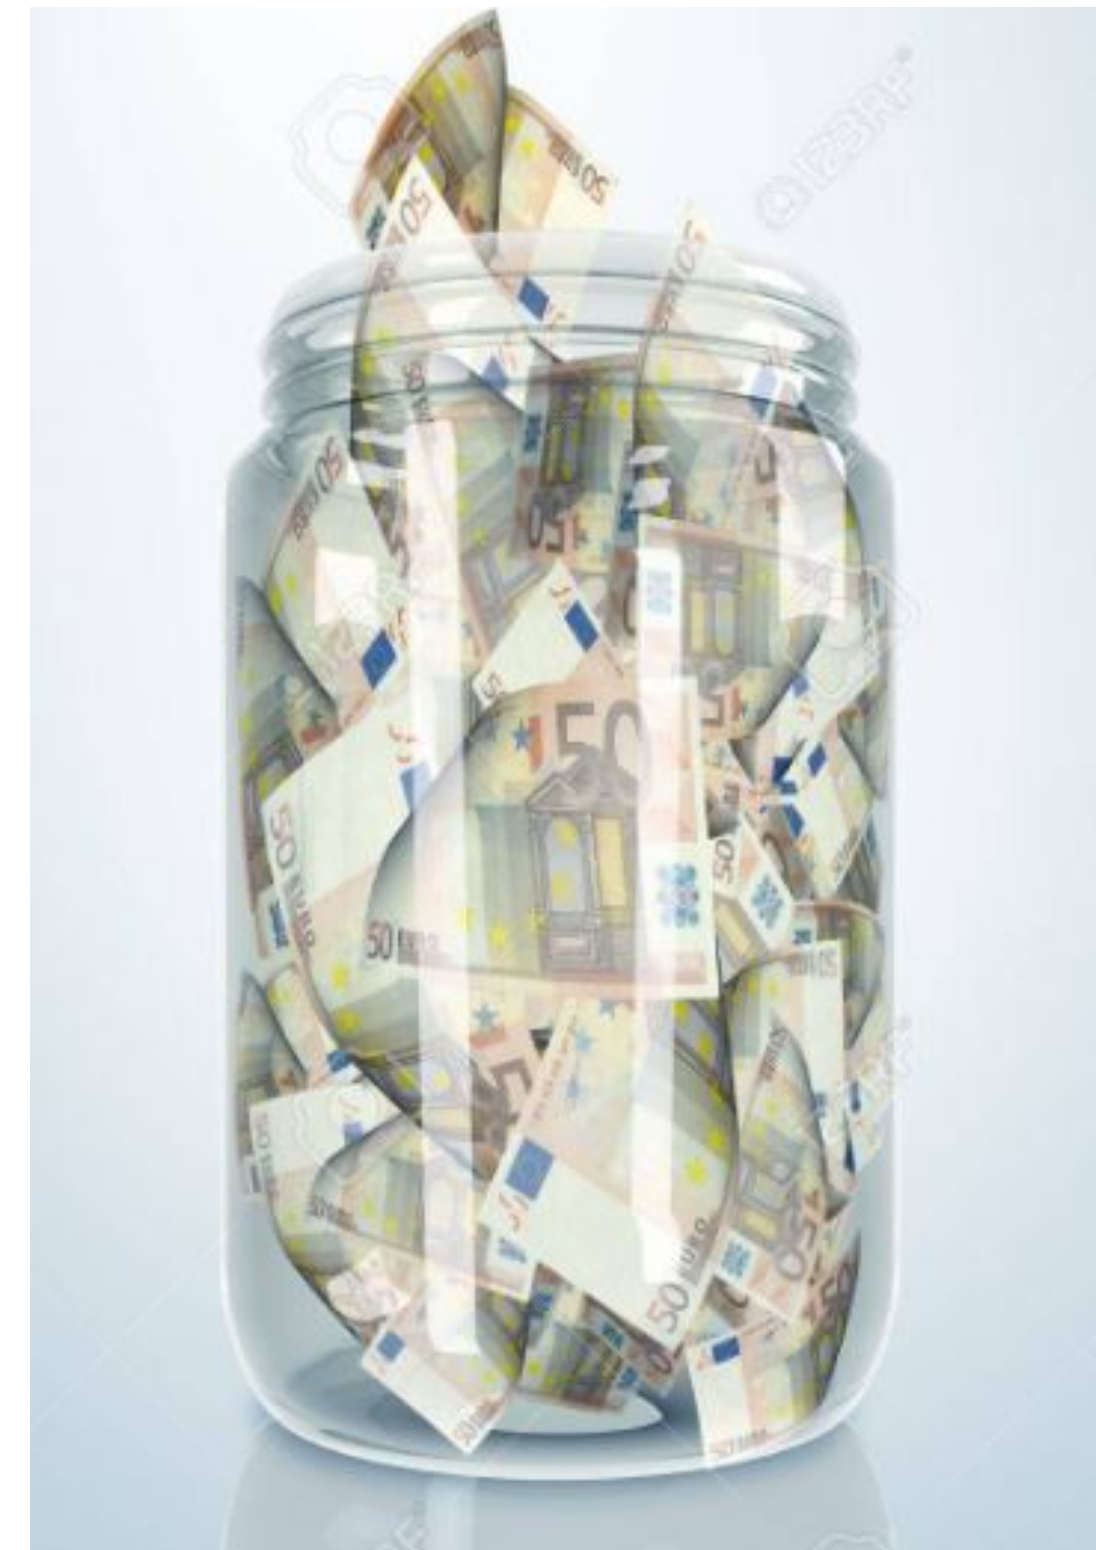

**We're Building a New Nonprofit:
On-chain, fully transparent, and accountable
to the public — not just a boardroom.**

**Our Focus:
Empowering “community-based causes” (disaster
response, education, health, the arts) through a
transparent financial ecosystem.**

Transparency is the Key!

- Every transaction is recorded and open to audit online and csv download
- *Anyone with an internet connection has access*
- This granularity of reporting is far superior to 990 tax reports, accounting firm audits, Guidestar, Trustpilot

~~Fear, Uncertainty and Doubt~~ Confidence, Certainty and Trust

- The Problem(s):
- ~~✗~~ Nonprofits represent about 9% of fraud cases with a median loss around \$75,000
- ~~✗~~ \$639,000 average losses in larger cases
- ~~✗~~ 74% of fraud committed by management
- ~~✗~~ Donor mistrust due to lack of transparency
- Fraud and uncertainty destroys trust, blockchain can help rebuild it.

Vision

”Integrity Through Transparency”

We believe trust is earned through “radical visibility” — every dollar in and out, forever on-chain.

Values - S. I. F. T.

- Social responsibility
- Integrity
- Fiscal accountability
- Transparency

Mission Statement

Philanthro Capital Ventures endeavors to engage in research and funding activities to develop, assist and promote beneficial change in social and economic systems across a landscape of community-based opportunities: disaster preparedness, education, health and human services and the arts.
