Excavator 42

Electric Forklift 53

Diesel Forklift 58

Rough Terrain Forklift 63

LPG & Gasoline Forklift 66

Electric Stacker 68

Pallet Truck 71

Product Guide

Founded in 2007, EVERUN is an integrated enterprise specializing in the production of small wheel loaders, Excavators, forklifts and other earthmoving and construction equipment. The company operates three factories, maintains 3 foreign joint ventures, and has a registered company in Hong Kong.

EVERUN is powered by a group of talented people, including technical experts and a high-quality workforce, which enables us to provide timely, comprehensive support to customers at every stage of the sales process. We are committed to building "a globally recognized machinery enterprise" and strive for mutual benefit through win-win cooperation with our partners.

EVERUN product range includes 0.5-6 ton Wheel loaders, Excavators, forklifts, and their corresponding electric models developed in recent years. Our products hold multiple invention and utility model patents and are exported to over 100 countries and regions, including Germany, Finland, Austria, Sweden, the United States, and Canada.

Moving forward, EVERUN will integrate global resources and use professional expertise to anticipate market trends. We aim to redefine construction machinery standards in three ways: safer, greener, and more efficient, while advancing the efforts to build a high-end, intelligent, and green construction machinery industry. By taking actions to improve quality, we are committed to helping to manufacture "increase product variety, improve quality, and build stronger brands".

Oversea Branches

Our overseas branches serve as regional spare parts warehouses and technical training centers, ensuring faster and more responsive after-sales service.
