Foster Application

Thank you for considering fostering a rescue dog in a loving home until they can find their forever home! Having a dog live in a home will help them adjust in their forever home much quicker and will also allow us to figure out what behaviors or quirks they may have that need to be worked on before they go to a forever home. This will help to insure fewer returns and more happy dogs and adopters! Your decision to foster will have a huge impact on that dog and it's chances of finding that perfect forever home!

Fostering a rescue dog is a big responsibility so please talk it over with all the people living in your home because even though you will be the main caretaker, the dog will be sharing the home with everyone! It is important that everyone agree to welcome the foster dog with an open heart. Otherwise the experience will not be a positive one for you or the dog.

Morgan's Mutts Rescue will provide a crate, food, any medications, flea & tick prevention and heartworm prevention for the dog. Any medical treatment the dog may need while being fostered and we will also provide vet records of all shots and veterinary care the dog has had while in our care.

You provide love, support and training as needed. This may include but not limited to, house breaking, chewing, manners while inside the home and outside in public, and leash walking.

If you're ready to foster a rescue dog, let's get started!
