***Be On The  
Cutting Edge***

*Often times in the ceramic coating industry there is a lot of duplication. Company A buys a product from Company B, and resells it to Company C.*

*Pretty packaging, different slogan, slick video. Same recycled inferior product.*

*We started this company to be different, to change the industry and raise the expectations.*

*What does that mean?*

*DuraSlic coatings offer the most hydrophobic, oleophobic, robust and long-lasting ceramic protection available.*

*But how long will it last?*

*Only DuraSlic offers comprehensive real-world data to support our performance claims.*

CERAMIC COATINGS***

### Easy to Install

Because Time is Money

- Moderate flash rate and extended open time enables a larger working area
- Trust your team to easily install, allows you to focus on growing the business

### Superior Performance

For Long Lasting Performance

- Verified by ASTM standard scrub testing
- 10H Pencil Hardness testing

### Real World Value

Developed & Created in our Lab

- Unique formulations are developed, rigorously tested & produced in-house
- We trace & evaluate every lot we produce

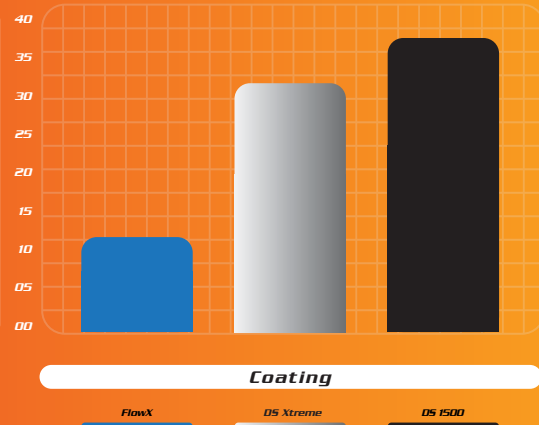

### Detailer Focused

Development, Production & Support

- Proudly Made in the USA
- Partnered with CARFAX
- Product and Marketing Support

## Experience the Revolution

### DS 1500 XTREME

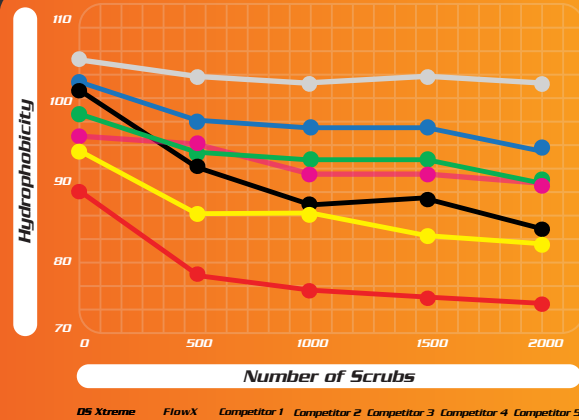

Professional Grade Ceramic Coating

DS 1500 Xtreme is the world's most advanced wipe-on ceramic coating that offers a high level of both hydrophobicity and oleophobicity.

It can be applied to painted, coated and base metal surfaces, glass and plastics, to impart an unprecedented level of protection from water, chemicals, UV and corrosion.

This product is exclusive to our Detailer Network

## Scrub Testing Durability

\*Car Soap (RainX) abrasion with Sponge per ASTM D2486. Contact angle measured with DI water.
