Spring Section Mtg

At the last meeting we voted to host the spring 2022 section meeting. Sooooo, if you want to get involved this is a great place to start

A Note from Abbie Kellett!

Thank goodness my students are taking better pictures of me than I am! We took April off at Jack Brown's for the stay at home order, BUT I used that time to finish my 75 required night hours for my ATP in my Cessna! Still a long way away, but it felt good to accomplish something. I'm still hard at work on my CFII. And I will probably be getting my MES down in Sebring soon! Way too convenient to have an Aircam that close, it would be silly to not use him.

Carly Madson Gets a new rating!

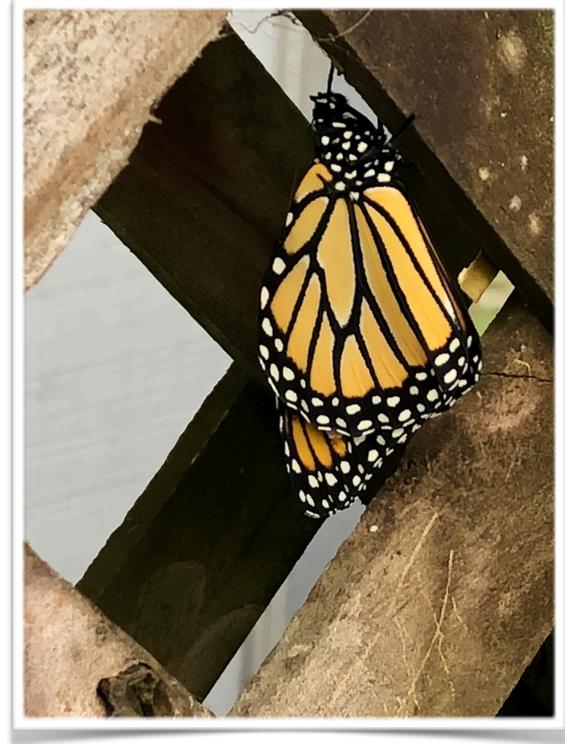

Carly passed commercial with multi engine add on last week! Flew the Piper Seneca. Took a flight to the keys and saw a sunken ship, and also solo'd my student Jennifer at KBOW.

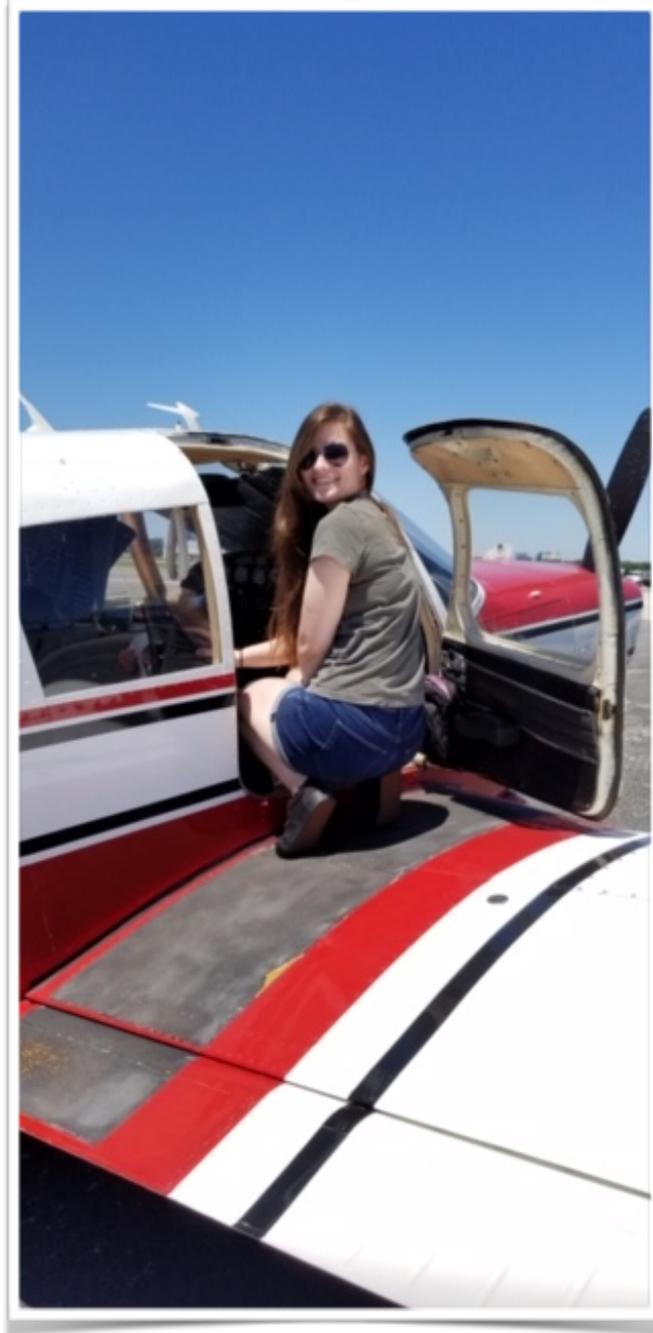

See the ship?

John Rouch has been working on his favorite toys and raising butterflies.

The Galati's at Arcadia airport having a picnic lunch with friends Mike and Jacki Roher.

Hannelore on the PA32 at Orlando Executive Airport!

Bruce and Vikki have been flying the SeaRey, it is in good shape, and so are we!

JoAnne and Steve are not taking any chances! I hope they take them off for bed!

JoAnne's 1,000 piece puzzel! Nice.

Of course Kathy is not taking any chances. She wears her mask while driving to the convent (not really) just checking to see who is reading these. As you can see below she also has been working in the garden!

The End
